**AB-2339 Housing element: emergency shelters: regional housing need.** (2021-2022)

SHARE THIS:  

Date Published: 09/29/2022 02:00 PM

**Assembly Bill No. 2339**

**CHAPTER 654**

An act to amend Sections 65583 and 65863 of the Government Code, relating to land use.

[ Approved by Governor September 28, 2022. Filed with Secretary of State September 28, 2022. ]

**LEGISLATIVE COUNSEL'S DIGEST**

AB 2339, Bloom. Housing element: emergency shelters: regional housing need.

(1) The Planning and Zoning Law requires the legislative body of each county and city to adopt a comprehensive, long-term general plan for the physical development of the county or city that includes a housing element. Existing law requires that the housing element identify adequate sites for housing, including rental housing, factory-built housing, mobilehomes, and emergency shelters, and make adequate provision for the existing and projected needs of all economic segments of a community. Existing law also requires that the housing element include an analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels.

This bill would revise the requirements of the housing element, as described above, in connection with zoning designations that allow residential use, including mixed use, where emergency shelters are allowed as a permitted use without a conditional use or other discretionary permit. The bill would delete language regarding emergency shelter standards structured in relation to residential and commercial developments and instead require that emergency shelters only be subject to specified written, objective standards. The bill would specify that emergency shelters for purposes of these provisions include other interim intervention, including, but not limited to, navigation centers, bridge housing, and respite or recuperative care.

The bill would require that identified zoning designations where emergency shelters are allowed to include sites that meet at least one of certain prescribed standards. In this regard, the bill would require those sites to be either (1) vacant and zoned for residential use; (2) vacant and zoned for nonresidential use if the local government can demonstrate how the sites are located near amenities and services that serve people experiencing homelessness; or (3) nonvacant if the site is suitable for use as a shelter in the current planning period, as specified. The bill would also authorize a local government to accommodate its need for emergency shelters on sites owned by the local government if it demonstrates that the sites will be made available for emergency shelter during the planning period, they are suitable for residential use, and the sites are located near amenities, as specified. The bill would require the identified zoning designations to include sufficient sites to accommodate the need for shelters, as specified. The bill would also require that the number of people experiencing homelessness that can be accommodated on each identified site under these provisions be demonstrated by dividing the square footage of the site by a minimum of 200 square feet per person, except as specified.

(2) The Planning and Zoning Law requires a city, county, or city and county to ensure that its housing element inventory, as described, or its housing element program to make sites available, as described, can accommodate its share of the regional housing need at all times throughout the planning period.

This bill would require each city, county, or city and county to ensure that its housing element inventory or its housing element program can accommodate its remaining unmet share of the regional housing need and any remaining unaccommodated portion of the regional housing need, as defined, from the prior planning period, at all times throughout the planning period.

Existing law also prohibits a city, county, or city and county from reducing, requiring, or permitting the reduction of the residential density to a lower residential density that is below the density that was utilized by the Department of Housing and Community Development in determining compliance with housing element law, unless the city, county, or city and county makes specified written findings supported by substantial evidence.

The bill would instead prohibit a city, county, or city and county from reducing, requiring, or permitting the reduction of the residential density to a lower residential density for any parcel identified to meet its current share of the regional housing need or any unaccommodated portion of the regional housing need, as defined, from the prior planning period, unless the city, county, or city and county makes specified written findings supported by substantial evidence.

(3) By imposing various new duties on local governments with regard to the administration of housing elements, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority Appropriation: no Fiscal Committee: yes Local Program: yes

---

## THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

**SECTION 1.** Section 65583 of the Government Code is amended to read:

**65583.** The housing element shall consist of an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, financial resources, and scheduled programs for the preservation, improvement, and development of housing. The housing element shall identify adequate sites for housing, including rental housing, factory-built housing, mobilehomes, and emergency shelters, and shall make adequate provision for the existing and projected needs of all economic segments of the community. The element shall contain all of the following:

(a) An assessment of housing needs and an inventory of resources and constraints relevant to the meeting of these needs. The assessment and inventory shall include all of the following:

(1) An analysis of population and employment trends and documentation of projections and a quantification of the locality's existing and projected housing needs for all income levels, including extremely low income households, as defined in subdivision (b) of Section 50105 and Section 50106 of the Health and Safety Code. These existing and projected needs shall include the locality's share of the regional housing need in accordance with Section 65584. Local agencies shall calculate the subset of very low income households allotted under Section 65584 that qualify as extremely low income households. The local agency may either use available census data to calculate the percentage of very low income households that qualify as extremely low income households or presume that 50 percent of the very low income households qualify as extremely low income households. The number of extremely low income households and very low income households shall equal the jurisdiction's allocation of very low income households pursuant to Section 65584.

