Date Published: 09/12/2017 09:00 PM

Senate Bill No. 684

CHAPTER 246

An act to amend Sections 1368.1 and 1370 of the Penal Code, and to amend Section 5008 of the Welfare and Institutions Code, relating to criminal trial.

[Approved by Governor September 11, 2017. Filed with Secretary of State September 11, 2017.]

LEGISLATIVE COUNSEL'S DIGEST

SB 684, Bates. Incompetence to stand trial: conservatorship: treatment.

(1) Existing law prohibits a person from being tried or adjudged to punishment while that person is mentally incompetent. Existing law establishes a process by which a defendant's mental competency is evaluated and by which the defendant receives treatment with the goal of returning the defendant to competency. Existing law allows a mentally incompetent defendant to be committed to the State Department of State Hospitals or other public or private treatment facility for a period of 3 years or to a period of commitment equal to the maximum term of imprisonment provided by law for the most serious offense charged, whichever is shorter, and requires the defendant to be returned to the committing court after his or her maximum period of commitment. If the defendant is gravely disabled upon his or her return to the committing court, existing law requires the court to order the conservatorship investigator of the county to initiate conservatorship proceedings on the basis that the indictment or information pending against the person charges a felony involving death, great bodily harm, or a serious threat to the physical well-being of another person.

This bill would also allow the initiation of conservatorship proceedings on the basis that person is gravely disabled due to a condition in which the person, as a result of a mental health disorder, is unable to provide for his or her basic personal needs for food, clothing, or shelter.

(2) Existing law requires, if the action is on a complaint charging a felony, that a proceeding to determine mental competence be held prior to the filing of an information unless counsel for the defendant requests a preliminary examination. Existing law requires an indictment or information to be pending against the defendant at the time a conservatorship is initiated.

This bill would allow, if the action is on a complaint charging a felony involving death, great bodily harm, or a serious threat to the physical well-being of another person, the prosecuting attorney, at any time before or after a defendant is determined incompetent to stand trial, to request a determination of probable cause to believe the defendant committed the offense or offenses alleged in the complaint, solely for the purpose of establishing that the defendant is gravely disabled, and would grant the defendant a preliminary hearing after restoration of competency. The bill would define "gravely disabled" for these purposes as a condition where the person has been found mentally incompetent by specified procedures, and certain other facts exist, including, among others, that the person is charged with a felony involving death, great bodily harm, or a serious threat to the physical well-being of another person. The bill would allow for the initiation of a conservatorship upon a criminal complaint if there has been a finding of probable cause on the complaint. The bill would provide that a proceeding to determine mental competence, or in the alternative,

a request for a preliminary examination, as described above, would not preclude a determination of probable cause as described above, and vice versa.

Vote: majority Appropriation: no Fiscal Committee: no Local Program: no

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

SECTION 1. Section 1368.1 of the Penal Code is amended to read:

1368.1. (a) (1) If the action is on a complaint charging a felony, proceedings to determine mental competence shall be held prior to the filing of an information unless the counsel for the defendant requests a preliminary examination under Section 859b. At the preliminary examination, counsel for the defendant may either demur, move to dismiss the complaint on the ground that there is not reasonable cause to believe that a felony has been committed and that the defendant is guilty thereof, or make a motion under Section 1538.5. A proceeding to determine mental competence or a request for a preliminary examination pursuant to this paragraph does not preclude a request for a determination of probable cause pursuant to paragraph (2).

(2) If the action is on a complaint charging a felony involving death, great bodily harm, or a serious threat to the physical well-being of another person, the prosecuting attorney may, at any time before or after a defendant is determined incompetent to stand trial, request a determination of probable cause to believe the defendant committed the offense or offenses alleged in the complaint, solely for the purpose of establishing that the defendant is gravely disabled pursuant to subparagraph (B) of paragraph (1) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, pursuant to procedures approved by the court. In making this determination, the court shall consider using procedures consistent with the manner in which a preliminary examination is conducted. A finding of probable cause shall only be made upon the presentation of evidence sufficient to satisfy the standard set forth in subdivision (a) of Section 872. The defendant shall be entitled to a preliminary hearing after the restoration of his or her competence. A request for a determination of probable cause pursuant to this paragraph does not preclude a proceeding to determine mental competence or a request for a preliminary examination pursuant to paragraph (1).

(b) If the action is on a complaint charging a misdemeanor, counsel for the defendant may either demur, move to dismiss the complaint on the ground that there is not reasonable cause to believe that a public offense has been committed and that the defendant is guilty thereof, or make a motion under Section 1538.5.

(c) If the proceeding involves an alleged violation of probation, mandatory supervision, postrelease community supervision, or parole, counsel for the defendant may move to reinstate supervision on the ground that there is not probable cause to believe that the defendant violated the terms of his or her supervision.

