Assembly Bill No. 3093

CHAPTER 282

An act to amend Sections 65400, 65582, 65583, 65583.1, 65583.2, 65584, 65584.01, 65584.04, and 65584.07 of, and to add Section 65583.05 to, the Government Code, relating to land use.

[Approved by Governor September 19, 2024. Filed with Secretary of State September 19, 2024.]

LEGISLATIVE COUNSEL'S DIGEST

AB 3093, Ward. Land use: housing element.

(1) The Planning and Zoning Law requires a city or county to adopt a general plan for land use development that includes, among other things, a housing element. Existing law requires a city or county to provide by April 1 of each year an annual report to, among other entities, the Department of Housing and Community Development. The annual report is required to include, among other things, the city's or county's progress in meeting its share of regional housing needs, as specified.

This bill would require a city or county to include in the report on the progress in meeting the city's or county's share of regional housing need the progress in meeting the need for the 6th and previous revisions of the housing element.

(2) Existing law defines various terms for purposes of requirements applicable to the housing element.

Under existing law, a housing element is required to include specified information, including an analysis of special housing needs, such as those of the elderly, and quantification of the locality's existing and projected housing needs for all income levels, including extremely low income households, calculated as provided.

This bill would define all income levels or all household income levels, acutely low, extremely low, very low, lower, low, moderate, and above moderate income for purposes of requirements applicable to the housing element, and would make related changes. The bill would modify the specified information required to be included in the housing element, including by removing the calculation method for extremely low income households and by specifying acutely and extremely low income households as a special housing need for the 7th and subsequent revisions of the housing element.

This bill would require the Department of Housing and Community Development to publish, by December 31, 2026, advisory guidance, including, but not limited to, sample analyses and programs, pertaining to special housing needs for acutely low and extremely low income households and programs to assist in the development of adequate housing to meet the needs of acutely low income households, as specified. The bill would additionally require the Department of Housing and Community Development to publish advisory guidance to be used by each council of governments or delegate subregion, as applicable, to develop a proposed methodology for allocating the regional housing need for acutely low and extremely low income households.

(3) Existing law requires the housing element to include an analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels, including certain policies and procedures that directly impact the cost and supply of residential development.

This bill would require the housing element to include an analysis of historical preservation practices and policies and an assessment of how existing and proposed historic designations affect the locality's ability to meet its share of the housing need, as specified.

(4) Existing law requires the housing element to include an inventory of land suitable and available for residential development, as specified. Existing law also requires the element to include a program that sets forth a schedule of actions during the planning period that the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the housing element, as described, and requires the program to identify actions that will be taken to make sites available during the planning period to accommodate the city's or county's share of the regional housing need for each income level that could not be accommodated on sites on the inventory, as described. Existing law requires the program to assist in the development of adequate housing to meet the needs of extremely low, very low, low-, and moderate-income households.

This bill would also require, for the 7th and subsequent revisions of the housing element, the program to assist in the development of adequate housing to meet the needs of acutely low income households.

Existing law requires sites to be rezoned, among other things, if the inventory of sites does not identify adequate sites to accommodate the need for groups of all household income levels, as specified, in a manner that accommodates 100% of the need for housing for very low and low-income households, as described.

This bill would instead require the inventory accommodate 100% of the need for lower income households.

Existing law requires the housing element to identify adequate sites for housing, including rental housing, factory-built housing, mobilehomes, and emergency shelters, among other things. Existing law requires the housing element to contain an assessment of housing needs and an inventory of resources and constraints relevant to the meeting of these needs.

This bill would, for a jurisdiction within the coastal zone that has not identified adequate sites to accommodate the locality's housing need for a designated income level, require completion of any necessary local coastal program amendments related to land use designations, changes in intensity of land use, zoning ordinances, or zoning district maps, as specified.

(5) Existing law requires, for the 4th and subsequent revision of the housing element, the Department of Housing and Community Development to determine the existing and projected need for housing for each region in a specified manner. Existing law provides that household income levels are to be determined by the department pursuant to specified law relating to very low, low-, moderate-, and above moderate-income households.

This bill would, for purposes of the above-described determination with respect to the 7th and subsequent revisions of the housing element, include acutely low and extremely low incomes, and direct the determination to be made in accordance with the definitions for those income levels as set forth in the bill.

Existing law also requires, for the 4th and subsequent revision of the housing element, the department to meet and consult with the council of governments regarding the assumptions and methodologies to be used by the department in determining the region's housing needs and requires the council of governments to provide data assumptions from the council's projections, including, if available, specified data for the region.

This bill would require the council to provide data regarding the housing needs of individuals and families experiencing homelessness, as specified.

(6) Existing law requires, at least 2 years before a scheduled revision, each council of governments, or delegate subregion as applicable, to develop a proposed methodology for distributing the existing and projected regional housing need to cities, counties, and cities and counties within the region or subregion, as specified. Existing law requires the final allocation plan to further specified objectives, including increasing the housing supply and the mix of housing types, tenure, and affordability in all cities and counties within the region in an equitable manner, which results in each jurisdiction receiving an allocation of units for low- and very low income households. Existing law requires the final allocation plan to ensure that the total regional housing need is maintained and that each jurisdiction in the region receives an allocation of units for low- and very low income households, consistent with the development pattern included in the sustainable communities strategy.

This bill would require the final regional plan, as an objective, allocate units for extremely low- and acutely low income households in a manner that is roughly proportional to the regional housing need for very low income households, as specified. The bill would require, for the 7th and subsequent revisions of the housing element, the allocation to each region to also include an allocation of units for acutely low and extremely low income households, consistent with the development pattern included in the sustainable communities strategy.

(7) Existing law, during a specified timeline, requires the entity that assigned the county's share of regional housing needs to reduce the share of the regional housing needs of a county if certain conditions are met. Existing law, however, reduces the

county's share of low-income and very low income housing only in proportion to the amount by which the county's share of moderate- and above moderate-income housing is reduced.

This bill would also include, for the 7th and subsequent revisions of the housing element, extremely low and acutely low income housing in this proportional reduction.

(8) The bill would include findings that changes proposed by this bill address a matter of statewide concern rather than a municipal affair and, therefore, apply to all cities, including charter cities.

(9) This bill would incorporate additional changes to Section 65400 of the Government Code proposed by AB 2580 and AB 2667 to be operative only if this bill and either or both of those bills are enacted and this bill is enacted last.

This bill would incorporate additional changes to Section 65583 of the Government Code proposed by AB 2023 and AB 2667 to be operative only if this bill and either or both of those bills are enacted and this bill is enacted last.

This bill would incorporate additional changes to Section 65583.2 of the Government Code proposed by AB 2023 to be operative only if this bill and AB 2023 are enacted and this bill is enacted last.

This bill would incorporate additional changes to Section 65584.01 of the Government Code proposed by SB 7 to be operative only if this bill and SB 7 are enacted and this bill is enacted last.

This bill would incorporate additional changes to Section 65584.04 of the Government Code proposed by SB 7 to be operative only if this bill and SB 7 are enacted and this bill is enacted last.

(10) By imposing additional requirements on local governments with regard to their housing element, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority Appropriation: no Fiscal Committee: yes Local Program: yes

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

SECTION 1. Section 65400 of the Government Code is amended to read:

65400. (a) After the legislative body has adopted all or part of a general plan, the planning agency shall do both of the following:

(1) Investigate and make recommendations to the legislative body regarding reasonable and practical means for implementing the general plan or element of the general plan so that it will serve as an effective guide for orderly growth and development, preservation and conservation of open-space land and natural resources, and the efficient expenditure of public funds relating to the subjects addressed in the general plan.

(2) Provide by April 1 of each year an annual report to the legislative body, the Office of Planning and Research, and the Department of Housing and Community Development that includes all of the following:

(A) The status of the plan and progress in its implementation.

(B) (i) (I) The progress in meeting its share of regional housing needs determined pursuant to Section 65584, including the need for extremely low income households, as determined pursuant to Section 65583, and local efforts to remove governmental constraints to the maintenance, improvement, and development of housing pursuant to paragraph (3) of subdivision (c) of Section 65583.

(II) The annual report shall include the progress in meeting the city's or county's progress in meeting its share of regional housing need, as described in subclause (I), for the sixth and previous revisions of the housing element.

(ii) The housing element portion of the annual report, as required by this paragraph, shall be prepared through the use of standards, forms, and definitions adopted by the Department of Housing and Community Development. The department may review, adopt, amend, and repeal the standards, forms, or definitions to implement this article. Any standards, forms, or definitions adopted to implement this article shall not be subject to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2. Before and after adoption of the forms, the housing element portion of the annual report shall include a section that describes the actions taken by the local government towards completion of the programs and status of the local government's compliance with the deadlines in its housing element. The report shall be

considered at an annual public meeting before the legislative body where members of the public shall be allowed to provide oral testimony and written comments.

