**65941.** (a) The information compiled pursuant to Section 65940 shall also indicate the criteria which the agency will apply in order to determine the completeness of any application submitted to it for a development project.

(b) If a public agency is a lead or responsible agency for purposes of the California Environmental Quality Act, Division 13 (commencing with Section 21000) of the Public Resources Code, that criteria shall not require the applicant to submit the

informational equivalent of an environmental impact report as part of a complete application, or to otherwise require proof of compliance with that act as a prerequisite to a permit application being deemed complete. However, that criteria may require sufficient information to permit the agency to make the determination required by Section 21080.1 of the Public Resources Code.

(c) Consistent with this chapter, a responsible agency shall, at the request of the applicant, commence processing a permit application for a development project prior to final action on the project by a lead agency to the extent that the information necessary to commence the processing is available. (17) The location of any recorded public easement, such as easements for storm drains, water lines, and other public rights of way.

(b) (1) A development proponent that submits a preliminary application providing the information required by subdivision (a) may include in its preliminary application a request for a preliminary fee and exaction estimate, which the city, county, or city and county shall provide within 30 business days of the submission of the preliminary application.

(2) For development fees imposed by an agency other than a city, county, or city and county, including fees levied by a school district or a special district, the development proponent shall request the fee schedule from the agency that imposes the fee, and the agency that imposes the fee shall provide the fee schedule to the development proponent without delay.

(3) For purposes of this subdivision:

(A) "Exaction" has the same meaning as defined in Section 65940.1.

(B) (i) "Fee" means a fee or charge described in the Mitigation Fee Act (Chapter 5 (commencing with Section 66000), Chapter 6 (commencing with Section 66010), Chapter 8 (commencing with Section 66016), and Chapter 9 (commencing with Section 66020)).

(ii) Notwithstanding clause (i), "fee" does not include either of the following:

(I) The cost of providing electrical or gas service from a local publicly owned utility.

(II) A charge imposed on a housing development project to comply with the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(C) "Fee and exaction estimate" means a good faith estimate of the total amount of fees and exactions expected to be imposed in connection with the project.

(4) Except for the provision of the fee and exaction estimate by the local agency, nothing in this subdivision shall create or affect any rights or obligations with respect to fees or exactions.

(5) The fee and exaction estimate shall be for informational purposes only and shall not be legally binding or otherwise affect the scope, amount, or time of payment of any fee or exaction that is determined by other provisions of law.

(6) A development proponent may request a fee schedule from a city, county, or special district for fees described in Chapter 7 (commencing with Section 66012), or for the cost of providing electrical or gas service from a local publicly owned utility. The city, county, special district, or local publicly owned utility shall provide the fee schedule upon request.

(c) (1) Each local agency shall compile a checklist and application form that applicants for housing development projects may use for the purpose of satisfying the requirements for submittal of a preliminary application.

(2) The Department of Housing and Community Development shall adopt a standardized form that applicants for housing development projects may use for the purpose of satisfying the requirements for submittal of a preliminary application if a local agency has not developed its own application form pursuant to paragraph (1). Adoption of the standardized form shall not be subject to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(3) A checklist or form shall not require or request any information beyond that expressly identified in subdivision (a).

(d) After submittal of all of the information required by subdivision (a), if the development proponent revises the project such that the number of residential units or square footage of construction changes by 20 percent or more, exclusive of any increase resulting from the receipt of a density bonus, incentive, concession, waiver, or similar provision, the housing development project shall not be deemed to have submitted a preliminary application that satisfies this section until the development proponent resubmits the information required by subdivision (a) so that it reflects the revisions. For purposes of this subdivision, "square footage of construction" means the building area, as defined by the California Building Standards Code (Title 24 of the California Code of Regulations).

(e) (1) Within 180 calendar days after submitting a preliminary application with all of the information required by subdivision (a) to a city, county, or city and county, the development proponent shall submit an application for a development project that includes all of the information required to process the development application consistent with Sections 65940, 65941, and 65941.5.

(2) If the public agency determines that the application for the development project is not complete pursuant to Section 65943, the development proponent shall submit the specific information needed to complete the application within 90 days of receiving the agency's written identification of the necessary information. If the development proponent does not submit this information within the 90-day period, then the preliminary application shall expire and have no further force or effect.

(3) This section shall not require an affirmative determination by a city, county, or city and county regarding the completeness of a preliminary application or a development application for purposes of compliance with this section.

(f) Notwithstanding any other law, submission of a preliminary application in accordance with this section shall not preclude the listing of a tribal cultural resource on a national, state, tribal, or local historic register list on or after the date that the preliminary application is submitted. For purposes of Section 65589.5 or any other law, the listing of a tribal cultural site on a national, state, tribal, or local historic register on or after the date the preliminary application was submitted shall not be deemed to be a change to the ordinances, policies, and standards adopted and in effect at the time that the preliminary application was submitted.

