

# A2122: Route of Current Reconciled Medication List Transmission to Subsequent Provider

A2122.	<b>Route of Current Reconciled Medication List Transmission to Subsequent Provider</b> Indicate the route(s) of transmission of the current reconciled medication list to the subsequent provider. Complete only if A2121 = 1
↓	<b>Check all that apply</b>
	<b>Route of Transmission</b>
<input type="checkbox"/>	<b>A. Electronic Health Record</b>
<input type="checkbox"/>	<b>B. Health Information Exchange</b>
<input type="checkbox"/>	<b>C. Verbal</b> (e.g., in-person, telephone, video conferencing)
<input type="checkbox"/>	<b>D. Paper-based</b> (e.g., fax, copies, printouts)
<input type="checkbox"/>	<b>E. Other methods</b> (e.g., texting, email, CDs)

*The guidance below addresses coding A2122. Route of Current Reconciled Medication List Transmission to Subsequent Provider. Assessors should apply this same guidance to A2124. Route of Current Reconciled Medication List Transmission to Resident.*

## Item Rationale

This item collects important data to monitor how medication lists are transmitted at discharge.

## Steps for Assessment

1. Identify all routes of transmission that were used to provide the resident’s current reconciled medication list to the subsequent provider.

## A2122: Route of Current Reconciled Medication List Transmission to Subsequent Provider (cont.)

### Coding Instructions

Select the codes that correspond to the routes of transmission used to provide the medication list to the subsequent provider.

- **Check A2122A, Electronic Health Record:** if your facility has an EHR, sometimes referred to as an electronic medical record (EMR), and used it to transmit or provide access to the reconciled medication list to the subsequent provider. This would include situations in which both the discharging and receiving provider have direct access to a common EHR system. Checking this route does not require confirmation that the subsequent provider has accessed the common EHR system for the medication list.
- **Check A2122B, Health Information Exchange:** if your facility participates in a Health Information Exchange (HIE) and used the HIE to electronically exchange the current reconciled medication list with the subsequent provider.
- **Check A2122C, Verbal:** if the current reconciled medication list information was verbally communicated (e.g., in-person, telephone, video conferencing) to the subsequent provider.
- **Check A2122D, Paper-Based:** if the current reconciled medication list was transmitted to the subsequent provider using a paper-based method such as a printout, fax, or eFax.
- **Check A2122E, Other Methods:** if the current reconciled medication list was transmitted to the subsequent provider using another method not listed above (e.g., texting, email, CDs).

#### DEFINITIONS

##### EHR/EMR

An electronic health record (EHR), sometimes referred to as an electronic medical record (EMR), is an electronic version of a resident's medical history that is maintained by the provider over time.<sup>3</sup>

##### PORTAL

A portal is a secure online website that gives providers, residents, and others convenient, 24-hour access to personal health information from anywhere with an Internet connection.<sup>4</sup>