(iii) The report may include the number of units that have been completed pursuant to subdivision (c) of Section 65583.1. For purposes of this paragraph, committed assistance may be executed throughout the planning period, and the program under paragraph (1) of subdivision (c) of Section 65583.1 shall not be required. The report shall document how the units meet the standards set forth in that subdivision.

(iv) The planning agency shall include the number of units in a student housing development for lower income students for which the developer of the student housing development was granted a density bonus pursuant to subparagraph (F) of paragraph (1) of subdivision (b) of Section 65915.

(C) The number of housing development applications received in the prior year, including whether each housing development application is subject to a ministerial or discretionary approval process.

(D) The number of units included in all development applications in the prior year.

(E) The number of units approved and disapproved in the prior year.

(F) The degree to which its approved general plan complies with the guidelines developed and adopted pursuant to Section 65040.2 and the date of the last revision to the general plan.

(G) A listing of sites rezoned to accommodate that portion of the city's or county's share of the regional housing need for each income level that could not be accommodated on sites identified in the inventory required by paragraph (1) of subdivision (c) of Section 65583 and Section 65584.09. The listing of sites shall also include any additional sites that may have been required to be identified by Section 65863.

(H) (i) The number of units of housing demolished and new units of housing, including both rental housing and for-sale housing and any units that the County of Napa or the City of Napa may report pursuant to an agreement entered into pursuant to Section 65584.08, that have been issued a completed entitlement, a building permit, or a certificate of occupancy, thus far in the housing element cycle, and the income category, by area median income category, that each unit of housing satisfies. That production report shall do the following:

(I) For each income category described in this subparagraph, distinguish between the number of rental housing units and the number of for-sale units that satisfy each income category.

(II) For each entitlement, building permit, or certificate of occupancy, include a unique site identifier that must include the assessor's parcel number, but may also include street address, or other identifiers.

(ii) For the County of Napa and the City of Napa, the production report may report units identified in the agreement entered into pursuant to Section 65584.08.

(I) The number of applications submitted pursuant to subdivision (a) of Section 65913.4, the location and the total number of developments approved pursuant to subdivision (c) of Section 65913.4, the total number of building permits issued pursuant to subdivision (c) of Section 65913.4, the total number of units including both rental housing and for-sale housing by area median income category constructed using the process provided for in subdivision (c) of Section 65913.4.

(J) If the city or county has received funding pursuant to the Local Government Planning Support Grants Program (Chapter 3.1 (commencing with Section 50515) of Part 2 of Division 31 of the Health and Safety Code), the information required pursuant to subdivision (a) of Section 50515.04 of the Health and Safety Code.

(K) The progress of the city or county in adopting or amending its general plan or local open-space element in compliance with its obligations to consult with California Native American tribes, and to identify and protect, preserve, and mitigate impacts to places, features, and objects described in Sections 5097.9 and 5097.993 of the Public Resources Code, pursuant to Chapter 905 of the Statutes of 2004.

(L) The following information with respect to density bonuses granted in accordance with Section 65915:

(i) The number of density bonus applications received by the city or county.

(ii) The number of density bonus applications approved by the city or county.

(iii) Data from all projects approved to receive a density bonus from the city or county, including, but not limited to, the percentage of density bonus received, the percentage of affordable units in the project, the number of other incentives or concessions granted to the project, and any waiver or reduction of parking standards for the project.

(M) The following information with respect to each application submitted pursuant to Chapter 4.1 (commencing with Section 65912.100):

(i) The location of the project.

(ii) The status of the project, including whether it has been entitled, whether a building permit has been issued, and whether or not it has been completed.

(iii) The number of units in the project.

(iv) The number of units in the project that are rental housing.

(v) The number of units in the project that are for-sale housing.

(vi) The household income category of the units, as determined pursuant to subdivision (f) of Section 65584.

(b) (1) (A) The department may request corrections to the housing element portion of an annual report submitted pursuant to paragraph (2) of subdivision (a) within 90 days of receipt. A planning agency shall make the requested corrections within 30 days after which the department may reject the report if the report is not in substantial compliance with the requirements of that paragraph.

(B) If the department rejects the housing element portion of an annual report as authorized by subparagraph (A), the department shall provide the reasons the report is inconsistent with paragraph (2) of subdivision (a) to the planning agency in writing.

(2) If a court finds, upon a motion to that effect, that a city, county, or city and county failed to submit, within 60 days of the deadline established in this section, the housing element portion of the report required pursuant to subparagraph (B) of paragraph (2) of subdivision (a) that substantially complies with the requirements of this section, the court shall issue an order or judgment compelling compliance with this section within 60 days. If the city, county, or city and county fails to comply with the court's order within 60 days, the plaintiff or petitioner may move for sanctions, and the court may, upon that motion, grant appropriate sanctions. The court shall retain jurisdiction to ensure that its order or judgment is carried out. If the court determines that its order or judgment is not carried out within 60 days, the court may issue further orders as provided by law to ensure that the purposes and policies of this section are fulfilled. This subdivision applies to proceedings initiated on or after the first day of October following the adoption of forms and definitions by the Department of Housing and Community Development pursuant to paragraph (2) of subdivision (a), but no sooner than six months following that adoption.

(c) The Department of Housing and Community Development shall post a report submitted pursuant to this section on its internet website within a reasonable time of receiving the report.

SEC. 1.1. Section 65400 of the Government Code is amended to read:

65400. (a) After the legislative body has adopted all or part of a general plan, the planning agency shall do both of the following:

(1) Investigate and make recommendations to the legislative body regarding reasonable and practical means for implementing the general plan or element of the general plan so that it will serve as an effective guide for orderly growth and development, preservation and conservation of open-space land and natural resources, and the efficient expenditure of public funds relating to the subjects addressed in the general plan.

(2) Provide by April 1 of each year an annual report to the legislative body, the Office of Planning and Research, and the Department of Housing and Community Development that includes all of the following:

(A) The status of the plan and progress in its implementation.

(B) (i) (I) The progress in meeting its share of regional housing needs determined pursuant to Section 65584, including the need for extremely low income households, as determined pursuant to Section 65583, and local efforts to remove governmental constraints to the maintenance, improvement, and development of housing pursuant to paragraph (3) of subdivision (c) of Section 65583.

(II) The annual report shall include the progress in meeting the city's or county's progress in meeting its share of regional housing need, as described in subclause (I), for the sixth and previous revisions of the housing element.

(ii) The housing element portion of the annual report, as required by this paragraph, shall be prepared through the use of standards, forms, and definitions adopted by the Department of Housing and Community Development. The department may review, adopt, amend, and repeal the standards, forms, or definitions to implement this article. Any standards, forms, or definitions adopted to implement this article shall not be subject to Chapter 3.5 (commencing with Section

11340) of Part 1 of Division 3 of Title 2. Before and after adoption of the forms, the housing element portion of the annual report shall include a section that describes the actions taken by the local government towards completion of the programs and status of the local government's compliance with the deadlines in its housing element. The report shall be considered at an annual public meeting before the legislative body where members of the public shall be allowed to provide oral testimony and written comments.

(iii) The report may include the number of units that have been completed pursuant to subdivision (c) of Section 65583.1. For purposes of this paragraph, committed assistance may be executed throughout the planning period, and the program under paragraph (1) of subdivision (c) of Section 65583.1 shall not be required. The report shall document how the units meet the standards set forth in that subdivision.

(iv) The planning agency shall include the number of units in a student housing development for lower income students for which the developer of the student housing development was granted a density bonus pursuant to subparagraph (F) of paragraph (1) of subdivision (b) of Section 65915.

(C) The number of housing development applications received in the prior year, including whether each housing development application is subject to a ministerial or discretionary approval process.

(D) The number of units included in all development applications in the prior year.

(E) The number of units approved and disapproved in the prior year.

(F) The degree to which its approved general plan complies with the guidelines developed and adopted pursuant to Section 65040.2 and the date of the last revision to the general plan.

(G) A listing of sites rezoned to accommodate that portion of the city's or county's share of the regional housing need for each income level that could not be accommodated on sites identified in the inventory required by paragraph (1) of subdivision (c) of Section 65583 and Section 65584.09. The listing of sites shall also include any additional sites that may have been required to be identified by Section 65863.

(H) (i) The number of units of housing demolished and new units of housing, including both rental housing and for-sale housing and any units that the County of Napa or the City of Napa may report pursuant to an agreement entered into pursuant to Section 65584.08, that have been issued a completed entitlement, a building permit, or a certificate of occupancy, thus far in the housing element cycle, and the income category, by area median income category, that each unit of housing satisfies. That production report shall do the following:

(I) For each income category described in this subparagraph, distinguish between the number of rental housing units and the number of for-sale units that satisfy each income category.