*(Amended by Stats. 2025, Ch. 22, Sec. 18. (AB 130) Effective June 30, 2025.)*

**65941.5.** Each public agency shall notify applicants for development permits of the time limits established for the review and approval of development permits pursuant to Article 3 (commencing with Section 65940) and Article 5 (commencing with Section 65950), of the requirements of subdivision (e) of Section 65962.5, and of the public notice distribution requirements under applicable provisions of law. The public agency shall also notify applicants regarding the provisions of Section 65961. The public agency may charge applicants a reasonable fee not to exceed the amount reasonably necessary to provide the service required by this section. If a fee is charged pursuant to this section, the fee shall be collected as part of the application fee charged for the development permit.

*(Amended by Stats. 1987, Ch. 985, Sec. 2.)*

**65941.6.** (a) Each local agency shall develop materials relating to the requirements of the federal Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12101 et seq.). The local agency shall provide these materials to an applicant along with notice that approval of a permit does not signify that the applicant has complied with the federal Americans with Disabilities Act of 1990.

(b) For the purposes of complying with the requirements of subdivision (a), a local agency may, in lieu of developing its own materials, provide applicants with those materials which the California Commission on Disability Access has developed and made available pursuant to Section 8299.06.

*(Added by Stats. 2016, Ch. 13, Sec. 6. (SB 269) Effective May 10, 2016.)*

**65942.** The information and the criteria specified in Sections 65940, 65941, 65941.5 shall be revised as needed so that they shall be current and accurate at all times. Any revisions shall apply prospectively only and shall not be a basis for determining that an application is not complete pursuant to Section 65943 if the application was received before the revision is effective except for revisions for the following reasons resulting from the conditions which were not known and could not have been known by the public agency at the time the application was received:

(a) To provide sufficient information to permit the public agency to make the determination required by Section 21080.1 of the Public Resources Code, as provided by Section 65941.

(b) To comply with the enactment of new or revised federal, state, or local requirements, except for new or revised requirements of a local agency which is also the lead agency.

*(Amended by Stats. 1987, Ch. 803, Sec. 1.)*

**65943.** (a) Not later than 30 calendar days after any public agency has received an application for a development project, the agency shall determine in writing whether the application is complete and shall immediately transmit the determination to the applicant for the development project. If the application is determined to be incomplete, the lead agency shall provide the applicant with an exhaustive list of items that were not complete. That list shall be limited to those items actually required on the lead agency's submittal requirement checklist. In any subsequent review of the application determined to be incomplete, the local agency shall not request the applicant to provide any new information that was not stated in the initial list of items that were not complete. If the written determination is not made within 30 days after receipt of the application, and the application includes a statement that it is an application for a development permit, the application shall be deemed complete for purposes of this chapter. Upon receipt of any resubmittal of the application, a new 30-day period shall begin, during which the public agency shall determine the completeness of the application. If the application is determined not to be complete, the agency's determination shall specify those parts of the application which are incomplete and shall indicate the manner in which they can be made complete, including a list and thorough description of the specific information needed to complete the application. The applicant shall submit materials to the public agency in response to the list and description.

(b) Not later than 30 calendar days after receipt of the submitted materials described in subdivision (a), the public agency shall determine in writing whether the application as supplemented or amended by the submitted materials is complete and shall immediately transmit that determination to the applicant. In making this determination, the public agency is limited to determining whether the application as supplemented or amended includes the information required by the list and a thorough description of the specific information needed to complete the application required by subdivision (a). If the written determination is not made within that 30-day period, the application together with the submitted materials shall be deemed complete for purposes of this chapter.

(c) If the application together with the submitted materials are determined not to be complete pursuant to subdivision (b), the public agency shall provide a process for the applicant to appeal that decision in writing to the governing body of the agency or, if there is no governing body, to the director of the agency, as provided by that agency. A city or county shall provide that the right of appeal is to the governing body or, at their option, the planning commission, or both.

There shall be a final written determination by the agency on the appeal not later than 60 calendar days after receipt of the applicant's written appeal. The fact that an appeal is permitted to both the planning commission and to the governing body does not extend the 60-day period. Notwithstanding a decision pursuant to subdivision (b) that the application and submitted materials are not complete, if the final written determination on the appeal is not made within that 60-day period, the application with the submitted materials shall be deemed complete for the purposes of this chapter.

(d) Nothing in this section precludes an applicant and a public agency from mutually agreeing to an extension of any time limit provided by this section.

(e) A public agency may charge applicants a fee not to exceed the amount reasonably necessary to provide the service required by this section. If a fee is charged pursuant to this section, the fee shall be collected as part of the application fee charged for the development permit.