(d) In ruling upon any demurrer or motion described in subdivision (a), (b), or (c), the court may hear any matter which is capable of fair determination without the personal participation of the defendant.

(e) A demurrer or motion described in subdivision (a), (b), or (c) shall be made in the court having jurisdiction over the complaint. The defendant shall not be certified until the demurrer or motion has been decided.

SEC. 2. Section 1370 of the Penal Code is amended to read:

1370. (a) (1) (A) If the defendant is found mentally competent, the criminal process shall resume, the trial on the offense charged or hearing on the alleged violation shall proceed, and judgment may be pronounced.

(B) If the defendant is found mentally incompetent, the trial, the hearing on the alleged violation, or the judgment shall be suspended until the person becomes mentally competent.

(i) In the meantime, the court shall order that the mentally incompetent defendant be delivered by the sheriff to a State Department of State Hospitals facility, as defined in Section 4100 of the Welfare and Institutions Code, for the care and treatment of the mentally disordered, as directed by the State Department of State Hospitals, or to any other available public or private treatment facility, including a community-based residential treatment system established pursuant to Article 1 (commencing with Section 5670) of Chapter 2.5 of Part 2 of Division 5 of the Welfare and Institutions Code if the facility has a secured perimeter or a locked and controlled treatment facility, approved by the community program director that will promote the defendant's speedy restoration to mental competence, or placed on outpatient status as specified in Section 1600.

(ii) However, if the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290, the prosecutor shall determine whether the defendant previously has been found mentally incompetent to stand trial pursuant to this chapter on a charge of a Section 290 offense, or whether the defendant is currently the subject of a pending Section 1368 proceeding arising out of a charge of a Section 290 offense. If either determination is made, the prosecutor shall so notify the court and defendant in writing. After this notification,

and opportunity for hearing, the court shall order that the defendant be delivered by the sheriff to a State Department of State Hospitals facility, as directed by the State Department of State Hospitals, or other secure treatment facility for the care and treatment of the mentally disordered unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iii) If the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290 and the defendant has been denied bail pursuant to subdivision (b) of Section 12 of Article I of the California Constitution because the court has found, based upon clear and convincing evidence, a substantial likelihood that the person's release would result in great bodily harm to others, the court shall order that the defendant be delivered by the sheriff to a State Department of State Hospitals facility, for the care and treatment of the mentally disordered, as directed by the State Department of State Hospitals, unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iv) The clerk of the court shall notify the Department of Justice in writing of a finding of mental incompetence with respect to a defendant who is subject to clause (ii) or (iii) for inclusion in his or her state summary criminal history information.

(C) Upon the filing of a certificate of restoration to competence, the court shall order that the defendant be returned to court in accordance with Section 1372. The court shall transmit a copy of its order to the community program director or a designee.

(D) A defendant charged with a violent felony may not be delivered to a State Department of State Hospitals facility or treatment facility pursuant to this subdivision unless the State Department of State Hospitals facility or treatment facility has a secured perimeter or a locked and controlled treatment facility, and the judge determines that the public safety will be protected.

(E) For purposes of this paragraph, "violent felony" means an offense specified in subdivision (c) of Section 667.5.

(F) A defendant charged with a violent felony may be placed on outpatient status, as specified in Section 1600, only if the court finds that the placement will not pose a danger to the health or safety of others. If the court places a defendant charged with a violent felony on outpatient status, as specified in Section 1600, the court shall serve copies of the placement order on defense counsel, the sheriff in the county where the defendant will be placed, and the district attorney for the county in which the violent felony charges are pending against the defendant.

(2) Prior to making the order directing that the defendant be committed to the State Department of State Hospitals or other treatment facility or placed on outpatient status, the court shall proceed as follows:

(A) The court shall order the community program director or a designee to evaluate the defendant and to submit to the court within 15 judicial days of the order a written recommendation as to whether the defendant should be required to undergo outpatient treatment, or be committed to the State Department of State Hospitals or to any other treatment facility. A person shall not be admitted to a State Department of State Hospitals facility or other treatment facility or placed on outpatient status under this section without having been evaluated by the community program director or a designee. The community program director or designee shall evaluate the appropriate placement for the defendant between a State Department of State Hospitals facility or the community-based residential treatment system based upon guidelines provided by the State Department of State Hospitals.