(II) For each entitlement, building permit, or certificate of occupancy, include a unique site identifier that must include the assessor's parcel number, but may also include street address, or other identifiers.

(ii) For the County of Napa and the City of Napa, the production report may report units identified in the agreement entered into pursuant to Section 65584.08.

(I) The number of applications submitted pursuant to subdivision (a) of Section 65913.4, the location and the total number of developments approved pursuant to subdivision (c) of Section 65913.4, the total number of building permits issued pursuant to subdivision (c) of Section 65913.4, the total number of units including both rental housing and for-sale housing by area median income category constructed using the process provided for in subdivision (c) of Section 65913.4.

(J) If the city or county has received funding pursuant to the Local Government Planning Support Grants Program (Chapter 3.1 (commencing with Section 50515) of Part 2 of Division 31 of the Health and Safety Code), the information required pursuant to subdivision (a) of Section 50515.04 of the Health and Safety Code.

(K) The progress of the city or county in adopting or amending its general plan or local open-space element in compliance with its obligations to consult with California Native American tribes, and to identify and protect, preserve, and mitigate impacts to places, features, and objects described in Sections 5097.9 and 5097.993 of the Public Resources Code, pursuant to Chapter 905 of the Statutes of 2004.

(L) The following information with respect to density bonuses granted in accordance with Section 65915:

(i) The number of density bonus applications received by the city or county.

(ii) The number of density bonus applications approved by the city or county.

(iii) Data from all projects approved to receive a density bonus from the city or county, including, but not limited to, the percentage of density bonus received, the percentage of affordable units in the project, the number of other incentives or concessions granted to the project, and any waiver or reduction of parking standards for the project.

(M) The following information with respect to each application submitted pursuant to Chapter 4.1 (commencing with Section 65912.100):

(i) The location of the project.

(ii) The status of the project, including whether it has been entitled, whether a building permit has been issued, and whether or not it has been completed.

(iii) The number of units in the project.

(iv) The number of units in the project that are rental housing.

(v) The number of units in the project that are for-sale housing.

(vi) The household income category of the units, as determined pursuant to subdivision (f) of Section 65584.

(N) A list of all historic designations listed on the National Register of Historic Places, the California Register of Historic Resources, or a local register of historic places by the city or county in the past year, and the status of any housing development projects proposed for the new historic designations, including all of the following:

(i) Whether the housing development project has been entitled.

(ii) Whether a building permit has been issued for the housing development project.

(iii) The number of units in the housing development project.

(b) (1) (A) The department may request corrections to the housing element portion of an annual report submitted pursuant to paragraph (2) of subdivision (a) within 90 days of receipt. A planning agency shall make the requested corrections within 30 days after which the department may reject the report if the report is not in substantial compliance with the requirements of that paragraph.

(B) If the department rejects the housing element portion of an annual report as authorized by subparagraph (A), the department shall provide the reasons the report is inconsistent with paragraph (2) of subdivision (a) to the planning agency in writing.

(2) If a court finds, upon a motion to that effect, that a city, county, or city and county failed to submit, within 60 days of the deadline established in this section, the housing element portion of the report required pursuant to subparagraph (B) of paragraph (2) of subdivision (a) that substantially complies with the requirements of this section, the court shall issue an order or judgment compelling compliance with this section within 60 days. If the city, county, or city and county fails to comply with the court's order within 60 days, the plaintiff or petitioner may move for sanctions, and the court may, upon that motion, grant appropriate sanctions. The court shall retain jurisdiction to ensure that its order or judgment is carried out. If the court determines that its order or judgment is not carried out within 60 days, the court may issue further orders as provided by law to ensure that the purposes and policies of this section are fulfilled. This subdivision applies to proceedings initiated on or after the first day of October following the adoption of forms and definitions by the Department of Housing and Community Development pursuant to paragraph (2) of subdivision (a), but no sooner than six months following that adoption.

(c) The Department of Housing and Community Development shall post a report submitted pursuant to this section on its internet website within a reasonable time of receiving the report.

SEC. 1.2. Section 65400 of the Government Code is amended to read:

65400. (a) After the legislative body has adopted all or part of a general plan, the planning agency shall do both of the following:

(1) Investigate and make recommendations to the legislative body regarding reasonable and practical means for implementing the general plan or element of the general plan so that it will serve as an effective guide for orderly growth and development, preservation and conservation of open-space land and natural resources, and the efficient expenditure of public funds relating to the subjects addressed in the general plan.

(2) Provide by April 1 of each year an annual report to the legislative body, the Office of Planning and Research, and the Department of Housing and Community Development that includes all of the following:

(A) The status of the plan and progress in its implementation.

(B) (i) (I) The progress in meeting its share of regional housing needs determined pursuant to Section 65584, including the need for extremely low income households, as determined pursuant to Section 65583, and local efforts to remove governmental constraints to the maintenance, improvement, and development of housing pursuant to paragraph (3) of subdivision (c) of Section 65583.

(II) The annual report shall include the progress in meeting the city's or county's progress in meeting its share of regional housing need, as described in subclause (I), for the sixth and previous revisions of the housing element.

(ii) The housing element portion of the annual report, as required by this paragraph, shall be prepared through the use of standards, forms, and definitions adopted by the Department of Housing and Community Development. The department may review, adopt, amend, and repeal the standards, forms, or definitions to implement this article. Any standards, forms, or definitions adopted to implement this article shall not be subject to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2. Before and after adoption of the forms, the housing element portion of the annual report shall include a section that describes the actions taken by the local government towards completion of the programs and status of the local government's compliance with the deadlines in its housing element. The report shall be considered at an annual public meeting before the legislative body where members of the public shall be allowed to provide oral testimony and written comments.

(iii) The report may include the number of units that have been completed pursuant to subdivision (c) of Section 65583.1. For purposes of this paragraph, committed assistance may be executed throughout the planning period, and the program under paragraph (1) of subdivision (c) of Section 65583.1 shall not be required. The report shall document how the units meet the standards set forth in that subdivision.

(iv) The planning agency shall include the number of units in a student housing development for lower income students for which the developer of the student housing development was granted a density bonus pursuant to subparagraph (F) of paragraph (1) of subdivision (b) of Section 65915.

(C) The number of housing development applications received in the prior year, including whether each housing development application is subject to a ministerial or discretionary approval process.

(D) The number of units included in all development applications in the prior year.

(E) (i) The number of units approved and disapproved in the prior year, which shall include all of the following subcategories:

(I) The number of units located within an opportunity area.

(II) For the seventh and each subsequent revision of the housing element, the number of units approved and disapproved for acutely low income households within each opportunity area.

(III) For the seventh and each subsequent revision of the housing element, the number of units approved and disapproved for extremely low income households within each opportunity area.

(IV) The number of units approved and disapproved for very low income households within each opportunity area.

(V) The number of units approved and disapproved for lower income households within each opportunity area.

(VI) The number of units approved and disapproved for moderate-income households within each opportunity area.

(VII) The number of units approved and disapproved for above moderate-income households within each opportunity area.

(ii) For purposes of this subparagraph, "opportunity area" means a highest, high, moderate, or low resource area pursuant to the most recent "CTCAC/HCD Opportunity Map" published by the California Tax Credit Allocation Committee and the Department of Housing and Community Development.

(F) The degree to which its approved general plan complies with the guidelines developed and adopted pursuant to Section 65040.2 and the date of the last revision to the general plan.

(G) A listing of sites rezoned to accommodate that portion of the city's or county's share of the regional housing need for each income level that could not be accommodated on sites identified in the inventory required by paragraph (1) of subdivision (c) of Section 65583 and Section 65584.09. The listing of sites shall also include any additional sites that may have been required to be identified by Section 65863.

(H) (i) The number of units of housing demolished and new units of housing, including both rental housing and for-sale housing and any units that the County of Napa or the City of Napa may report pursuant to an agreement entered into pursuant to Section 65584.08, that have been issued a completed entitlement, a building permit, or a certificate of occupancy, thus far in the housing element cycle, and the income category, by area median income category, that each unit of housing satisfies. That production report shall do the following:

(I) For each income category described in this subparagraph, distinguish between the number of rental housing units and the number of for-sale units that satisfy each income category.

(II) For each entitlement, building permit, or certificate of occupancy, include a unique site identifier that must include the assessor's parcel number, but may also include street address, or other identifiers.

(ii) For the County of Napa and the City of Napa, the production report may report units identified in the agreement entered into pursuant to Section 65584.08.

(I) The number of applications submitted pursuant to subdivision (a) of Section 65913.4, the location and the total number of developments approved pursuant to subdivision (c) of Section 65913.4, the total number of building permits issued pursuant to subdivision (c) of Section 65913.4, the total number of units including both rental housing and for-sale housing by area median income category constructed using the process provided for in subdivision (c) of Section 65913.4.