(f) Each city and each county shall make copies of any list compiled pursuant to Section 65940 with respect to information required from an applicant for a housing development project, as that term is defined in paragraph (2) of subdivision (h) of Section 65589.5, available both (1) in writing to those persons to whom the agency is required to make information available under subdivision (a) of that section, and (2) publicly available on the internet website of the city or county.

(g) For purposes of this section, "development project" includes a housing development project as defined in paragraph (3) of subdivision (b) of Section 65905.5.

*(Amended (as amended by Stats. 2021, Ch. 161, Sec. 7) by Stats. 2025, Ch. 22, Sec. 19. (AB 130) Effective June 30, 2025.)*

**65943.1.** (a) (1) Upon final approval of a housing development project, the city, county, or city and county shall provide the development proponent with an itemized list and a good faith estimate of the total sum amount of all fees and exactions that will apply to the project within 30 business days.

(2) For development fees imposed by an agency other than a city, county, or city and county, including fees levied by a school district or a special district, the development proponent shall request the good faith estimate of the total sum amount of all fees and exactions imposed by the agency that will apply to the project, and the agency shall provide the development proponent with this information within 30 business days.

(b) For purposes of complying with subdivision (a), a public agency that calculates fees using a cost recovery method to cover administrative cost shall provide fee estimates for those cost recovery fees based on the average amount of the fees imposed on similar projects.

(c) The itemized list and good faith estimate of the total sum amount of all fees and exactions described in subdivision (a) shall be for informational purposes only, shall not be legally binding on the agency, and shall not be construed to affect the scope, amount, or time of payment of any fees or exactions applicable to the project pursuant to other law.

(d) For purposes of this section:

(1) (A) "Exaction" means any of the following:

(i) A construction excise tax.

(ii) A requirement that the housing development project provide public art or an in-lieu payment.

(iii) Dedications of parkland or in-lieu fees imposed pursuant to Section 66477.

(iv) A special tax levied on new housing units pursuant to the Mello-Roos Community Facilities Act of 1982 (Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5).

(B) "Exaction" does not include fees or charges pursuant to Section 66013 that are not imposed (i) in connection with issuing or approving a permit for development or (ii) as a condition of approval of a proposed development, as held in *Capistrano Beach Water Dist. v. Taj Development Corp.* (1999) 72 Cal.App.4th 524.

(2) "Fee" means a fee or charge described in the Mitigation Fee Act (Chapter 5 (commencing with Section 66000), Chapter 6 (commencing with Section 66010), Chapter 8 (commencing with Section 66016), and Chapter 9 (commencing with Section 66020)). "Fee" does not include the cost of providing electrical or gas service from a local publicly owned utility.

(3) "Final approval" means that the housing development project has received all necessary approvals to be eligible to apply for, and obtain, a building permit or permits.

(4) "Housing development project" has the same meaning as defined in paragraph (3) of subdivision (b) of Section 65905.5.

(5) "Public agency" means a city, including a charter city, a county, including a charter county, or special district.

*(Added by Stats. 2024, Ch. 358, Sec. 3. (AB 1820) Effective January 1, 2025.)*

**65943.5.** (a) Notwithstanding any other provision of this chapter, any appeal pursuant to subdivision (c) of Section 65943 involving a permit application to a board, office, or department within the California Environmental Protection Agency shall be made to the Secretary for Environmental Protection.

**65944.** (a) After a public agency accepts an application as complete, the agency shall not subsequently request of an applicant any new or additional information which was not specified in the list prepared pursuant to Section 65940. The agency may, in the course of processing the application, request the applicant to clarify, amplify, correct, or otherwise supplement the information required for the application.

(b) The provisions of subdivision (a) shall not be construed as requiring an applicant to submit with an initial application the entirety of the information which a public agency may require in order to take final action on the application. Prior to accepting an application, each public agency shall inform the applicant of any information included in the list prepared pursuant to Section 65940 which will subsequently be required from the applicant in order to complete final action on the application.

(c) This section shall not be construed as limiting the ability of a public agency to request and obtain information which may be needed in order to comply with the provisions of Division 13 (commencing with Section 21000) of the Public Resources Code.

(d) (1) After a public agency accepts an application as complete, and if the project applicant has identified that the proposed project is located within 1,000 feet of a military installation or within special use airspace or beneath a low-level flight path in accordance

with Section 65940, the public agency shall provide notice of the complete application to any branch of the United States Armed Forces that has provided the Office of Planning and Research with points of contact to receive the notice.

(2) Except for a project within 1,000 feet of a military installation, the public agency is not required to provide a copy of the application if the project is located entirely in an "urbanized area." An urbanized area is any urban location that meets the definition used by the United State Department of Commerce's Bureau of Census for "urban" and includes locations with core census block groups containing at least 1,000 people per square mile and surrounding census block groups containing at least 500 people per square mile.