(B) The court shall hear and determine whether the defendant lacks capacity to make decisions regarding the administration of antipsychotic medication. The court shall consider opinions in the reports prepared pursuant to subdivision (a) of Section 1369, as applicable to the issue of whether the defendant lacks capacity to make decisions regarding the administration of antipsychotic medication, and shall proceed as follows:

(i) The court shall hear and determine whether any of the following is true:

(I) The defendant lacks capacity to make decisions regarding antipsychotic medication, the defendant's mental disorder requires medical treatment with antipsychotic medication, and, if the defendant's mental disorder is not treated with antipsychotic medication, it is probable that serious harm to the physical or mental health of the patient will result. Probability of serious harm to the physical or mental health of the defendant requires evidence that the defendant is presently suffering adverse effects to his or her physical or mental health, or the defendant has previously suffered these effects as a result of a mental disorder and his or her condition is substantially deteriorating. The fact that a defendant has a diagnosis of a mental disorder does not alone establish probability of serious harm to the physical or mental health of the defendant.

(II) The defendant is a danger to others, in that the defendant has inflicted, attempted to inflict, or made a serious threat of inflicting substantial physical harm on another while in custody, or the defendant had inflicted, attempted to inflict, or made a serious threat of inflicting substantial physical harm on another that resulted in his or her being taken into custody, and the defendant presents, as a result of mental disorder or mental defect, a demonstrated danger of inflicting substantial physical harm on others. Demonstrated danger may be based on an assessment of the defendant's present mental condition, including a consideration of past behavior of the defendant within six years prior to the time the defendant last attempted to inflict, inflicted, or threatened to inflict substantial physical harm on another, and other relevant evidence.

(III) The people have charged the defendant with a serious crime against the person or property, involuntary administration of antipsychotic medication is substantially likely to render the defendant competent to stand trial, the medication is unlikely to have side effects that interfere with the defendant's ability to understand the nature of the criminal proceedings or to assist counsel in the conduct of a defense in a reasonable manner, less intrusive treatments are unlikely to have substantially the same results, and antipsychotic medication is in the patient's best medical interest in light of his or her medical condition.

(ii) If the court finds any of the conditions described in clause (i) to be true, the court shall issue an order authorizing involuntary administration of antipsychotic medication to the defendant when and as prescribed by the defendant's treating psychiatrist at any facility housing the defendant for purposes of this chapter. The order shall be valid for no more than one year, pursuant to subparagraph (A) of paragraph (7). The court shall not order involuntary administration of psychotropic medication under subclause (III) of clause (i) unless the court has first found that the defendant does not meet the criteria for involuntary administration of psychotropic medication under subclause (I) of clause (i) and does not meet the criteria under subclause (II) of clause (i).

(iii) In all cases, the treating hospital, facility, or program may administer medically appropriate antipsychotic medication prescribed by a psychiatrist in an emergency as described in subdivision (m) of Section 5008 of the Welfare and Institutions Code.

(iv) If the court has determined that the defendant has the capacity to make decisions regarding antipsychotic medication, and if the defendant, with advice of his or her counsel, consents, the court order of commitment shall include confirmation that antipsychotic medication may be given to the defendant as prescribed by a treating psychiatrist pursuant to the defendant's consent. The commitment order shall also indicate that, if the defendant withdraws consent for antipsychotic medication, after the treating psychiatrist complies with the provisions of subparagraph (C), the defendant shall be returned to court for a hearing in accordance with subparagraphs (C) and (D) regarding whether antipsychotic medication shall be administered involuntarily.

(v) If the court has determined that the defendant has the capacity to make decisions regarding antipsychotic medication and if the defendant, with advice from his or her counsel, does not consent, the court order for commitment shall indicate that, after the treating psychiatrist complies with the provisions of subparagraph (C), the defendant shall be returned to court for a hearing in accordance with subparagraphs (C) and (D) regarding whether antipsychotic medication shall be administered involuntarily.

(vi) A report made pursuant to paragraph (1) of subdivision (b) shall include a description of antipsychotic medication administered to the defendant and its effects and side effects, including effects on the defendant's appearance or behavior that would affect the defendant's ability to understand the nature of the criminal proceedings or to assist counsel in the conduct of a defense in a reasonable manner. During the time the defendant is confined in a State Department of State Hospitals facility or other treatment facility or placed on outpatient status, either the defendant or the people may request that the court review any order made pursuant to this subdivision. The defendant, to the same extent enjoyed by other patients in the State Department of State Hospitals facility or other treatment facility, shall have the right to contact the patients' rights advocate regarding his or her rights under this section.

(C) If the defendant consented to antipsychotic medication as described in clause (iv) of subparagraph (B), but subsequently withdraws his or her consent, or, if involuntary antipsychotic medication was not ordered pursuant to clause (v) of subparagraph (B), and the treating psychiatrist determines that antipsychotic medication has become medically necessary and appropriate, the treating psychiatrist shall make efforts to obtain informed consent from the defendant for antipsychotic medication. If informed consent is not obtained from the defendant, and the treating psychiatrist is of the opinion that the defendant lacks capacity to make decisions regarding antipsychotic medication based on the conditions described in subclause (I) or (II) of clause (i) of subparagraph (B), the treating psychiatrist shall certify whether the lack of capacity and any applicable conditions described above exist. That certification shall contain an assessment of the current mental status of the defendant and the opinion of the treating psychiatrist that involuntary antipsychotic medication has become medically necessary and appropriate.