(J) If the city or county has received funding pursuant to the Local Government Planning Support Grants Program (Chapter 3.1 (commencing with Section 50515) of Part 2 of Division 31 of the Health and Safety Code), the information required pursuant to subdivision (a) of Section 50515.04 of the Health and Safety Code.

(K) The progress of the city or county in adopting or amending its general plan or local open-space element in compliance with its obligations to consult with California Native American tribes, and to identify and protect, preserve, and mitigate impacts to places, features, and objects described in Sections 5097.9 and 5097.993 of the Public Resources Code, pursuant to Chapter 905 of the Statutes of 2004.

(L) The following information with respect to density bonuses granted in accordance with Section 65915:

(i) The number of density bonus applications received by the city or county.

(ii) The number of density bonus applications approved by the city or county.

(iii) Data from all projects approved to receive a density bonus from the city or county, including, but not limited to, the percentage of density bonus received, the percentage of affordable units in the project, the number of other incentives or concessions granted to the project, and any waiver or reduction of parking standards for the project.

(M) The following information with respect to each application submitted pursuant to Chapter 4.1 (commencing with Section 65912.100):

(i) The location of the project.

(ii) The status of the project, including whether it has been entitled, whether a building permit has been issued, and whether or not it has been completed.

(iii) The number of units in the project.

(iv) The number of units in the project that are rental housing.

(v) The number of units in the project that are for-sale housing.

(vi) The household income category of the units, as determined pursuant to subdivision (f) of Section 65584.

(b) (1) (A) The department may request corrections to the housing element portion of an annual report submitted pursuant to paragraph (2) of subdivision (a) within 90 days of receipt. A planning agency shall make the requested corrections within 30 days after which the department may reject the report if the report is not in substantial compliance with the requirements of that paragraph.

(B) If the department rejects the housing element portion of an annual report as authorized by subparagraph (A), the department shall provide the reasons the report is inconsistent with paragraph (2) of subdivision (a) to the planning agency in writing.

(2) If a court finds, upon a motion to that effect, that a city, county, or city and county failed to submit, within 60 days of the deadline established in this section, the housing element portion of the report required pursuant to subparagraph (B) of

paragraph (2) of subdivision (a) that substantially complies with the requirements of this section, the court shall issue an order or judgment compelling compliance with this section within 60 days. If the city, county, or city and county fails to comply with the court's order within 60 days, the plaintiff or petitioner may move for sanctions, and the court may, upon that motion, grant appropriate sanctions. The court shall retain jurisdiction to ensure that its order or judgment is carried out. If the court determines that its order or judgment is not carried out within 60 days, the court may issue further orders as provided by law to ensure that the purposes and policies of this section are fulfilled. This subdivision applies to proceedings initiated on or after the first day of October following the adoption of forms and definitions by the Department of Housing and Community Development pursuant to paragraph (2) of subdivision (a), but no sooner than six months following that adoption.

(c) The Department of Housing and Community Development shall post a report submitted pursuant to this section on its internet website within a reasonable time of receiving the report.

SEC. 1.3. Section 65400 of the Government Code is amended to read:

65400. (a) After the legislative body has adopted all or part of a general plan, the planning agency shall do both of the following:

(1) Investigate and make recommendations to the legislative body regarding reasonable and practical means for implementing the general plan or element of the general plan so that it will serve as an effective guide for orderly growth and development, preservation and conservation of open-space land and natural resources, and the efficient expenditure of public funds relating to the subjects addressed in the general plan.

(2) Provide by April 1 of each year an annual report to the legislative body, the Office of Planning and Research, and the Department of Housing and Community Development that includes all of the following:

(A) The status of the plan and progress in its implementation.

(B) (i) (I) The progress in meeting its share of regional housing needs determined pursuant to Section 65584, including the need for extremely low income households, as determined pursuant to Section 65583, and local efforts to remove governmental constraints to the maintenance, improvement, and development of housing pursuant to paragraph (3) of subdivision (c) of Section 65583.

(II) The annual report shall include the progress in meeting the city's or county's progress in meeting its share of regional housing need, as described in subclause (I), for the sixth and previous revisions of the housing element.

(ii) The housing element portion of the annual report, as required by this paragraph, shall be prepared through the use of standards, forms, and definitions adopted by the Department of Housing and Community Development. The department may review, adopt, amend, and repeal the standards, forms, or definitions to implement this article. Any standards, forms, or definitions adopted to implement this article shall not be subject to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2. Before and after adoption of the forms, the housing element portion of the annual report shall include a section that describes the actions taken by the local government towards completion of the programs and status of the local government's compliance with the deadlines in its housing element. The report shall be considered at an annual public meeting before the legislative body where members of the public shall be allowed to provide oral testimony and written comments.

(iii) The report may include the number of units that have been completed pursuant to subdivision (c) of Section 65583.1. For purposes of this paragraph, committed assistance may be executed throughout the planning period, and the program under paragraph (1) of subdivision (c) of Section 65583.1 shall not be required. The report shall document how the units meet the standards set forth in that subdivision.

(iv) The planning agency shall include the number of units in a student housing development for lower income students for which the developer of the student housing development was granted a density bonus pursuant to subparagraph (F) of paragraph (1) of subdivision (b) of Section 65915.

(C) The number of housing development applications received in the prior year, including whether each housing development application is subject to a ministerial or discretionary approval process.

(D) The number of units included in all development applications in the prior year.

(E) (i) The number of units approved and disapproved in the prior year, which shall include all of the following subcategories:

(I) The number of units located within an opportunity area.

(II) For the seventh and each subsequent revision of the housing element, the number of units approved and disapproved for acutely low income households within each opportunity area.

(III) For the seventh and each subsequent revision of the housing element, the number of units approved and disapproved for extremely low income households within each opportunity area.

(IV) The number of units approved and disapproved for very low income households within each opportunity area.

(V) The number of units approved and disapproved for lower income households within each opportunity area.

(VI) The number of units approved and disapproved for moderate-income households within each opportunity area.

(VII) The number of units approved and disapproved for above moderate-income households within each opportunity area.

(ii) For purposes of this subparagraph, "opportunity area" means a highest, high, moderate, or low resource area pursuant to the most recent "CTCAC/HCD Opportunity Map" published by the California Tax Credit Allocation Committee and the Department of Housing and Community Development.

(F) The degree to which its approved general plan complies with the guidelines developed and adopted pursuant to Section 65040.2 and the date of the last revision to the general plan.

(G) A listing of sites rezoned to accommodate that portion of the city's or county's share of the regional housing need for each income level that could not be accommodated on sites identified in the inventory required by paragraph (1) of subdivision (c) of Section 65583 and Section 65584.09. The listing of sites shall also include any additional sites that may have been required to be identified by Section 65863.

(H) (i) The number of units of housing demolished and new units of housing, including both rental housing and for-sale housing and any units that the County of Napa or the City of Napa may report pursuant to an agreement entered into pursuant to Section 65584.08, that have been issued a completed entitlement, a building permit, or a certificate of occupancy, thus far in the housing element cycle, and the income category, by area median income category, that each unit of housing satisfies. That production report shall do the following:

(I) For each income category described in this subparagraph, distinguish between the number of rental housing units and the number of for-sale units that satisfy each income category.

(II) For each entitlement, building permit, or certificate of occupancy, include a unique site identifier that must include the assessor's parcel number, but may also include street address, or other identifiers.

(ii) For the County of Napa and the City of Napa, the production report may report units identified in the agreement entered into pursuant to Section 65584.08.

(I) The number of applications submitted pursuant to subdivision (a) of Section 65913.4, the location and the total number of developments approved pursuant to subdivision (c) of Section 65913.4, the total number of building permits issued pursuant to subdivision (c) of Section 65913.4, the total number of units including both rental housing and for-sale housing by area median income category constructed using the process provided for in subdivision (c) of Section 65913.4.

(J) If the city or county has received funding pursuant to the Local Government Planning Support Grants Program (Chapter 3.1 (commencing with Section 50515) of Part 2 of Division 31 of the Health and Safety Code), the information required pursuant to subdivision (a) of Section 50515.04 of the Health and Safety Code.

(K) The progress of the city or county in adopting or amending its general plan or local open-space element in compliance with its obligations to consult with California Native American tribes, and to identify and protect, preserve, and mitigate impacts to places, features, and objects described in Sections 5097.9 and 5097.993 of the Public Resources Code, pursuant to Chapter 905 of the Statutes of 2004.

(L) The following information with respect to density bonuses granted in accordance with Section 65915:

(i) The number of density bonus applications received by the city or county.

(ii) The number of density bonus applications approved by the city or county.