(2) An analysis and documentation of household characteristics, including level of payment compared to ability to pay, housing characteristics, including overcrowding, and housing stock condition.

(3) An inventory of land suitable and available for residential development, including vacant sites and sites having realistic and demonstrated potential for redevelopment during the planning period to meet the locality's housing need for a designated income level, and an analysis of the relationship of zoning and public facilities and services to these sites, and an analysis of the relationship of the sites identified in the land inventory to the jurisdiction's duty to affirmatively further fair housing.

(4) (A) The identification of one or more zoning designations that allow residential uses, including mixed uses, where emergency shelters are allowed as a permitted use without a conditional use or other discretionary permit and that are suitable for residential uses. The identified zoning designations shall include sufficient sites meeting the requirements of subparagraph (H) with sufficient capacity, as described in subparagraph (I), to accommodate the need for emergency shelter identified in paragraph (7), except that each local government shall identify a zoning designation or designations that can accommodate at least one year-round emergency shelter. If the local government cannot identify a zoning designation or designations with sufficient capacity, the local government shall include a program to amend its zoning ordinance to meet the requirements of this paragraph within one year of the adoption of the housing element. The local government may identify additional zoning

designations where emergency shelters are permitted with a conditional use permit. The local government shall also demonstrate that existing or proposed permit processing, development, and management standards that apply to emergency shelters are objective and encourage and facilitate the development of, or conversion to, emergency shelters.

(B) Emergency shelters shall only be subject to the following written, objective standards:

- (i) The maximum number of beds or persons permitted to be served nightly by the facility.
- (ii) Sufficient parking to accommodate all staff working in the emergency shelter, provided that the standards do not require more parking for emergency shelters than other residential or commercial uses within the same zone.
- (iii) The size and location of exterior and interior onsite waiting and client intake areas.
- (iv) The provision of onsite management.
- (v) The proximity to other emergency shelters, provided that emergency shelters are not required to be more than 300 feet apart.
- (vi) The length of stay.
- (vii) Lighting.
- (viii) Security during hours that the emergency shelter is in operation.

(C) For purposes of this paragraph, "emergency shelter" shall include other interim interventions, including, but not limited to, a navigation center, bridge housing, and respite or recuperative care.

(D) The permit processing, development, and management standards applied under this paragraph shall not be deemed to be discretionary acts within the meaning of the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(E) If a local government has adopted written, objective standards pursuant to subparagraph (B), the local government shall include an analysis of the standards in the analysis of constraints pursuant to paragraph (5).

(F) A local government that can demonstrate, to the satisfaction of the department, the existence of one or more emergency shelters either within its jurisdiction or pursuant to a multijurisdictional agreement that can accommodate that jurisdiction's need and the needs of the other jurisdictions that are a part of the agreement for emergency shelter identified in paragraph (7) may comply with the zoning requirements of subparagraph (A) by identifying a zoning designation where new emergency shelters are allowed with a conditional use permit.

(G) A local government with an existing ordinance or ordinances that comply with this paragraph shall not be required to take additional action to identify zoning designations for emergency shelters. The housing element must only describe how existing ordinances, policies, and standards are consistent with the requirements of this paragraph.

(H) The zoning designation or designations where emergency shelters are allowed, as described in subparagraph (A), shall include sites that meet at least one of the following standards:

- (i) Vacant sites zoned for residential use.
- (ii) Vacant sites zoned for nonresidential use that allow residential development, if the local government can demonstrate how the sites with this zoning designation that are being used to satisfy the requirements of paragraph (1) are located near amenities and services that serve people experiencing homelessness, which may include, health care, transportation, retail, employment, and social services, or that the local government will provide free transportation to services or offer services onsite.
- (iii) Nonvacant sites zoned for residential use or for nonresidential use that allow residential development that are suitable for use as a shelter in the current planning period, or which can be redeveloped for use as a shelter in the current planning period. A nonvacant site with an existing use shall be presumed to impede emergency shelter development absent an analysis based on substantial evidence that the use is likely to be discontinued during the planning period. The analysis shall consider current market demand for the current uses, market conditions, and incentives or standards to encourage shelter development.

