Refer to the *CMS-1500 Completion* section of this manual for instructions to complete claim fields not explained in the following example. For additional claim preparation information, refer to the *Forms: Legibility and Completion Standards* section of this manual.

**Billing Tips:** When completing claims, do not enter the decimal points in ICD-10-CM codes or dollar amounts. If requested information does not fit neatly in the *Additional Claim Information* field (Box 19) of the claim, type it on an 8½ x 11-inch sheet of paper and attach it to the claim.

## Weekly Injections

*Figure 1. Billing example for weekly injections.*

*This is a sample only. Please adapt to your billing situation.*

In this example, the injection is administered once a week for two weeks. The first injection is administered on August 10, 2014, and the second injection is administered on August 17, 2014.

Claim Line 1: First Injection

Enter the date the first injection is administered on claim line 1 in the *Date(s) of Service* field (Box 24A under “From”) as “081014.”

Enter Place of Service code “11” (office) in Box 24B and the usual and customary charges in the *Charges* field (Box 24F). Enter a “180” in the *Days or Units* field (Box 24G).

Claim Line 2: Second Injection

Enter the date the second injection is administered on claim line 2 in the *Date(s) of Service* field (Box 24A under "From") as "081714."

Enter Place of Service code "11" (office) in Box 24B and the usual and customary charges in the *Charges* field (Box 24F). Enter a "180" in the *Days or Units* field (Box 24G).

The name of the drug and the dates administered are referenced in the *Additional Claim Information* field (Box 19) or on an attachment to the claim.

Physician-Administered Drug Requirements: Claim Lines 1 and 2

Because the injections are considered "physician-administered" drugs, providers must enter the two-character product qualifier and 11-digit National Drug Code (NDC). The NDC unit of measure qualifier and numeric quantity are entered in the shaded areas above Boxes 24A and 24D. Instructions to complete these fields are included in the *Physician-Administered Drugs – NDC: CMS-1500 Billing Instructions* section in this manual.

**Note:** Unit of measure and numeric quantity are optional. Absence of these two elements will not result in claim denial. Claims for vaccines do not require an NDC. Also, payment for bulk drugs is not allowed. Bulk drugs are Active Pharmaceutical Ingredients (APIs) that are represented for use in the drug and that when used in the manufacturing, processing or packaging of a drug, become an active ingredient of the drug product. APIs are distributed in a form (for example, a kilogram of powder) that does not meet the definition of a covered outpatient drug product by both the federal Food and Drug Administration according to the *Food, Drug, and Cosmetic Act,* Section 505, and Section 1927(k)(2) of the *Social Security Act*. (An example of such a bulk drug would be pharmaceutically active ingredients combined into a pharmaceutical product/formulation, whether the products are combined by the provider or ordered from a compounding pharmacy.)