(iii) Data from all projects approved to receive a density bonus from the city or county, including, but not limited to, the percentage of density bonus received, the percentage of affordable units in the project, the number of other incentives or concessions granted to the project, and any waiver or reduction of parking standards for the project.

(M) The following information with respect to each application submitted pursuant to Chapter 4.1 (commencing with Section 65912.100):

(i) The location of the project.

(ii) The status of the project, including whether it has been entitled, whether a building permit has been issued, and whether or not it has been completed.

(iii) The number of units in the project.

(iv) The number of units in the project that are rental housing.

(v) The number of units in the project that are for-sale housing.

(vi) The household income category of the units, as determined pursuant to subdivision (f) of Section 65584.

(N) A list of all historic designations listed on the National Register of Historic Places, the California Register of Historic Resources, or a local register of historic places by the city or county in the past year, and the status of any housing development projects proposed for the new historic designations, including all of the following:

(i) Whether the housing development project has been entitled.

(ii) Whether a building permit has been issued for the housing development project.

(iii) The number of units in the housing development project.

(b) (1) (A) The department may request corrections to the housing element portion of an annual report submitted pursuant to paragraph (2) of subdivision (a) within 90 days of receipt. A planning agency shall make the requested corrections within 30 days after which the department may reject the report if the report is not in substantial compliance with the requirements of that paragraph.

(B) If the department rejects the housing element portion of an annual report as authorized by subparagraph (A), the department shall provide the reasons the report is inconsistent with paragraph (2) of subdivision (a) to the planning agency in writing.

(2) If a court finds, upon a motion to that effect, that a city, county, or city and county failed to submit, within 60 days of the deadline established in this section, the housing element portion of the report required pursuant to subparagraph (B) of paragraph (2) of subdivision (a) that substantially complies with the requirements of this section, the court shall issue an order or judgment compelling compliance with this section within 60 days. If the city, county, or city and county fails to comply with the court's order within 60 days, the plaintiff or petitioner may move for sanctions, and the court may, upon that motion, grant appropriate sanctions. The court shall retain jurisdiction to ensure that its order or judgment is carried out. If the court determines that its order or judgment is not carried out within 60 days, the court may issue further orders as provided by law to ensure that the purposes and policies of this section are fulfilled. This subdivision applies to proceedings initiated on or after the first day of October following the adoption of forms and definitions by the Department of Housing and Community Development pursuant to paragraph (2) of subdivision (a), but no sooner than six months following that adoption.

(c) The Department of Housing and Community Development shall post a report submitted pursuant to this section on its internet website within a reasonable time of receiving the report.

SEC. 2. Section 65582 of the Government Code is amended to read:

65582. As used in this article, the following definitions apply unless specified otherwise:

(a) "Above moderate income" means income exceeding the moderate-income level described in Section 50093 of the Health and Safety Code.

(b) "Acutely low income" has the same meaning as in Section 50063.5 of the Health and Safety Code.

(c) "All income levels" or "all household income levels" means lower income, moderate income, and above moderate income levels.

(d) "Community," "locality," "local government," or "jurisdiction" means a city, city and county, or county.

(e) "Council of governments" means a single or multicounty council created by a joint powers agreement pursuant to Chapter 5 (commencing with Section 6500) of Division 1 of Title 1.

(f) "Department" means the Department of Housing and Community Development.

(g) "Emergency shelter" has the same meaning as defined in subdivision (e) of Section 50801 of the Health and Safety Code.

(h) "Extremely low income" means the income for households exceeding the income limit for acutely low income households, as defined in this section, and does not exceed the limit for extremely low income households, as defined in Section 50106 of the Health and Safety Code.

(i) "Frequent user coordinated care housing services" means housing combined with other supportive services for homeless persons identified by a city or county as the most costly, frequent users of publicly funded emergency services.

(j) "Housing element" or "element" means the housing element of the community's general plan, as required pursuant to this article and subdivision (c) of Section 65302.

(k) "Low income" means the income for households exceeding the income limit for very low income households, as defined in this section, and does not exceed the income limit for lower income households, as defined in subdivision (a) of Section 50079.5 of the Health and Safety Code.

(l) "Lower income" means income that is low income, very low income, extremely low income, or acutely low income.

(m) "Moderate income" means the income for households exceeding the limit for lower income households, as defined in this section, and does not exceed the income limit for moderate-income households, as defined in Section 50093 of the Health and Safety Code.

(n) "Supportive housing" means housing with no limit on length of stay, that is occupied by the target population, and that is linked to an onsite or offsite service that assists the supportive housing resident in retaining the housing, improving their health status, and maximizing their ability to live and, when possible, work in the community.

(o) "Supportive services" include, but are not limited to, a combination of subsidized, permanent housing, intensive case management, medical and mental health care, substance abuse treatment, employment services, and benefits advocacy.

(p) "Target population" means persons with low incomes who have one or more disabilities, including mental illness, HIV or AIDS, substance abuse, or other chronic health condition, or individuals eligible for services provided pursuant to the Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code) and may include, among other populations, adults, emancipated minors, families with children, elderly persons, young adults aging out of the foster care system, individuals exiting from institutional settings, veterans, and homeless people.

(q) "Transitional housing" means buildings configured as rental housing developments, but operated under program requirements that require the termination of assistance and recirculating of the assisted unit to another eligible program recipient at a predetermined future point in time that shall be no less than six months from the beginning of the assistance.

(r) "Very low income" means income for households exceeding the income limit for extremely low income households, as defined in this section, and does not exceed the income limit for very low income households, as defined in Section 50105 of the Health and Safety Code.

SEC. 3. Section 65583 of the Government Code is amended to read:

65583. The housing element shall consist of an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, financial resources, and scheduled programs for the preservation, improvement, and development of housing. The housing element shall identify adequate sites for housing, including rental housing, factory-built housing, mobilehomes, and emergency shelters, and shall make adequate provision for the existing and projected needs of all economic segments of the community. The element shall contain all of the following:

(a) An assessment of housing needs and an inventory of resources and constraints relevant to the meeting of these needs. The assessment and inventory shall include all of the following:

(1) An analysis of population and employment trends and documentation of projections and a quantification of the locality's existing and projected housing needs for all income levels. These existing and projected needs shall include the locality's share of the regional housing need in accordance with Section 65584.

(2) An analysis and documentation of household characteristics, including level of payment compared to ability to pay, housing characteristics, including overcrowding, and housing stock condition.

(3) An inventory of land suitable and available for residential development, including vacant sites and sites having realistic and demonstrated potential for redevelopment during the planning period to meet the locality's housing need for a designated income level, and an analysis of the relationship of zoning and public facilities and services to these sites, and an analysis of the relationship of the sites identified in the land inventory to the jurisdiction's duty to affirmatively further fair housing.

(4) (A) The identification of one or more zoning designations that allow residential uses, including mixed uses, where emergency shelters are allowed as a permitted use without a conditional use or other discretionary permit and that are suitable for residential uses. The identified zoning designations shall include sufficient sites meeting the requirements of subparagraph (H) with sufficient capacity, as described in subparagraph (I), to accommodate the need for emergency shelter identified in paragraph (7), except that each local government shall identify a zoning designation or designations that can accommodate at least one year-round emergency shelter. If the local government cannot identify a zoning designation or designations with sufficient capacity, the local government shall include a program to amend its zoning ordinance to meet the requirements of this paragraph within one year of the adoption of the housing element. The local government may identify additional zoning designations where emergency shelters are permitted with a conditional use permit. The local government shall also demonstrate that existing or proposed permit processing, development, and management standards that apply to emergency shelters are objective and encourage and facilitate the development of, or conversion to, emergency shelters.

(B) Emergency shelters shall only be subject to the following written, objective standards:

- (i) The maximum number of beds or persons permitted to be served nightly by the facility.
- (ii) Sufficient parking to accommodate all staff working in the emergency shelter, provided that the standards do not require more parking for emergency shelters than other residential or commercial uses within the same zone.
- (iii) The size and location of exterior and interior onsite waiting and client intake areas.
- (iv) The provision of onsite management.
- (v) The proximity to other emergency shelters, provided that emergency shelters are not required to be more than 300 feet apart.
- (vi) The length of stay.
- (vii) Lighting.
- (viii) Security during hours that the emergency shelter is in operation.

(C) For purposes of this paragraph, "emergency shelter" shall include other interim interventions, including, but not limited to, a navigation center, bridge housing, and respite or recuperative care.

(D) The permit processing, development, and management standards applied under this paragraph shall not be deemed to be discretionary acts within the meaning of the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(E) If a local government has adopted written, objective standards pursuant to subparagraph (B), the local government shall include an analysis of the standards in the analysis of constraints pursuant to paragraph (5).

