LEGISLATIVE COUNSEL'S DIGEST

SR 72, Huff.

WHEREAS, As many as 15 million people in the United States have a food allergy; and

WHEREAS, Symptoms of a food-allergic reaction can include hives, vomiting, diarrhea, respiratory distress, and swelling of the throat; and

WHEREAS, Anaphylaxis is a serious allergic reaction that is rapid in onset and may cause death; and

WHEREAS, According to the Centers for Disease Control and Prevention, food allergies result in more than 200,000 ambulatory care visits a year involving children under 18 years of age.
