**LEGISLATIVE COUNSEL'S DIGEST**

AB 184, Berman. Sea level rise planning: database.

Existing law requires the Natural Resources Agency, in collaboration with the Ocean Protection Council, to create, update biannually, and post on an Internet Web site a Planning for Sea Level Rise Database describing steps being taken throughout the state to prepare for, and adapt to, sea level rise. Existing law further requires that various public agencies and private entities provide to the agency, on a biannual basis, sea level rise planning information, as defined, that is under the control or jurisdiction of the public agencies or private entities, and requires the agency to determine the information necessary for inclusion in the database, as prescribed. Existing law repeals these provisions on January 1, 2018.

This bill would postpone that repeal until January 1, 2023.