(I) The zoning designation or designations shall have sufficient sites meeting the requirements of subparagraph (H) to accommodate the need for shelters identified pursuant to paragraph (7). The number of people experiencing homelessness that can be accommodated on any site shall be demonstrated by dividing the square footage of the site by a minimum of

200 square feet per person, unless the locality can demonstrate that one or more shelters were developed on sites that have fewer square feet per person during the prior planning period or the locality provides similar evidence to the department demonstrating that the site can accommodate more people experiencing homelessness. Any standard applied pursuant to this subparagraph is intended only for calculating site capacity pursuant to this section, and shall not be constructed as establishing a development standard applicable to the siting, development, or approval of a shelter.

(J) Notwithstanding subparagraph (H), a local government may accommodate the need for emergency shelters identified pursuant to paragraph (7) on sites owned by the local government if it demonstrates with substantial evidence that the sites will be made available for emergency shelter during the planning period, they are suitable for residential use, and the sites are located near amenities and services that serve people experiencing homelessness, which may include health care, transportation, retail, employment, and social services, or that the local government will provide free transportation to services or offer services onsite.

(5) An analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the types of housing identified in paragraph (1) of subdivision (c), and for persons with disabilities as identified in the analysis pursuant to paragraph (7), including land use controls, building codes and their enforcement, site improvements, fees and other exactions required of developers, local processing and permit procedures, and any locally adopted ordinances that directly impact the cost and supply of residential development. The analysis shall also demonstrate local efforts to remove governmental constraints that hinder the locality from meeting its share of the regional housing need in accordance with Section 65584 and from meeting the need for housing for persons with disabilities, supportive housing, transitional housing, and emergency shelters identified pursuant to paragraph (7).

(6) An analysis of potential and actual nongovernmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the availability of financing, the price of land, the cost of construction, the requests to develop housing at densities below those anticipated in the analysis required by subdivision (c) of Section 65583.2, and the length of time between receiving approval for a housing development and submittal of an application for building permits for that housing development that hinder the construction of a locality's share of the regional housing need in accordance with Section 65584. The analysis shall also demonstrate local efforts to remove nongovernmental constraints that create a gap between the locality's planning for the development of housing for all income levels and the construction of that housing.

(7) An analysis of any special housing needs, such as those of the elderly; persons with disabilities, including a developmental disability, as defined in Section 4512 of the Welfare and Institutions Code; large families; farmworkers; families with female heads of households; and families and persons in need of emergency shelter. The need for emergency shelter shall be assessed based on the capacity necessary to accommodate the most recent homeless point-in-time count conducted before the start of the planning period, the need for emergency shelter based on number of beds available on a year-round and seasonal basis, the number of shelter beds that go unused on an average monthly basis within a one-year period, and the percentage of those in emergency shelters that move to permanent housing solutions. The need for emergency shelter may be reduced by the number of supportive housing units that are identified in an adopted 10-year plan to end chronic homelessness and that are either vacant or for which funding has been identified to allow construction during the planning period. An analysis of special housing needs by a city or county may include an analysis of the need for frequent user coordinated care housing services.

(8) An analysis of opportunities for energy conservation with respect to residential development. Cities and counties are encouraged to include weatherization and energy efficiency improvements as part of publicly subsidized housing rehabilitation projects. This may include energy efficiency measures that encompass the building envelope, its heating and cooling systems, and its electrical system.

(9) An analysis of existing assisted housing developments that are eligible to change from low-income housing uses during the next 10 years due to termination of subsidy contracts, mortgage prepayment, or expiration of restrictions on use. "Assisted housing developments," for the purpose of this section, shall mean multifamily rental housing that receives governmental assistance under federal programs listed in subdivision (a) of Section 65863.10, state and local multifamily revenue bond programs, local redevelopment programs, the federal Community Development Block Grant Program, or local in-lieu fees. "Assisted housing developments" shall also include multifamily rental units that were developed pursuant to a local inclusionary housing program or used to qualify for a density bonus pursuant to Section 65916.