(e) After providing notice of the application as required in subdivision (d), and if requested by any branch of the United States Armed Forces, the public agency and the project applicant shall consult with the impacted military branch or branches to discuss the effects of the proposed project on military installations, low-level flight paths, or special use airspace, and potential alternatives and mitigation measures.

(f) The Office of Planning and Research shall maintain on its internet website and provide notice to public agencies all of the following:

- (1) Maps of low-level flight paths, special use airspace, and military installations.
- (2) The military points of contact to receive notifications pursuant to subdivision (d).
- (3) The information required in the notice of a completed application pursuant to subdivision (d). This information shall include, at a minimum, all of the following:
  - (A) The project's specific location.
  - (B) The major physical alterations to the property on which the project will be located.
  - (C) A site plan showing the location of the project on the property, as well as the massing, height, and approximate square footage, of each building that will be occupied.
  - (D) The proposed land uses by number of units or square feet using the categories in the applicable zoning ordinance.

**65945.** (a) At the time of filing an application for a development permit with a city or county, the city or county shall inform the applicant that he or she may make a written request to receive notice from the city or county of a proposal to adopt or amend any of the following plans or ordinances:

- (1) A general plan.
- (2) A specific plan.
- (3) A zoning ordinance.
- (4) An ordinance affecting building permits or grading permits.

The applicant shall specify, in the written request, the types of proposed action for which notice is requested. Prior to taking any of those actions, the city or county shall give notice to any applicant who has requested notice of the type of action proposed and whose development project is pending before the city or county if the city or county determines that the proposal is reasonably related to the applicant's request for the development permit. Notice shall be given only for those types of actions which the applicant specifies in the request for notification.

The city or county may charge the applicant for a development permit, to whom notice is provided pursuant to this subdivision, a reasonable fee not to exceed the actual cost of providing that notice. If a fee is charged pursuant to this subdivision, the fee shall be collected as part of the application fee charged for the development permit.

(b) As an alternative to the notification procedure prescribed by subdivision (a), a city or county may inform the applicant at the time of filing an application for a development permit that he or she may subscribe to a periodically updated notice or set of notices from the city or county which lists pending proposals to adopt or amend any of the plans or ordinances specified in subdivision (a), together with the status of the proposal and the date of any hearings thereon which have been set.

Only those proposals which are general, as opposed to parcel-specific in nature, and which the city or county determines are reasonably related to requests for development permits, need be listed in the notice. No proposal shall be required to be listed until such time as the first public hearing thereon has been set. The notice shall be updated and mailed at least once every six weeks; except that a notice need not be updated and mailed until a change in its contents is required.

The city or county may charge the applicant for a development permit, to whom notice is provided pursuant to this subdivision, a reasonable fee not to exceed the actual cost of providing that notice, including the costs of updating the notice, for the length of time the applicant requests to be sent the notice or notices.

**65945.3.** At the time of filing an application for a development permit with a local agency, other than a city or county, the local agency shall inform the applicant that he or she may make a written request to receive notice of any proposal to adopt or amend a rule or regulation affecting the issuance of development permits.

Prior to adopting or amending any such rule or regulation, the local agency shall give notice to any applicant who has requested such notice and whose development project is pending before the agency if the local agency determines that the proposal is reasonably related to the applicant's request for the development permit.

The local agency may charge the applicant for a development permit, to whom notice is provided pursuant to this section, a reasonable fee not to exceed the actual cost of providing that notice. If a fee is charged pursuant to this section, the fee shall be collected as part of the application fee charged for the development permit.

**65945.5.** At the time of filing an application for a development permit with a state agency, the state agency shall inform the applicant that he or she may make a written request to receive notice of any proposal to adopt or amend a regulation affecting the issuance of development permits and which implements a statutory provision.

Prior to adopting or amending any such regulation, the state agency shall give notice to any applicant who has requested such notice and whose development project is pending before the state agency if the state agency determines that the proposal is reasonably related to the applicant's request for the development permit.

**65945.7.** No action, inaction, or recommendation regarding any ordinance, rule, or regulation subject to this Section 65945, 65945.3, or 65945.5 by any legislative body, administrative body, or the officials of any state or local agency shall be held void or invalid or be set aside by any court on the ground of any error, irregularity, informality, neglect or omission (hereinafter called "error") as to any matter pertaining to notices, records, determinations, publications or any matters of procedure whatever, unless after an examination of the entire case, including evidence, the court shall be of the opinion that the error complained of was prejudicial, and that by reason of such error the party complaining or appealing sustained and suffered substantial injury, and that a different result would have been probable if such error had not occurred or existed. There shall be no presumption that error is prejudicial or that injury was done if error is shown.