(F) A local government that can demonstrate, to the satisfaction of the department, the existence of one or more emergency shelters either within its jurisdiction or pursuant to a multijurisdictional agreement that can accommodate that jurisdiction's need and the needs of the other jurisdictions that are a part of the agreement for emergency shelter identified in paragraph (7) may comply with the zoning requirements of subparagraph (A) by identifying a zoning designation where new emergency shelters are allowed with a conditional use permit.

(G) A local government with an existing ordinance or ordinances that comply with this paragraph shall not be required to take additional action to identify zoning designations for emergency shelters. The housing element must only describe how existing ordinances, policies, and standards are consistent with the requirements of this paragraph.

(H) The zoning designation or designations where emergency shelters are allowed, as described in subparagraph (A), shall include sites that meet at least one of the following standards:

- (i) Vacant sites zoned for residential use.
- (ii) Vacant sites zoned for nonresidential use that allow residential development, if the local government can demonstrate how the sites with this zoning designation that are being used to satisfy the requirements of paragraph (1) are located near amenities and services that serve people experiencing homelessness, which may include health care, transportation, retail, employment, and social services, or that the local government will provide free transportation to services or offer services onsite.
- (iii) Nonvacant sites zoned for residential use or for nonresidential use that allow residential development that are suitable for use as a shelter in the current planning period, or which can be redeveloped for use as a shelter in the

current planning period. A nonvacant site with an existing use shall be presumed to impede emergency shelter development absent an analysis based on substantial evidence that the use is likely to be discontinued during the planning period. The analysis shall consider current market demand for the current uses, market conditions, and incentives or standards to encourage shelter development.

(I) The zoning designation or designations shall have sufficient sites meeting the requirements of subparagraph (H) to accommodate the need for shelters identified pursuant to paragraph (7). The number of people experiencing homelessness that can be accommodated on any site shall be demonstrated by dividing the square footage of the site by a minimum of 200 square feet per person, unless the locality can demonstrate that one or more shelters were developed on sites that have fewer square feet per person during the prior planning period or the locality provides similar evidence to the department demonstrating that the site can accommodate more people experiencing homelessness. Any standard applied pursuant to this subparagraph is intended only for calculating site capacity pursuant to this section, and shall not be construed as establishing a development standard applicable to the siting, development, or approval of a shelter.

(J) Notwithstanding subparagraph (H), a local government may accommodate the need for emergency shelters identified pursuant to paragraph (7) on sites owned by the local government if it demonstrates with substantial evidence that the sites will be made available for emergency shelter during the planning period, they are suitable for residential use, and the sites are located near amenities and services that serve people experiencing homelessness, which may include health care, transportation, retail, employment, and social services, or that the local government will provide free transportation to services or offer services onsite.

(5) An analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the types of housing identified in paragraph (1) of subdivision (c), and for persons with disabilities as identified in the analysis pursuant to paragraph (7), including land use controls, building codes and their enforcement, site improvements, fees, and other exactions required of developers, local processing and permit procedures, historic preservation practices and policies and an assessment of how existing and proposed historic designations affect the locality's ability to meet its share of the housing need pursuant to paragraph (1), and any locally adopted ordinances that directly impact the cost and supply of residential development. The analysis shall also demonstrate local efforts to remove governmental constraints that hinder the locality from meeting its share of the regional housing need in accordance with Section 65584 and from meeting the need for housing for persons with disabilities, supportive housing, transitional housing, and emergency shelters identified pursuant to paragraph (7).

(6) An analysis of potential and actual nongovernmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the availability of financing, the price of land, the cost of construction, the requests to develop housing at densities below those anticipated in the analysis required by subdivision (c) of Section 65583.2, and the length of time between receiving approval for a housing development and submittal of an application for building permits for that housing development that hinder the construction of a locality's share of the regional housing need in accordance with Section 65584. The analysis shall also demonstrate local efforts to remove nongovernmental constraints that create a gap between the locality's planning for the development of housing for all income levels and the construction of that housing.

(7) (A) An analysis of any special housing needs, such as those of the elderly; persons with disabilities, including a developmental disability, as defined in Section 4512 of the Welfare and Institutions Code; extremely low income households; large families; farmworkers; families with female heads of households; and families and persons in need of emergency shelter. The need for emergency shelter shall be assessed based on the capacity necessary to accommodate the most recent homeless point-in-time count conducted before the start of the planning period, the need for emergency shelter based on number of beds available on a year-round and seasonal basis, the number of shelter beds that go unused on an average monthly basis within a one-year period, and the percentage of those in emergency shelters that move to permanent housing solutions. The need for emergency shelter may be reduced by the number of supportive housing units that are identified in an adopted 10-year plan to end chronic homelessness and that are either vacant or for which funding has been identified to allow construction during the planning period. An analysis of special housing needs by a city or county may include an analysis of the need for frequent user coordinated care housing services.

(B) For the seventh and subsequent revisions of the housing element, the analysis required in subparagraph (A) shall also include an analysis of the housing needs of acutely and extremely low income households.

(8) An analysis of opportunities for energy conservation with respect to residential development. Cities and counties are encouraged to include weatherization and energy efficiency improvements as part of publicly subsidized housing rehabilitation projects. This may include energy efficiency measures that encompass the building envelope, its heating and cooling systems, and its electrical system.

(9) An analysis of existing assisted housing developments that are eligible to change from low-income housing uses during the next 10 years due to termination of subsidy contracts, mortgage prepayment, or expiration of restrictions on use. "Assisted

housing developments," for the purpose of this section, shall mean multifamily rental housing that receives governmental assistance under federal programs listed in subdivision (a) of Section 65863.10, state and local multifamily revenue bond programs, local redevelopment programs, the federal Community Development Block Grant Program, or local in-lieu fees. "Assisted housing developments" shall also include multifamily rental units that were developed pursuant to a local inclusionary housing program or used to qualify for a density bonus pursuant to Section 65916.

(A) The analysis shall include a listing of each development by project name and address, the type of governmental assistance received, the earliest possible date of change from low-income use, and the total number of elderly and nonelderly units that could be lost from the locality's low-income housing stock in each year during the 10-year period. For purposes of state and federally funded projects, the analysis required by this subparagraph need only contain information available on a statewide basis.

(B) The analysis shall estimate the total cost of producing new rental housing that is comparable in size and rent levels, to replace the units that could change from low-income use, and an estimated cost of preserving the assisted housing developments. This cost analysis for replacement housing may be done aggregately for each five-year period and does not have to contain a project-by-project cost estimate.

(C) The analysis shall identify public and private nonprofit corporations known to the local government that have legal and managerial capacity to acquire and manage these housing developments.

(D) The analysis shall identify and consider the use of all federal, state, and local financing and subsidy programs that can be used to preserve, for lower income households, the assisted housing developments, identified in this paragraph, including, but not limited to, federal Community Development Block Grant Program funds, tax increment funds received by a redevelopment agency of the community, and administrative fees received by a housing authority operating within the community. In considering the use of these financing and subsidy programs, the analysis shall identify the amounts of funds under each available program that have not been legally obligated for other purposes and that could be available for use in preserving assisted housing developments.

(b) (1) A statement of the community's goals, quantified objectives, and policies relative to affirmatively furthering fair housing and to the maintenance, preservation, improvement, and development of housing.

(2) It is recognized that the total housing needs identified pursuant to subdivision (a) may exceed available resources and the community's ability to satisfy this need within the content of the general plan requirements outlined in Article 5 (commencing with Section 65300). Under these circumstances, the quantified objectives need not be identical to the total housing needs. The quantified objectives shall establish the maximum number of housing units by income category that can be constructed, rehabilitated, and conserved over a five-year time period.

(c) A program that sets forth a schedule of actions during the planning period, each with a timeline for implementation, that may recognize that certain programs are ongoing, such that there will be beneficial impacts of the programs within the planning period, that the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the housing element through the administration of land use and development controls, the provision of regulatory concessions and incentives, the utilization of appropriate federal and state financing and subsidy programs when available, and the utilization of moneys in a low- and moderate-income housing fund of an agency if the locality has established a redevelopment project area pursuant to the Community Redevelopment Law (Division 24 (commencing with Section 33000) of the Health and Safety Code). In order to make adequate provision for the housing needs of all economic segments of the community, the program shall do all of the following:

(1) Identify actions that will be taken to make sites available during the planning period with appropriate zoning and development standards and with services and facilities to accommodate that portion of the city's or county's share of the regional housing need for all income levels that could not be accommodated on sites identified in the inventory completed pursuant to paragraph (3) of subdivision (a) without rezoning, and to comply with the requirements of Section 65584.09. Sites shall be identified as needed to affirmatively further fair housing and to facilitate and encourage the development of a variety of types of housing for all income levels, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing.