(D) (i) If the treating psychiatrist certifies that antipsychotic medication has become medically necessary and appropriate pursuant to subparagraph (C), antipsychotic medication may be administered to the defendant for not more than 21 days, provided, however, that, within 72 hours of the certification, the defendant is provided a medication review hearing before an administrative law judge to be conducted at the facility where the defendant is receiving treatment. The treating psychiatrist shall present the case for the certification for involuntary treatment and the defendant shall be represented by an attorney or a patients' rights advocate. The attorney or patients' rights advocate shall be appointed to meet with the defendant no later than one day prior to the medication review hearing to review the defendant's rights at the medication review hearing, discuss the process, answer questions or concerns regarding involuntary medication or the hearing, assist the defendant in preparing for the hearing and advocating for his or her interests at the hearing, review the panel's final determination following the hearing, advise the defendant of his or her right to judicial review of the panel's decision, and provide the defendant with referral information for legal advice on the subject. The defendant shall also have the following rights with respect to the medication review hearing:

- (I) To be given timely access to the defendant's records.
- (II) To be present at the hearing, unless the defendant waives that right.
- (III) To present evidence at the hearing.
- (IV) To question persons presenting evidence supporting involuntary medication.
- (V) To make reasonable requests for attendance of witnesses on the defendant's behalf.
- (VI) To a hearing conducted in an impartial and informal manner.

(ii) If the administrative law judge determines that the defendant either meets the criteria specified in subclause (I) of clause (i) of subparagraph (B), or meets the criteria specified in subclause (II) of clause (i) of subparagraph (B), then antipsychotic medication may continue to be administered to the defendant for the 21-day certification period. Concurrently with the treating psychiatrist's certification, the treating psychiatrist shall file a copy of the certification and a petition with the court for issuance of an order to administer antipsychotic medication beyond the 21-day certification period. For purposes of this subparagraph, the treating psychiatrist shall not be required to pay or deposit any fee for the filing of the petition or other document or paper related to the petition.

(iii) If the administrative law judge disagrees with the certification, medication may not be administered involuntarily until the court determines that antipsychotic medication should be administered pursuant to this section.

(iv) The court shall provide notice to the prosecuting attorney and to the attorney representing the defendant, and shall hold a hearing, no later than 18 days from the date of the certification, to determine whether antipsychotic medication should be ordered beyond the certification period.

(v) If, as a result of the hearing, the court determines that antipsychotic medication should be administered beyond the certification period, the court shall issue an order authorizing the administration of that medication.

(vi) The court shall render its decision on the petition and issue its order no later than three calendar days after the hearing and, in any event, no later than the expiration of the 21-day certification period.

(vii) If the administrative law judge upholds the certification pursuant to clause (ii), the court may, for a period not to exceed 14 days, extend the certification and continue the hearing pursuant to stipulation between the parties or upon a finding of good cause. In determining good cause, the court may review the petition filed with the court, the administrative law judge's order, and any additional testimony needed by the court to determine if it is appropriate to continue medication beyond the 21-day certification and for a period of up to 14 days.

(viii) The district attorney, county counsel, or representative of a facility where a defendant found incompetent to stand trial is committed may petition the court for an order to administer involuntary medication pursuant to the criteria set forth in subclauses (II) and (III) of clause (i) of subparagraph (B). The order is reviewable as provided in paragraph (7).

(3) When the court orders that the defendant be committed to a State Department of State Hospitals facility or other public or private treatment facility, the court shall provide copies of the following documents prior to the admission of the defendant to the State Department of State Hospitals or other treatment facility where the defendant is to be committed:

- (A) The commitment order, including a specification of the charges.
- (B) A computation or statement setting forth the maximum term of commitment in accordance with subdivision (c).

(C) A computation or statement setting forth the amount of credit for time served, if any, to be deducted from the maximum term of commitment.

(D) State summary criminal history information.

(E) Arrest reports prepared by the police department or other law enforcement agency.

(F) Court-ordered psychiatric examination or evaluation reports.

(G) The community program director's placement recommendation report.

(H) Records of a finding of mental incompetence pursuant to this chapter arising out of a complaint charging a felony offense specified in Section 290 or a pending Section 1368 proceeding arising out of a charge of a Section 290 offense.

(I) Medical records.