(A) The analysis shall include a listing of each development by project name and address, the type of governmental assistance received, the earliest possible date of change from low-income use, and the total number of elderly and nonelderly units that could be lost from the locality's low-income housing stock in each year during the 10-year period. For purposes of state and federally funded projects, the analysis required by this subparagraph need only contain information available on a statewide basis.

(B) The analysis shall estimate the total cost of producing new rental housing that is comparable in size and rent levels, to replace the units that could change from low-income use, and an estimated cost of preserving the assisted housing developments. This cost analysis for replacement housing may be done aggregately for each five-year period and does not have to contain a project-by-project cost estimate.

(C) The analysis shall identify public and private nonprofit corporations known to the local government that have legal and managerial capacity to acquire and manage these housing developments.

(D) The analysis shall identify and consider the use of all federal, state, and local financing and subsidy programs that can be used to preserve, for lower income households, the assisted housing developments, identified in this paragraph, including, but not limited to, federal Community Development Block Grant Program funds, tax increment funds received by a redevelopment agency of the community, and administrative fees received by a housing authority operating within the community. In considering the use of these financing and subsidy programs, the analysis shall identify the amounts of funds under each available program that have not been legally obligated for other purposes and that could be available for use in preserving assisted housing developments.

(b) (1) A statement of the community's goals, quantified objectives, and policies relative to affirmatively furthering fair housing and to the maintenance, preservation, improvement, and development of housing.

(2) It is recognized that the total housing needs identified pursuant to subdivision (a) may exceed available resources and the community's ability to satisfy this need within the content of the general plan requirements outlined in Article 5 (commencing with Section 65300). Under these circumstances, the quantified objectives need not be identical to the total housing needs. The quantified objectives shall establish the maximum number of housing units by income category, including extremely low income, that can be constructed, rehabilitated, and conserved over a five-year time period.

(c) A program that sets forth a schedule of actions during the planning period, each with a timeline for implementation, that may recognize that certain programs are ongoing, such that there will be beneficial impacts of the programs within the planning period, that the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the housing element through the administration of land use and development controls, the provision of regulatory concessions and incentives, the utilization of appropriate federal and state financing and subsidy programs when available, and the utilization of moneys in a low- and moderate-income housing fund of an agency if the locality has established a redevelopment project area pursuant to the Community Redevelopment Law (Division 24 (commencing with Section 33000) of the Health and Safety Code). In order to make adequate provision for the housing needs of all economic segments of the community, the program shall do all of the following:

(1) Identify actions that will be taken to make sites available during the planning period with appropriate zoning and development standards and with services and facilities to accommodate that portion of the city's or county's share of the regional housing need for each income level that could not be accommodated on sites identified in the inventory completed pursuant to paragraph (3) of subdivision (a) without rezoning, and to comply with the requirements of Section 65584.09. Sites shall be identified as needed to affirmatively further fair housing and to facilitate and encourage the development of a variety of types of housing for all income levels, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing.

(A) Where the inventory of sites, pursuant to paragraph (3) of subdivision (a), does not identify adequate sites to accommodate the need for groups of all household income levels pursuant to Section 65584, rezoning of those sites, including adoption of minimum density and development standards, for jurisdictions with an eight-year housing element planning period pursuant to Section 65588, shall be completed no later than three years after either the date the housing element is adopted pursuant to subdivision (f) of Section 65585 or the date that is 90 days after receipt of comments from the department pursuant to subdivision (b) of Section 65585, whichever is earlier, unless the deadline is extended pursuant to subdivision (f). Notwithstanding the foregoing, for a local government that fails to adopt a housing element that the department has found to be in substantial compliance with this article within 120 days of the statutory deadline in Section 65588 for adoption of the housing element, rezoning of those sites, including adoption of minimum density and development standards, shall be completed no later than one year from the statutory deadline in Section 65588 for adoption of the housing element.

(B) Where the inventory of sites, pursuant to paragraph (3) of subdivision (a), does not identify adequate sites to accommodate the need for groups of all household income levels pursuant to Section 65584, the program shall identify sites that can be developed for housing within the planning period pursuant to subdivision (h) of Section 65583.2. The identification of sites shall include all components specified in Section 65583.2.

