

§ 1370.6 What requirements for reports and evaluations apply to these programs?

Each entity receiving a grant or contract under these programs shall submit a performance report to the Secretary at such time as required by the Secretary. Such performance report shall describe the activities that have been carried out, contain an evaluation of the effectiveness of such activities, and provide such additional information as the Secretary may require. Territorial governments which consolidate FVPSA funds with other HHS funds in a Consolidated Block Grant pursuant to 45 CFR part 97 are not required to submit annual FVPSA performance progress reports and programmatic assurances if FVPSA funds are not designated in the consolidation application for FVPSA purposes. If a territorial government either does not consolidate FVPSA funds with other HHS funds or does consolidate but indicates that FVPSA funds will be used for FVPSA purposes, the territorial government must submit an annual FVPSA performance progress report and programmatic assurances to FYSB.