(4) When the defendant is committed to a treatment facility pursuant to clause (i) of subparagraph (B) of paragraph (1) or the court makes the findings specified in clause (ii) or (iii) of subparagraph (B) of paragraph (1) to assign the defendant to a treatment facility other than a State Department of State Hospitals facility or other secure treatment facility, the court shall order that notice be given to the appropriate law enforcement agency or agencies having local jurisdiction at the site of the placement facility of any finding of mental incompetence pursuant to this chapter arising out of a charge of a Section 290 offense.

(5) When directing that the defendant be confined in a State Department of State Hospitals facility pursuant to this subdivision, the court shall commit the patient to the State Department of State Hospitals.

(6) (A) If the defendant is committed or transferred to the State Department of State Hospitals pursuant to this section, the court may, upon receiving the written recommendation of the medical director of the State Department of State Hospitals facility and the community program director that the defendant be transferred to a public or private treatment facility approved by the community program director, order the defendant transferred to that facility. If the defendant is committed or transferred to a public or private treatment facility approved by the community program director, the court may, upon receiving the written recommendation of the community program director, transfer the defendant to the State Department of State Hospitals or to another public or private treatment facility approved by the community program director. In the event of dismissal of the criminal charges before the defendant recovers competence, the person shall be subject to the applicable provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code). If either the defendant or the prosecutor chooses to contest either kind of order of transfer, a petition may be filed in the court for a hearing, which shall be held if the court determines that sufficient grounds exist. At the hearing, the prosecuting attorney or the defendant may present evidence bearing on the order of transfer. The court shall use the same standards as are used in conducting probation revocation hearings pursuant to Section 1203.2.

Prior to making an order for transfer under this section, the court shall notify the defendant, the attorney of record for the defendant, the prosecuting attorney, and the community program director or a designee.

(B) If the defendant is initially committed to a State Department of State Hospitals facility or secure treatment facility pursuant to clause (ii) or (iii) of subparagraph (B) of paragraph (1) and is subsequently transferred to any other facility, copies of the documents specified in paragraph (3) shall be taken with the defendant to each subsequent facility to which the defendant is transferred. The transferring facility shall also notify the appropriate law enforcement agency or agencies having local jurisdiction at the site of the new facility that the defendant is a person subject to clause (ii) or (iii) of subparagraph (B) of paragraph (1).

(7) (A) An order by the court authorizing involuntary medication of the defendant shall be valid for no more than one year. The court shall review the order at the time of the review of the initial report and the six-month progress reports pursuant to paragraph (1) of subdivision (b) to determine if the grounds for the authorization remain. In the review, the court shall consider the reports of the treating psychiatrist or psychiatrists and the defendant's patients' rights advocate or attorney. The court may require testimony from the treating psychiatrist and the patients' rights advocate or attorney, if necessary. The court may continue the order authorizing involuntary medication for up to another six months, or vacate the order, or make any other appropriate order.

(B) Within 60 days before the expiration of the one-year involuntary medication order, the district attorney, county counsel, or representative of any facility where a defendant found incompetent to stand trial is committed may petition the committing court for a renewal, subject to the same conditions and requirements as in subparagraph (A). The petition shall include the basis for involuntary medication set forth in clause (i) of subparagraph (B) of paragraph (2). Notice of the petition shall be provided to the defendant, the defendant's attorney, and the district attorney. The court shall hear and determine whether

the defendant continues to meet the criteria set forth in clause (i) of subparagraph (B) of paragraph (2). The hearing on any petition to renew an order for involuntary medication shall be conducted prior to the expiration of the current order.

(8) For purposes of subparagraph (D) of paragraph (2) and paragraph (7), if the treating psychiatrist determines that there is a need, based on preserving his or her rapport with the patient or preventing harm, the treating psychiatrist may request that the facility medical director designate another psychiatrist to act in the place of the treating psychiatrist. If the medical director of the facility designates another psychiatrist to act pursuant to this paragraph, the treating psychiatrist shall brief the acting psychiatrist of the relevant facts of the case and the acting psychiatrist shall examine the patient prior to the hearing.

(b) (1) Within 90 days of a commitment made pursuant to subdivision (a), the medical director of the State Department of State Hospitals facility or other treatment facility to which the defendant is confined shall make a written report to the court and the community program director for the county or region of commitment, or a designee, concerning the defendant's progress toward recovery of mental competence and whether the administration of antipsychotic medication remains necessary. If the defendant is on outpatient status, the outpatient treatment staff shall make a written report to the community program director concerning the defendant's progress toward recovery of mental competence. Within 90 days of placement on outpatient status, the community program director shall report to the court on this matter. If the defendant has not recovered mental competence, but the report discloses a substantial likelihood that the defendant will regain mental competence in the foreseeable future, the defendant shall remain in the State Department of State Hospitals facility or other treatment facility or on outpatient status. Thereafter, at six-month intervals or until the defendant becomes mentally competent, if the defendant is confined in a treatment facility, the medical director of the State Department of State Hospitals facility or person in charge of the facility shall report in writing to the court and the community program director or a designee regarding the defendant's progress toward recovery of mental competence and whether the administration of antipsychotic medication remains necessary. If the defendant is on outpatient status, after the initial 90-day report, the outpatient treatment staff shall report to the community program director on the defendant's progress toward recovery, and the community program director shall report to the court on this matter at six-month intervals. A copy of these reports shall be provided to the prosecutor and defense counsel by the court.

