LEGISLATIVE COUNSEL'S DIGEST

AB 715, Nazarian. Richard Paul Hemann Parkinson's Disease Program.

Existing law establishes the Richard Paul Hemann Parkinson's Disease Program, which, among other things, requires the State Department of Public Health to collect data on the incidence of Parkinson's disease in California, as specified. Existing law requires a hospital, facility, physician and surgeon, or other health care provider diagnosing or providing treatment to Parkinson's disease patients to report each case of Parkinson's disease to the department, as prescribed. Existing law conditions the implementation of the program on the availability of funds and repeals the program on January 1, 2020.

This bill would extend the program until January 1, 2021.