(C) Where the inventory of sites pursuant to paragraph (3) of subdivision (a) does not identify adequate sites to accommodate the need for farmworker housing, the program shall provide for sufficient sites to meet the need with zoning

that permits farmworker housing use by right, including density and development standards that could accommodate and facilitate the feasibility of the development of farmworker housing for low- and very low income households.

(2) Assist in the development of adequate housing to meet the needs of extremely low, very low, low-, and moderate-income households.

(3) Address and, where appropriate and legally possible, remove governmental and nongovernmental constraints to the maintenance, improvement, and development of housing, including housing for all income levels and housing for persons with disabilities. The program shall remove constraints to, and provide reasonable accommodations for housing designed for, intended for occupancy by, or with supportive services for, persons with disabilities. Transitional housing and supportive housing shall be considered a residential use of property and shall be subject only to those restrictions that apply to other residential dwellings of the same type in the same zone. Supportive housing, as defined in Section 65650, shall be a use by right in all zones where multifamily and mixed uses are permitted, as provided in Article 11 (commencing with Section 65650).

(4) Conserve and improve the condition of the existing affordable housing stock, which may include addressing ways to mitigate the loss of dwelling units demolished by public or private action.

(5) Promote and affirmatively further fair housing opportunities and promote housing throughout the community or communities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability, and other characteristics protected by the California Fair Employment and Housing Act (Part 2.8 (commencing with Section 12900) of Division 3 of Title 2), Section 65008, and any other state and federal fair housing and planning law.

(6) Preserve for lower income households the assisted housing developments identified pursuant to paragraph (9) of subdivision (a). The program for preservation of the assisted housing developments shall utilize, to the extent necessary, all available federal, state, and local financing and subsidy programs identified in paragraph (9) of subdivision (a), except where a community has other urgent needs for which alternative funding sources are not available. The program may include strategies that involve local regulation and technical assistance.

(7) Develop a plan that incentivizes and promotes the creation of accessory dwelling units that can be offered at affordable rent, as defined in Section 50053 of the Health and Safety Code, for very low, low-, or moderate-income households. For purposes of this paragraph, "accessory dwelling units" has the same meaning as "accessory dwelling unit" as defined in paragraph (4) of subdivision (i) of Section 65852.2.

(8) Include an identification of the agencies and officials responsible for the implementation of the various actions and the means by which consistency will be achieved with other general plan elements and community goals.

(9) Include a diligent effort by the local government to achieve public participation of all economic segments of the community in the development of the housing element, and the program shall describe this effort.

(10) (A) Affirmatively further fair housing in accordance with Chapter 15 (commencing with Section 8899.50) of Division 1 of Title 2. The program shall include an assessment of fair housing in the jurisdiction that shall include all of the following components:

(i) A summary of fair housing issues in the jurisdiction and an assessment of the jurisdiction's fair housing enforcement and fair housing outreach capacity.

(ii) An analysis of available federal, state, and local data and knowledge to identify integration and segregation patterns and trends, racially or ethnically concentrated areas of poverty and affluence, disparities in access to opportunity, and disproportionate housing needs, including displacement risk. The analysis shall identify and examine such patterns, trends, areas, disparities, and needs, both within the jurisdiction and comparing the jurisdiction to the region in which it is located, based on race and other characteristics protected by the California Fair Employment and Housing Act (Part 2.8 (commencing with Section 12900) of Division 3 of Title 2) and Section 65008.

(iii) An assessment of the contributing factors, including the local and regional historical origins and current policies and practices, for the fair housing issues identified under clauses (i) and (ii).

(iv) An identification of the jurisdiction's fair housing priorities and goals, giving highest priority to those factors identified in clause (iii) that limit or deny fair housing choice or access to opportunity, or negatively impact fair housing or civil rights compliance, and identifying the metrics and milestones for determining what fair housing results will be achieved.

(v) Strategies and actions to implement those priorities and goals, which may include, but are not limited to, enhancing mobility strategies and encouraging development of new affordable housing in areas of opportunity, as well as place-based strategies to encourage community revitalization, including preservation of existing affordable housing, and protecting existing residents from displacement.