(A) If the report indicates that there is no substantial likelihood that the defendant will regain mental competence in the foreseeable future, the committing court shall order the defendant to be returned to the court for proceedings pursuant to paragraph (2) of subdivision (c) no later than 10 days following receipt of the report. The court shall transmit a copy of its order to the community program director or a designee.

(B) If the report indicates that there is no substantial likelihood that the defendant will regain mental competence in the foreseeable future, the medical director of the State Department of State Hospitals facility or other treatment facility to which the defendant is confined shall do both of the following:

(i) Promptly notify and provide a copy of the report to the defense counsel and the district attorney.

(ii) Provide a separate notification, in compliance with applicable privacy laws, to the committing county's sheriff that transportation will be needed for the patient.

(2) If the court has issued an order authorizing the treating facility to involuntarily administer antipsychotic medication to the defendant, the reports made pursuant to paragraph (1) concerning the defendant's progress toward regaining competency shall also consider the issue of involuntary medication. Each report shall include, but is not limited to, all of the following:

(A) Whether or not the defendant has the capacity to make decisions concerning antipsychotic medication.

(B) If the defendant lacks capacity to make decisions concerning antipsychotic medication, whether the defendant risks serious harm to his or her physical or mental health if not treated with antipsychotic medication.

(C) Whether or not the defendant presents a danger to others if he or she is not treated with antipsychotic medication.

(D) Whether the defendant has a mental illness for which medications are the only effective treatment.

(E) Whether there are any side effects from the medication currently being experienced by the defendant that would interfere with the defendant's ability to collaborate with counsel.

(F) Whether there are any effective alternatives to medication.

(G) How quickly the medication is likely to bring the defendant to competency.

(H) Whether the treatment plan includes methods other than medication to restore the defendant to competency.

(I) A statement, if applicable, that no medication is likely to restore the defendant to competency.

(3) After reviewing the reports, the court shall determine whether or not grounds for the order authorizing involuntary administration of antipsychotic medication still exist and shall do one of the following:

(A) If the original grounds for involuntary medication still exist, the order authorizing the treating facility to involuntarily administer antipsychotic medication to the defendant shall remain in effect.

(B) If the original grounds for involuntary medication no longer exist, and there is no other basis for involuntary administration of antipsychotic medication, the order for the involuntary administration of antipsychotic medication shall be vacated.

(C) If the original grounds for involuntary medication no longer exist, and the report states that there is another basis for involuntary administration of antipsychotic medication, the court shall set a hearing within 21 days to determine whether the order for the involuntary administration of antipsychotic medication shall be vacated or whether a new order for the involuntary administration of antipsychotic medication shall be issued. The hearing shall proceed as set forth in subparagraph (B) of paragraph (2) of subdivision (a).

(4) Any defendant who has been committed or has been on outpatient status for 18 months and is still hospitalized or on outpatient status shall be returned to the committing court where a hearing shall be held pursuant to the procedures set forth in Section 1369. The court shall transmit a copy of its order to the community program director or a designee.

(5) If it is determined by the court that no treatment for the defendant's mental impairment is being conducted, the defendant shall be returned to the committing court. The court shall transmit a copy of its order to the community program director or a designee.

(6) At each review by the court specified in this subdivision, the court shall determine if the security level of housing and treatment is appropriate and may make an order in accordance with its determination. If the court determines that the defendant shall continue to be treated in the State Department of State Hospitals facility or on an outpatient basis, the court shall determine issues concerning administration of antipsychotic medication, as set forth in subparagraph (B) of paragraph (2) of subdivision (a).

(c) (1) At the end of three years from the date of commitment or a period of commitment equal to the maximum term of imprisonment provided by law for the most serious offense charged in the information, indictment, or misdemeanor complaint, or the maximum term of imprisonment provided by law for a violation of probation or mandatory supervision, whichever is shorter, but no later than 90 days prior to the expiration of the defendant's term of commitment, a defendant who has not recovered mental competence shall be returned to the committing court. The court shall notify the community program director or a designee of the return and of any resulting court orders.