(A) Where the inventory of sites, pursuant to paragraph (3) of subdivision (a), does not identify adequate sites to accommodate the need for groups of all household income levels pursuant to Section 65584, rezoning of those sites in a jurisdiction with an eight-year housing element planning period pursuant to Section 65588, including adoption of minimum density and development standards or, for a jurisdiction in the coastal zone, any necessary local coastal program amendments related to land use designations, changes in intensity of land use, zoning ordinances, or zoning district maps, consistent with Sections 30512, 30512.2, 30513, and 30514 of the Public Resources Code, shall be completed no later than three years after either the date the housing element is adopted pursuant to subdivision (f) of Section 65585 or the date that

is 90 days after receipt of comments from the department pursuant to subdivision (b) of Section 65585, whichever is earlier, unless the deadline is extended pursuant to subdivision (f). Notwithstanding the foregoing, for a local government that fails to adopt a housing element that the department has found to be in substantial compliance with this article within 120 days of the statutory deadline in Section 65588 for adoption of the housing element, rezoning of those sites, including adoption of minimum density and development standards or, for a jurisdiction in the coastal zone, any necessary local coastal program amendments related to land use designations, changes in intensity of land use, zoning ordinances, or zoning district maps, consistent with Sections 30512, 30512.2, 30513, and 30514 of the Public Resources Code, shall be completed no later than one year from the statutory deadline in Section 65588 for adoption of the housing element.

(B) Where the inventory of sites, pursuant to paragraph (3) of subdivision (a), does not identify adequate sites to accommodate the need for groups of all household income levels pursuant to Section 65584, the program shall identify sites that can be developed for housing within the planning period pursuant to subdivision (h) of Section 65583.2. The identification of sites shall include all components specified in Section 65583.2.

(C) Where the inventory of sites pursuant to paragraph (3) of subdivision (a) does not identify adequate sites to accommodate the need for farmworker housing, the program shall provide for sufficient sites to meet the need with zoning that permits farmworker housing use by right, including density and development standards that could accommodate and facilitate the feasibility of the development of farmworker housing for low- and very low income households.

(2) (A) Assist in the development of adequate housing to meet the needs of extremely low, very low, low-, and moderate-income households.

(B) For the seventh and subsequent revisions of the housing element, the program shall also assist in the development of adequate housing to meet the needs of acutely low income households.

(3) Address and, where appropriate and legally possible, remove governmental and nongovernmental constraints to the maintenance, improvement, and development of housing, including housing for all income levels and housing for persons with disabilities. The program shall remove constraints to, and provide reasonable accommodations for housing designed for, intended for occupancy by, or with supportive services for, persons with disabilities. Transitional housing and supportive housing shall be considered a residential use of property and shall be subject only to those restrictions that apply to other residential dwellings of the same type in the same zone. Supportive housing, as defined in Section 65650, shall be a use by right in all zones where multifamily and mixed uses are permitted, as provided in Article 11 (commencing with Section 65650).

(4) Conserve and improve the condition of the existing affordable housing stock, which may include addressing ways to mitigate the loss of dwelling units demolished by public or private action.

(5) Promote and affirmatively further fair housing opportunities and promote housing throughout the community or communities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability, and other characteristics protected by the California Fair Employment and Housing Act (Part 2.8 (commencing with Section 12900) of Division 3 of Title 2), Section 65008, and any other state and federal fair housing and planning law.

(6) Preserve for lower income households the assisted housing developments identified pursuant to paragraph (9) of subdivision (a). The program for preservation of the assisted housing developments shall utilize, to the extent necessary, all available federal, state, and local financing and subsidy programs identified in paragraph (9) of subdivision (a), except where a community has other urgent needs for which alternative funding sources are not available. The program may include strategies that involve local regulation and technical assistance.

(7) Develop a plan that incentivizes and promotes the creation of accessory dwelling units that can be offered at affordable rent, as defined in Section 50053 of the Health and Safety Code, for very low, low-, or moderate-income households. For purposes of this paragraph, "accessory dwelling units" has the same meaning as "accessory dwelling unit" as defined in subdivision (a) of Section 66313.

(8) Include an identification of the agencies and officials responsible for the implementation of the various actions and the means by which consistency will be achieved with other general plan elements and community goals.

(9) Include a diligent effort by the local government to achieve public participation of all economic segments of the community in the development of the housing element, and the program shall describe this effort.

(10) (A) Affirmatively further fair housing in accordance with Chapter 15 (commencing with Section 8899.50) of Division 1 of Title 2. The program shall include an assessment of fair housing in the jurisdiction that shall include all of the following components:

(i) A summary of fair housing issues in the jurisdiction and an assessment of the jurisdiction's fair housing enforcement and fair housing outreach capacity.

(ii) An analysis of available federal, state, and local data and knowledge to identify integration and segregation patterns and trends, racially or ethnically concentrated areas of poverty and affluence, disparities in access to opportunity, and disproportionate housing needs, including displacement risk. The analysis shall identify and examine such patterns, trends, areas, disparities, and needs, both within the jurisdiction and comparing the jurisdiction to the region in which it is located, based on race and other characteristics protected by the California Fair Employment and Housing Act (Part 2.8 (commencing with Section 12900) of Division 3 of Title 2) and Section 65008.

(iii) An assessment of the contributing factors, including the local and regional historical origins and current policies and practices, for the fair housing issues identified under clauses (i) and (ii).

(iv) An identification of the jurisdiction's fair housing priorities and goals, giving highest priority to those factors identified in clause (iii) that limit or deny fair housing choice or access to opportunity, or negatively impact fair housing or civil rights compliance, and identifying the metrics and milestones for determining what fair housing results will be achieved.

(v) Strategies and actions to implement those priorities and goals, which may include, but are not limited to, enhancing mobility strategies and encouraging development of new affordable housing in areas of opportunity, as well as place-based strategies to encourage community revitalization, including preservation of existing affordable housing, and protecting existing residents from displacement.

(B) A jurisdiction that completes or revises an assessment of fair housing pursuant to Subpart A (commencing with Section 5.150) of Part 5 of Subtitle A of Title 24 of the Code of Federal Regulations, as published in Volume 80 of the Federal Register, Number 136, page 42272, dated July 16, 2015, or an analysis of impediments to fair housing choice in accordance with the requirements of Section 91.225 of Title 24 of the Code of Federal Regulations in effect before August 17, 2015, may incorporate relevant portions of that assessment or revised assessment of fair housing or analysis or revised analysis of impediments to fair housing into its housing element.

(C) The requirements of this paragraph shall apply to housing elements due to be revised pursuant to Section 65588 on or after January 1, 2021.

(d) (1) A local government may satisfy all or part of its requirement to identify a zone or zones suitable for the development of emergency shelters pursuant to paragraph (4) of subdivision (a) by adopting and implementing a multijurisdictional agreement, with a maximum of two other adjacent communities, that requires the participating jurisdictions to develop at least one year-round emergency shelter within two years of the beginning of the planning period.

(2) The agreement shall allocate a portion of the new shelter capacity to each jurisdiction as credit toward its emergency shelter need, and each jurisdiction shall describe how the capacity was allocated as part of its housing element.

(3) Each member jurisdiction of a multijurisdictional agreement shall describe in its housing element all of the following:

(A) How the joint facility will meet the jurisdiction's emergency shelter need.

(B) The jurisdiction's contribution to the facility for both the development and ongoing operation and management of the facility.

(C) The amount and source of the funding that the jurisdiction contributes to the facility.

(4) The aggregate capacity claimed by the participating jurisdictions in their housing elements shall not exceed the actual capacity of the shelter.

(e) Except as otherwise provided in this article, amendments to this article that alter the required content of a housing element shall apply to both of the following:

(1) A housing element or housing element amendment prepared pursuant to subdivision (e) of Section 65588 or Section 65584.02, when a city, county, or city and county submits a draft to the department for review pursuant to Section 65585 more than 90 days after the effective date of the amendment to this section.

(2) Any housing element or housing element amendment prepared pursuant to subdivision (e) of Section 65588 or Section 65584.02, when the city, county, or city and county fails to submit the first draft to the department before the due date specified in Section 65588 or 65584.02.

(f) The deadline for completing required rezoning pursuant to subparagraph (A) of paragraph (1) of subdivision (c) shall be extended by one year if the local government has completed the rezoning at densities sufficient to accommodate at least 75

percent of the units for lower income households and if the legislative body at the conclusion of a public hearing determines, based upon substantial evidence, that any of the following circumstances exists:

- (1) The local government has been unable to complete the rezoning because of the action or inaction beyond the control of the local government of any other state, federal, or local agency.
- (2) The local government is unable to complete the rezoning because of infrastructure deficiencies due to fiscal or regulatory constraints.
- (3) The local government must undertake a major revision to its general plan in order to accommodate the housing-related policies of a sustainable communities strategy or an alternative planning strategy adopted pursuant to Section 65080.