(B) A jurisdiction that completes or revises an assessment of fair housing pursuant to Subpart A (commencing with Section 5.150) of Part 5 of Subtitle A of Title 24 of the Code of Federal Regulations, as published in Volume 80 of the Federal Register, Number 136, page 42272, dated July 16, 2015, or an analysis of impediments to fair housing choice in accordance with the requirements of Section 91.225 of Title 24 of the Code of Federal Regulations in effect before August 17, 2015, may incorporate relevant portions of that assessment or revised assessment of fair housing or analysis or revised analysis of impediments to fair housing into its housing element.

(C) The requirements of this paragraph shall apply to housing elements due to be revised pursuant to Section 65588 on or after January 1, 2021.

(d) (1) A local government may satisfy all or part of its requirement to identify a zone or zones suitable for the development of emergency shelters pursuant to paragraph (4) of subdivision (a) by adopting and implementing a multijurisdictional agreement, with a maximum of two other adjacent communities, that requires the participating jurisdictions to develop at least one year-round emergency shelter within two years of the beginning of the planning period.

(2) The agreement shall allocate a portion of the new shelter capacity to each jurisdiction as credit toward its emergency shelter need, and each jurisdiction shall describe how the capacity was allocated as part of its housing element.

(3) Each member jurisdiction of a multijurisdictional agreement shall describe in its housing element all of the following:

(A) How the joint facility will meet the jurisdiction's emergency shelter need.

(B) The jurisdiction's contribution to the facility for both the development and ongoing operation and management of the facility.

(C) The amount and source of the funding that the jurisdiction contributes to the facility.

(4) The aggregate capacity claimed by the participating jurisdictions in their housing elements shall not exceed the actual capacity of the shelter.

(e) Except as otherwise provided in this article, amendments to this article that alter the required content of a housing element shall apply to both of the following:

(1) A housing element or housing element amendment prepared pursuant to subdivision (e) of Section 65588 or Section 65584.02, when a city, county, or city and county submits a draft to the department for review pursuant to Section 65585 more than 90 days after the effective date of the amendment to this section.

(2) Any housing element or housing element amendment prepared pursuant to subdivision (e) of Section 65588 or Section 65584.02, when the city, county, or city and county fails to submit the first draft to the department before the due date specified in Section 65588 or 65584.02.

(f) The deadline for completing required rezoning pursuant to subparagraph (A) of paragraph (1) of subdivision (c) shall be extended by one year if the local government has completed the rezoning at densities sufficient to accommodate at least 75 percent of the units for low- and very low income households and if the legislative body at the conclusion of a public hearing determines, based upon substantial evidence, that any of the following circumstances exist:

(1) The local government has been unable to complete the rezoning because of the action or inaction beyond the control of the local government of any other state, federal, or local agency.

(2) The local government is unable to complete the rezoning because of infrastructure deficiencies due to fiscal or regulatory constraints.

(3) The local government must undertake a major revision to its general plan in order to accommodate the housing-related policies of a sustainable communities strategy or an alternative planning strategy adopted pursuant to Section 65080.

The resolution and the findings shall be transmitted to the department together with a detailed budget and schedule for preparation and adoption of the required rezonings, including plans for citizen participation and expected interim action. The schedule shall provide for adoption of the required rezoning within one year of the adoption of the resolution.

(g) (1) If a local government fails to complete the rezoning by the deadline provided in subparagraph (A) of paragraph (1) of subdivision (c), as it may be extended pursuant to subdivision (f), except as provided in paragraph (2), a local government may not disapprove a housing development project, nor require a conditional use permit, planned unit development permit, or other locally imposed discretionary permit, or impose a condition that would render the project infeasible, if the housing development project (A) is proposed to be located on a site required to be rezoned pursuant to the program action required by that subparagraph and (B) complies with applicable, objective general plan and zoning standards and criteria, including design review

standards, described in the program action required by that subparagraph. Any subdivision of sites shall be subject to the Subdivision Map Act (Division 2 (commencing with Section 66410)). Design review shall not constitute a "project" for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code.

(2) A local government may disapprove a housing development described in paragraph (1) if it makes written findings supported by substantial evidence on the record that both of the following conditions exist:

(A) The housing development project would have a specific, adverse impact upon the public health or safety unless the project is disapproved or approved upon the condition that the project be developed at a lower density. As used in this paragraph, a "specific, adverse impact" means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

(B) There is no feasible method to satisfactorily mitigate or avoid the adverse impact identified pursuant to paragraph (1), other than the disapproval of the housing development project or the approval of the project upon the condition that it be developed at a lower density.