(2) Whenever a defendant is returned to the court pursuant to paragraph (1) or (4) of subdivision (b) or paragraph (1) of this subdivision and it appears to the court that the defendant is gravely disabled, as defined in subparagraph (A) or (B) of paragraph (1) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, the court shall order the conservatorship investigator of the county of commitment of the defendant to initiate conservatorship proceedings for the defendant pursuant to Chapter 3 (commencing with Section 5350) of Part 1 of Division 5 of the Welfare and Institutions Code. Hearings required in the conservatorship proceedings shall be held in the superior court in the county that ordered the commitment. The court shall transmit a copy of the order directing initiation of conservatorship proceedings to the community program director or a designee, the sheriff and the district attorney of the county in which criminal charges are pending, and the defendant's counsel of record. The court shall notify the community program director or a designee, the sheriff and district attorney of the county in which criminal charges are pending, and the defendant's counsel of record of the outcome of the conservatorship proceedings.

(3) If a change in placement is proposed for a defendant who is committed pursuant to subparagraph (A) or (B) of paragraph (1) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, the court shall provide notice and an opportunity to be heard with respect to the proposed placement of the defendant to the sheriff and the district attorney of the county in which the criminal charges or revocation proceedings are pending.

(4) If the defendant is confined in a treatment facility, a copy of any report to the committing court regarding the defendant's progress toward recovery of mental competence shall be provided by the committing court to the prosecutor and to the defense counsel.

(d) With the exception of proceedings alleging a violation of mandatory supervision, the criminal action remains subject to dismissal pursuant to Section 1385. If the criminal action is dismissed, the court shall transmit a copy of the order of dismissal to the community program director or a designee. In a proceeding alleging a violation of mandatory supervision, if the person is not placed under a conservatorship as described in paragraph (2) of subdivision (c), or if a conservatorship is terminated, the court shall reinstate mandatory supervision and may modify the terms and conditions of supervision to include appropriate mental

health treatment or refer the matter to a local mental health court, reentry court, or other collaborative justice court available for improving the mental health of the defendant.

(e) If the criminal action against the defendant is dismissed, the defendant shall be released from commitment ordered under this section, but without prejudice to the initiation of any proceedings that may be appropriate under the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code).

(f) As used in this chapter, "community program director" means the person, agency, or entity designated by the State Department of State Hospitals pursuant to Section 1605 of this code and Section 4360 of the Welfare and Institutions Code.

(g) For the purpose of this section, "secure treatment facility" shall not include, except for State Department of State Hospitals facilities, state developmental centers, and correctional treatment facilities, any facility licensed pursuant to Chapter 2 (commencing with Section 1250) of, Chapter 3 (commencing with Section 1500) of, or Chapter 3.2 (commencing with Section 1569) of, Division 2 of the Health and Safety Code, or any community board and care facility.

(h) This section does not preclude a defendant from filing a petition for habeas corpus to challenge the continuing validity of an order authorizing a treatment facility or outpatient program to involuntarily administer antipsychotic medication to a person being treated as incompetent to stand trial.

SEC. 3. Section 5008 of the Welfare and Institutions Code is amended to read:

5008. Unless the context otherwise requires, the following definitions shall govern the construction of this part:

(a) "Evaluation" consists of multidisciplinary professional analyses of a person's medical, psychological, educational, social, financial, and legal conditions as may appear to constitute a problem. Persons providing evaluation services shall be properly qualified professionals and may be full-time employees of an agency providing face-to-face, which includes telehealth, evaluation services or may be part-time employees or may be employed on a contractual basis.

(b) "Court-ordered evaluation" means an evaluation ordered by a superior court pursuant to Article 2 (commencing with Section 5200) or by a superior court pursuant to Article 3 (commencing with Section 5225) of Chapter 2.

(c) "Intensive treatment" consists of such hospital and other services as may be indicated. Intensive treatment shall be provided by properly qualified professionals and carried out in facilities qualifying for reimbursement under the California Medical Assistance Program (Medi-Cal) set forth in Chapter 7 (commencing with Section 14000) of Part 3 of Division 9, or under Title XVIII of the federal Social Security Act and regulations thereunder. Intensive treatment may be provided in hospitals of the United States government by properly qualified professionals. This part does not prohibit an intensive treatment facility from also providing 72-hour evaluation and treatment.

(d) "Referral" is referral of persons by each agency or facility providing assessment, evaluation, crisis intervention, or treatment services to other agencies or individuals. The purpose of referral shall be to provide for continuity of care, and may include, but need not be limited to, informing the person of available services, making appointments on the person's behalf, discussing the person's problem with the agency or individual to which the person has been referred, appraising the outcome of referrals, and arranging for personal escort and transportation when necessary. Referral shall be considered complete when the agency or individual to whom the person has been referred accepts responsibility for providing the necessary services. All persons shall be advised of available precare services that prevent initial recourse to hospital treatment or aftercare services that support adjustment to community living following hospital treatment. These services may be provided through county or city mental health departments, state hospitals under the jurisdiction of the State Department of State Hospitals, regional centers under contract with the State Department of Developmental Services, or other public or private entities.

