**Assembly Bill No. 2890**

**CHAPTER 129**

An act to amend Sections 36615.5 and 36622 of the Streets and Highways Code, relating to improvement districts.

[ Approved by Governor July 19, 2022. Filed with Secretary of State July 19, 2022. ]

**LEGISLATIVE COUNSEL'S DIGEST**

AB 2890, Bloom. Property and business improvement districts.

Existing law, the Property and Business Improvement District Law of 1994, authorizes local governmental entities to levy assessments on properties and businesses within a property and business improvement district for the purpose of financing certain improvements and promoting activities that benefit property in the district. Existing law requires the management district plan for a property-based district to include, among other things, the total amount of all special benefits to be conferred upon the properties located within the property-based district and the total amount of general benefits, if any.

This bill would delete those requirements.

The Property and Business Improvement District Law of 1994 defines "special benefit" to mean, for purposes of a property-based district, a particular and distinct benefit over and above general benefits conferred on real property located in a district or to the public at large.

This bill would specify that "special benefit" includes, for purposes of a property-based district, a particular and distinct benefit provided directly to each assessed parcel within the district. The bill would authorize a city to impose assessments that are less than the proportional special benefit conferred, but would prohibit a city from imposing assessments that exceed the reasonable costs of the proportional special benefit conferred, as provided.

Vote: majority Appropriation: no Fiscal Committee: no Local Program: no

**THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:**

**SECTION 1.** Section 36615.5 of the Streets and Highways Code is amended to read:

**36615.5.** (a) "Special benefit" means, for purposes of a property-based district, a particular and distinct benefit over and above general benefits conferred on real property located in a district or to the public at large. Special benefit includes incidental or collateral effects that arise from the improvements, maintenance, or activities of property-based districts even if those incidental or collateral effects benefit property or persons not assessed. Special benefit excludes general enhancement of property value.

(b) "Special benefit" also includes, for purposes of a property-based district, a particular and distinct benefit provided directly to each assessed parcel within the district. Merely because parcels throughout an assessment district share the same special

benefits does not make the benefits general.

**SEC. 2.** Section 36622 of the Streets and Highways Code is amended to read:

**36622.** The management district plan shall include, but is not limited to, all of the following:

(a) If the assessment will be levied on property, a map of the district in sufficient detail to locate each parcel of property and, if businesses are to be assessed, each business within the district. If the assessment will be levied on businesses, a map that identifies the district boundaries in sufficient detail to allow a business owner to reasonably determine whether a business is located within the district boundaries. If the assessment will be levied on property and businesses, a map of the district in sufficient detail to locate each parcel of property and to allow a business owner to reasonably determine whether a business is located within the district boundaries.

(b) The name of the proposed district.

(c) A description of the boundaries of the district, including the boundaries of benefit zones, proposed for establishment or extension in a manner sufficient to identify the affected property and businesses included, which may be made by reference to any plan or map that is on file with the clerk. The boundaries of a proposed property assessment district shall not overlap with the boundaries of another existing property assessment district created pursuant to this part. This part does not prohibit the boundaries of a district created pursuant to this part to overlap with other assessment districts established pursuant to other provisions of law, including, but not limited to, the Parking and Business Improvement Area Law of 1989 (Part 6 (commencing with Section 36500)). This part does not prohibit the boundaries of a business assessment district created pursuant to this part to overlap with another business assessment district created pursuant to this part. This part does not prohibit the boundaries of a business assessment district created pursuant to this part to overlap with a property assessment district created pursuant to this part.

(d) The improvements, maintenance, and activities proposed for each year of operation of the district and the estimated cost thereof. If the improvements, maintenance, and activities proposed for each year of operation are the same, a description of the first year's proposed improvements, maintenance, and activities and a statement that the same improvements, maintenance, and activities are proposed for subsequent years shall satisfy the requirements of this subdivision.

(e) The total annual amount proposed to be expended for improvements, maintenance, or activities, and debt service in each year of operation of the district. If the assessment is levied on businesses, this amount may be estimated based upon the assessment rate. If the total annual amount proposed to be expended in each year of operation of the district is not significantly different, the amount proposed to be expended in the initial year and a statement that a similar amount applies to subsequent years shall satisfy the requirements of this subdivision.

(f) The proposed source or sources of financing, including the proposed method and basis of levying the assessment in sufficient detail to allow each property or business owner to calculate the amount of the assessment to be levied against their property or business. The plan also shall state whether bonds will be issued to finance improvements.

(g) The time and manner of collecting the assessments.

(h) The specific number of years in which assessments will be levied. In a new district, the maximum number of years shall be five. Upon renewal, a district shall have a term not to exceed 10 years. Notwithstanding these limitations, a district created pursuant to this part to finance capital improvements with bonds may levy assessments until the maximum maturity of the bonds. The management district plan may set forth specific increases in assessments for each year of operation of the district.

(i) The proposed time for implementation and completion of the management district plan.

(j) Any proposed rules and regulations to be applicable to the district.

(k) (1) A list of the properties or businesses to be assessed, including the assessor's parcel numbers for properties to be assessed, and a statement of the method or methods by which the expenses of a district will be imposed upon benefited real property or businesses, in proportion to the benefit received by the property or business, to defray the cost thereof.

(2) In a property-based district, the proportionate special benefit derived by each identified parcel shall be determined exclusively in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the activities. An assessment shall not be imposed on any parcel that exceeds the reasonable cost of the proportional special benefit conferred on that parcel. Only special benefits are assessable, and a property-based district shall separate the general benefits, if any, from the special benefits conferred on a parcel. Parcels within a property-based district that are owned or used by any city, public agency, the State of California, or the United States shall not be exempt from assessment unless the governmental entity can demonstrate by clear and convincing evidence that those publicly owned parcels in fact receive no special benefit. The value of any incidental, secondary, or collateral effects that arise

from the improvements, maintenance, or activities of a property-based district and that benefit property or persons not assessed shall not be deducted from the entirety of the cost of any special benefit or affect the proportionate special benefit derived by each identified parcel.

(3) In a property-based district, properties throughout the district may share the same special benefits. In a district with boundaries that define which parcels are to receive improvements, maintenance, or activities over and above those services provided by the city, the improvements, maintenance, or activities themselves may constitute a special benefit. The city may impose assessments that are less than the proportional special benefit conferred, but shall not impose assessments that exceed the reasonable costs of the proportional special benefit conferred. Because one or more parcels pay less than the special benefit conferred does not necessarily mean that other parcels are assessed more than the reasonable cost of their special benefit.

(l) In a property-based district, a detailed engineer's report prepared by a registered professional engineer certified by the State of California supporting all assessments contemplated by the management district plan.

(m) Any other item or matter required to be incorporated therein by the city council.