(3) The applicant or any interested person may bring an action to enforce this subdivision. If a court finds that the local agency disapproved a project or conditioned its approval in violation of this subdivision, the court shall issue an order or judgment compelling compliance within 60 days. The court shall retain jurisdiction to ensure that its order or judgment is carried out. If the court determines that its order or judgment has not been carried out within 60 days, the court may issue further orders to ensure that the purposes and policies of this subdivision are fulfilled. In any such action, the city, county, or city and county shall bear the burden of proof.

(4) For purposes of this subdivision, "housing development project" means a project to construct residential units for which the project developer provides sufficient legal commitments to the appropriate local agency to ensure the continued availability and use of at least 49 percent of the housing units for very low, low-, and moderate-income households with an affordable housing cost or affordable rent, as defined in Section 50052.5 or 50053 of the Health and Safety Code, respectively, for the period required by the applicable financing.

(h) An action to enforce the program actions of the housing element shall be brought pursuant to Section 1085 of the Code of Civil Procedure.

(i) Notwithstanding any other law, the otherwise applicable timeframe set forth in paragraph (2) of subdivision (b) and subdivision (d) of Section 21080.3.1 of the Public Resources Code, and paragraph (3) of subdivision (d) of Section 21082.3 of the Public Resources Code, for a Native American tribe to respond to a lead agency and request consultation in writing is extended by 30 days for any housing development project application determined or deemed to be complete on or after March 4, 2020, and prior to December 31, 2021.

(j) On or after January 1, 2024, at the discretion of the department, the analysis of government constraints pursuant to paragraph (5) of subdivision (a) may include an analysis of constraints upon the maintenance, improvement, or development of housing for persons with a characteristic identified in subdivision (b) of Section 51 of the Civil Code. The implementation of this subdivision is contingent upon an appropriation by the Legislature in the annual Budget Act or another statute for this purpose.

**SEC. 2.** Section 65863 of the Government Code is amended to read:

**65863.** (a) Each city, county, or city and county shall ensure that its housing element inventory described in paragraph (3) of subdivision (a) of Section 65583 or its housing element program to make sites available pursuant to paragraph (1) of subdivision (c) of Section 65583, including sites rezoned pursuant to Section 65584.09, can accommodate, at all times throughout the planning period, its remaining unmet share of the regional housing need allocated pursuant to Section 65584, and any remaining unaccommodated portion of the regional housing need from the prior planning period, except as provided in paragraph (2) of subdivision (c). At no time, except as provided in paragraph (2) of subdivision (c), shall a city, county, or city and county by administrative, quasi-judicial, legislative, or other action permit or cause its inventory of sites identified in the housing element to be insufficient to meet its remaining unmet share of the regional housing need for lower and moderate-income households.

(b) (1) No city, county, or city and county shall, by administrative, quasi-judicial, legislative, or other action, reduce, or require or permit the reduction of, the residential density for any parcel identified to meet its current share of the regional housing need or any unaccommodated portion of the regional housing need from the prior planning period to, or allow development of any parcel at, a lower residential density, as defined in paragraphs (1) and (2) of subdivision (g), unless the city, county, or city and county makes written findings supported by substantial evidence of both of the following:

(A) The reduction is consistent with the adopted general plan, including the housing element.

(B) The remaining sites identified in the housing element are adequate to meet the requirements of Section 65583.2 and to accommodate the jurisdiction's share of the regional housing need pursuant to Section 65584. The finding shall include a quantification of the remaining unmet need for the jurisdiction's share of the regional housing need at each income level and the remaining capacity of sites identified in the housing element to accommodate that need by income level.

(2) If a city, county, or city and county, by administrative, quasi-judicial, legislative, or other action, allows development of any parcel with fewer units by income category than identified in the jurisdiction's housing element for that parcel, the city, county, or city and county shall make a written finding supported by substantial evidence as to whether or not remaining sites identified in the housing element are adequate to meet the requirements of Section 65583.2 and to accommodate the jurisdiction's share of the regional housing need pursuant to Section 65584. The finding shall include a quantification of the remaining unmet need for the jurisdiction's share of the regional housing need at each income level and the remaining capacity of sites identified in the housing element to accommodate that need by income level.