Each agency or facility providing evaluation services shall maintain a current and comprehensive file of all community services, both public and private. These files shall contain current agreements with agencies or individuals accepting referrals, as well as appraisals of the results of past referrals.

(e) "Crisis intervention" consists of an interview or series of interviews within a brief period of time, conducted by qualified professionals, and designed to alleviate personal or family situations which present a serious and imminent threat to the health or stability of the person or the family. The interview or interviews may be conducted in the home of the person or family, or on an inpatient or outpatient basis with such therapy, or other services, as may be appropriate. The interview or interviews may include family members, significant support persons, providers, or other entities or individuals, as appropriate and as authorized by law. Crisis intervention may, as appropriate, include suicide prevention, psychiatric, welfare, psychological, legal, or other social services.

(f) "Prepetition screening" is a screening of all petitions for court-ordered evaluation as provided in Article 2 (commencing with Section 5200) of Chapter 2, consisting of a professional review of all petitions; an interview with the petitioner and, whenever possible, the person alleged, as a result of a mental health disorder, to be a danger to others, or to himself or herself, or to be

gravely disabled, to assess the problem and explain the petition; when indicated, efforts to persuade the person to receive, on a voluntary basis, comprehensive evaluation, crisis intervention, referral, and other services specified in this part.

(g) "Conservatorship investigation" means investigation by an agency appointed or designated by the governing body of cases in which conservatorship is recommended pursuant to Chapter 3 (commencing with Section 5350).

(h) (1) For purposes of Article 1 (commencing with Section 5150), Article 2 (commencing with Section 5200), and Article 4 (commencing with Section 5250) of Chapter 2, and for the purposes of Chapter 3 (commencing with Section 5350), "gravely disabled" means either of the following:

(A) A condition in which a person, as a result of a mental health disorder, is unable to provide for his or her basic personal needs for food, clothing, or shelter.

(B) A condition in which a person, has been found mentally incompetent under Section 1370 of the Penal Code and all of the following facts exist:

(i) The complaint, indictment, or information pending against the person at the time of commitment charges a felony involving death, great bodily harm, or a serious threat to the physical well-being of another person.

(ii) There has been a finding of probable cause on a complaint pursuant to paragraph (2) of subdivision (a) of Section 1368.1 of the Penal Code, a preliminary examination pursuant to Section 859b of the Penal Code, or a grand jury indictment, and the complaint, indictment, or information has not been dismissed.

(iii) As a result of a mental health disorder, the person is unable to understand the nature and purpose of the proceedings taken against him or her and to assist counsel in the conduct of his or her defense in a rational manner.

(iv) The person represents a substantial danger of physical harm to others by reason of a mental disease, defect, or disorder.

(2) For purposes of Article 3 (commencing with Section 5225) and Article 4 (commencing with Section 5250), of Chapter 2, and for the purposes of Chapter 3 (commencing with Section 5350), "gravely disabled" means a condition in which a person, as a result of impairment by chronic alcoholism, is unable to provide for his or her basic personal needs for food, clothing, or shelter.

(3) The term "gravely disabled" does not include persons with intellectual disabilities by reason of that disability alone.

(i) "Peace officer" means a duly sworn peace officer as that term is defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code who has completed the basic training course established by the Commission on Peace Officer Standards and Training, or any parole officer or probation officer specified in Section 830.5 of the Penal Code when acting in relation to cases for which he or she has a legally mandated responsibility.

(j) "Postcertification treatment" means an additional period of treatment pursuant to Article 6 (commencing with Section 5300) of Chapter 2.

(k) "Court," unless otherwise specified, means a court of record.

(l) "Antipsychotic medication" means any medication customarily prescribed for the treatment of symptoms of psychoses and other severe mental and emotional disorders.

(m) "Emergency" means a situation in which action to impose treatment over the person's objection is immediately necessary for the preservation of life or the prevention of serious bodily harm to the patient or others, and it is impracticable to first gain consent. It is not necessary for harm to take place or become unavoidable prior to treatment.

(n) "Designated facility" or "facility designated by the county for evaluation and treatment" means a facility that is licensed or certified as a mental health treatment facility or a hospital, as defined in subdivision (a) or (b) of Section 1250 of the Health and Safety Code, by the State Department of Public Health, and may include, but is not limited to, a licensed psychiatric hospital, a licensed psychiatric health facility, and a certified crisis stabilization unit.
