Assembly Bill No. 1129

CHAPTER 377

An act to add Section 1797.227 to the Health and Safety Code, relating to emergency medical services.

[Approved by Governor September 30, 2015. Filed with Secretary of State September 30, 2015.]

LEGISLATIVE COUNSEL'S DIGEST

AB 1129, Burke. Emergency medical services: data and information system.

Existing law, the Emergency Medical Services System and the Prehospital Emergency Medical Care Personnel Act, governs local emergency medical services (EMS) systems. The act establishes the Emergency Medical Services Authority, which is responsible for the coordination and integration of all state agencies concerning emergency medical services. Existing law requires a local EMS agency to plan, implement, and evaluate an emergency medical services system, as specified, and authorizes the local EMS agency to develop and submit a plan to the authority for an emergency medical services system according to prescribed guidelines that address data collection and evaluation, among other things.

This bill would require an emergency medical care provider to, when collecting and submitting data to a local EMS agency, use an electronic health record system that exports data in a format that is compliant with the current versions of the California Emergency Medical Services Information System (CEMSIS) and the National Emergency Medical Services Information System (NEMSIS) standards, includes those data elements required by the local EMS agency, and uses an electronic health record system that can be integrated with the local EMS agency's data system, as specified. The bill would prohibit a local EMS agency from mandating that a provider use a specific electronic health record system to collect and share data with the agency. The bill would not modify or affect a written contract or agreement executed before January 1, 2016, between a local EMS agency and an emergency medical care provider.

Vote: majority Appropriation: no Fiscal Committee: no Local Program: no

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

SECTION 1. Section 1797.227 is added to the Health and Safety Code, to read:

1797.227. (a) An emergency medical care provider shall do both of the following when collecting and submitting data to a local EMS agency:

- (1) Use an electronic health record system that exports data in a format that is compliant with the current versions of the California Emergency Medical Services Information System (CEMSIS) and the National Emergency Medical Services Information System (NEMSIS) standards and includes those data elements that are required by the local EMS agency.

(2) Ensure that the electronic health record system can be integrated with the local EMS agency's data system, so that the local EMS agency may collect data from the provider.

(b) A local EMS agency shall not mandate that a provider use a specific electronic health record system to collect and share data with the local EMS agency.

(c) This section does not modify or affect a written contract or agreement executed before January 1, 2016, between a local EMS agency and an emergency medical care provider.