(c) (1) If a reduction in residential density for any parcel would result in the remaining sites in the housing element not being adequate to meet the requirements of Section 65583.2 and to accommodate the jurisdiction's share of the regional housing need pursuant to Section 65584, the jurisdiction may reduce the density on that parcel if it identifies sufficient additional, adequate, and available sites with an equal or greater residential density in the jurisdiction so that there is no net loss of residential unit capacity.

(2) If the approval of a development project results in fewer units by income category than identified in the jurisdiction's housing element for that parcel and the jurisdiction does not find that the remaining sites in the housing element are adequate to accommodate the jurisdiction's share of the regional housing need by income level, the jurisdiction shall within 180 days identify and make available additional adequate sites to accommodate the jurisdiction's share of the regional housing need by income level. Nothing in this section shall authorize a city, county, or city and county to disapprove a housing development project on the basis that approval of the housing project would require compliance with this paragraph.

(d) The requirements of this section shall be in addition to any other law that may restrict or limit the reduction of residential density.

(e) This section requires that a city, county, or city and county be solely responsible for compliance with this section, unless a project applicant requests in their initial application, as submitted, a density that would result in the remaining sites in the housing element not being adequate to accommodate the jurisdiction's share of the regional housing need pursuant to Section 65584. In that case, the city, county, or city and county may require the project applicant to comply with this section. The submission of an application for purposes of this subdivision does not depend on the application being deemed complete or being accepted by the city, county, or city and county.

(f) This section shall not be construed to apply to parcels that, prior to January 1, 2003, were either (1) subject to a development agreement, or (2) parcels for which an application for a subdivision map had been submitted.

(g) (1) If the local jurisdiction has adopted a housing element for the current planning period that is in substantial compliance with Article 10.6 (commencing with Section 65580) of Chapter 3, for purposes of this section, "lower residential density" means the following:

(A) For sites on which the zoning designation permits residential use and that are identified in the local jurisdiction's housing element inventory described in paragraph (3) of subdivision (a) of Section 65583, fewer units on the site than were projected by the jurisdiction to be accommodated on the site pursuant to subdivision (c) of Section 65583.2.

(B) For sites that have been or will be rezoned pursuant to the local jurisdiction's housing element program described in paragraph (1) of subdivision (c) of Section 65583, fewer units for the site than were projected to be developed on the site in the housing element program.

(2) (A) If the local jurisdiction has not adopted a housing element for the current planning period within 90 days of the deadline established by Section 65588 or the adopted housing element is not in substantial compliance with Article 10.6 (commencing with Section 65580) of Chapter 3 within 180 days of the deadline established by Section 65588, "lower residential density" means any of the following:

(i) For residentially zoned sites, a density that is lower than 80 percent of the maximum allowable residential density for that parcel or 80 percent of the maximum density required by paragraph (3) of subdivision (c) of Section 65583.2, whichever is greater.

(ii) For sites on which residential and nonresidential uses are permitted, a use that would result in the development of fewer than 80 percent of the number of residential units that would be allowed under the maximum residential density for the site parcel or 80 percent of the maximum density required by paragraph (3) of subdivision (c) of Section 65583.2, whichever is greater.

(B) If the council of governments fails to complete a final housing need allocation pursuant to the deadlines established by Section 65584.05, then for purposes of this paragraph, the deadline pursuant to Section 65588 shall be extended by a time period equal to the number of days of delay incurred by the council of governments in completing the final housing need allocation.

(h) An action that obligates a jurisdiction to identify and make available additional adequate sites for residential development pursuant to this section creates no obligation under the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code) to identify, analyze, or mitigate the environmental impacts of that subsequent action to identify and make available additional adequate sites as a reasonably foreseeable consequence of that action. Nothing in this subdivision shall be construed as a determination as to whether or not the subsequent action by a city, county, or city and county to identify and make available additional adequate sites is a "project" for purposes of the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(i) For purposes of this section, "unaccommodated portion of the regional housing need" means the portion of the local government's regional housing need from the prior planning period that is required to be accommodated onsite zoned or rezoned pursuant to Section 65584.09.

(j) Notwithstanding Section 65803, this section shall also apply to a charter city.

**SEC. 3.** No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because a local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act, within the meaning of Section 17556 of the Government Code.