The resolution and the findings shall be transmitted to the department together with a detailed budget and schedule for preparation and adoption of the required rezonings, including plans for citizen participation and expected interim action. The schedule shall provide for adoption of the required rezoning within one year of the adoption of the resolution.

(g) (1) If a local government fails to complete the rezoning by the deadline provided in subparagraph (A) of paragraph (1) of subdivision (c), as it may be extended pursuant to subdivision (f), except as provided in paragraph (2), a local government may not disapprove a housing development project, nor require a conditional use permit, planned unit development permit, or other locally imposed discretionary permit, or impose a condition that would render the project infeasible, if the housing development project, (A) is proposed to be located on a site required to be rezoned pursuant to the program action required by that subparagraph and, (B) complies with applicable, objective general plan and zoning standards and criteria, including design review standards, described in the program action required by that subparagraph. Any subdivision of sites shall be subject to the Subdivision Map Act (Division 2 (commencing with Section 66410)). Design review shall not constitute a "project" for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code.

(2) A local government may disapprove a housing development described in paragraph (1) if it makes written findings supported by substantial evidence on the record that both of the following conditions exist:

(A) The housing development project would have a specific, adverse impact upon the public health or safety unless the project is disapproved or approved upon the condition that the project be developed at a lower density. As used in this paragraph, a "specific, adverse impact" means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

(B) There is no feasible method to satisfactorily mitigate or avoid the adverse impact identified pursuant to paragraph (1), other than the disapproval of the housing development project or the approval of the project upon the condition that it be developed at a lower density.

(3) The applicant or any interested person may bring an action to enforce this subdivision. If a court finds that the local agency disapproved a project or conditioned its approval in violation of this subdivision, the court shall issue an order or judgment compelling compliance within 60 days. The court shall retain jurisdiction to ensure that its order or judgment is carried out. If the court determines that its order or judgment has not been carried out within 60 days, the court may issue further orders to ensure that the purposes and policies of this subdivision are fulfilled. In any such action, the city, county, or city and county shall bear the burden of proof.

(4) For purposes of this subdivision, "housing development project" means a project to construct residential units for which the project developer provides sufficient legal commitments to the appropriate local agency to ensure the continued availability and use of at least 49 percent of the housing units for very low, low-, and moderate-income households with an affordable housing cost or affordable rent, as defined in Section 50052.5 or 50053 of the Health and Safety Code, respectively, for the period required by the applicable financing.

(h) An action to enforce the program actions of the housing element shall be brought pursuant to Section 1085 of the Code of Civil Procedure.

(i) Notwithstanding any other law, the otherwise applicable timeframe set forth in paragraph (2) of subdivision (b) and subdivision (d) of Section 21080.3.1 of the Public Resources Code, and paragraph (3) of subdivision (d) of Section 21082.3 of the Public Resources Code, for a Native American tribe to respond to a lead agency and request consultation in writing is extended by 30 days for any housing development project application determined or deemed to be complete on or after March 4, 2020, and prior to December 31, 2021.

(j) On or after January 1, 2024, at the discretion of the department, the analysis of government constraints pursuant to paragraph (5) of subdivision (a) may include an analysis of constraints upon the maintenance, improvement, or development of housing for

persons with a characteristic identified in subdivision (b) of Section 51 of the Civil Code. The implementation of this subdivision is contingent upon an appropriation by the Legislature in the annual Budget Act or another statute for this purpose.

SEC. 3.1. Section 65583 of the Government Code is amended to read:

65583. The housing element shall consist of an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, financial resources, and scheduled programs for the preservation, improvement, and development of housing. The housing element shall identify adequate sites for housing, including rental housing, factory-built housing, mobilehomes, and emergency shelters, and shall make adequate provision for the existing and projected needs of all economic segments of the community. The element shall contain all of the following:

(a) An assessment of housing needs and an inventory of resources and constraints relevant to the meeting of these needs. The assessment and inventory shall include all of the following:

(1) An analysis of population and employment trends and documentation of projections and a quantification of the locality's existing and projected housing needs for all income levels. These existing and projected needs shall include the locality's share of the regional housing need in accordance with Section 65584.

(2) An analysis and documentation of household characteristics, including level of payment compared to ability to pay, housing characteristics, including overcrowding, and housing stock condition.

(3) An inventory of land suitable and available for residential development, including vacant sites and sites having realistic and demonstrated potential for redevelopment during the planning period to meet the locality's housing need for a designated income level, and an analysis of the relationship of zoning and public facilities and services to these sites, and an analysis of the relationship of the sites identified in the land inventory to the jurisdiction's duty to affirmatively further fair housing.

(4) (A) The identification of one or more zoning designations that allow residential uses, including mixed uses, where emergency shelters are allowed as a permitted use without a conditional use or other discretionary permit and that are suitable for residential uses. The identified zoning designations shall include sufficient sites meeting the requirements of subparagraph (H) with sufficient capacity, as described in subparagraph (I), to accommodate the need for emergency shelter identified in paragraph (7), except that each local government shall identify a zoning designation or designations that can accommodate at least one year-round emergency shelter. If the local government cannot identify a zoning designation or designations with sufficient capacity, the local government shall include a program to amend its zoning ordinance to meet the requirements of this paragraph within one year of the adoption of the housing element. The local government may identify additional zoning designations where emergency shelters are permitted with a conditional use permit. The local government shall also demonstrate that existing or proposed permit processing, development, and management standards that apply to emergency shelters are objective and encourage and facilitate the development of, or conversion to, emergency shelters.

(B) Emergency shelters shall only be subject to the following written, objective standards:

(i) The maximum number of beds or persons permitted to be served nightly by the facility.

(ii) Sufficient parking to accommodate all staff working in the emergency shelter, provided that the standards do not require more parking for emergency shelters than other residential or commercial uses within the same zone.

(iii) The size and location of exterior and interior onsite waiting and client intake areas.

(iv) The provision of onsite management.

(v) The proximity to other emergency shelters, provided that emergency shelters are not required to be more than 300 feet apart.

(vi) The length of stay.

(vii) Lighting.

(viii) Security during hours that the emergency shelter is in operation.

(C) For purposes of this paragraph, "emergency shelter" shall include other interim interventions, including, but not limited to, a navigation center, bridge housing, and respite or recuperative care.

(D) The permit processing, development, and management standards applied under this paragraph shall not be deemed to be discretionary acts within the meaning of the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(E) If a local government has adopted written, objective standards pursuant to subparagraph (B), the local government shall include an analysis of the standards in the analysis of constraints pursuant to paragraph (5).

(F) A local government that can demonstrate, to the satisfaction of the department, the existence of one or more emergency shelters either within its jurisdiction or pursuant to a multijurisdictional agreement that can accommodate that jurisdiction's need and the needs of the other jurisdictions that are a part of the agreement for emergency shelter identified in paragraph (7) may comply with the zoning requirements of subparagraph (A) by identifying a zoning designation where new emergency shelters are allowed with a conditional use permit.

(G) A local government with an existing ordinance or ordinances that comply with this paragraph shall not be required to take additional action to identify zoning designations for emergency shelters. The housing element must only describe how existing ordinances, policies, and standards are consistent with the requirements of this paragraph.

(H) The zoning designation or designations where emergency shelters are allowed, as described in subparagraph (A), shall include sites that meet at least one of the following standards:

(i) Vacant sites zoned for residential use.

(ii) Vacant sites zoned for nonresidential use that allow residential development, if the local government can demonstrate how the sites with this zoning designation that are being used to satisfy the requirements of paragraph (1) are located near amenities and services that serve people experiencing homelessness, which may include health care, transportation, retail, employment, and social services, or that the local government will provide free transportation to services or offer services onsite.

(iii) Nonvacant sites zoned for residential use or for nonresidential use that allow residential development that are suitable for use as a shelter in the current planning period, or which can be redeveloped for use as a shelter in the current planning period. A nonvacant site with an existing use shall be presumed to impede emergency shelter development absent an analysis based on substantial evidence that the use is likely to be discontinued during the planning period. The analysis shall consider current market demand for the current uses, market conditions, and incentives or standards to encourage shelter development.

(I) The zoning designation or designations shall have sufficient sites meeting the requirements of subparagraph (H) to accommodate the need for shelters identified pursuant to paragraph (7). The number of people experiencing homelessness that can be accommodated on any site shall be demonstrated by dividing the square footage of the site by a minimum of 200 square feet per person, unless the locality can demonstrate that one or more shelters were developed on sites that have fewer square feet per person during the prior planning period or the locality provides similar evidence to the department demonstrating that the site can accommodate more people experiencing homelessness. Any standard applied pursuant to this subparagraph is intended only for calculating site capacity pursuant to this section, and shall not be construed as establishing a development standard applicable to the siting, development, or approval of a shelter.

(J) Notwithstanding subparagraph (H), a local government may accommodate the need for emergency shelters identified pursuant to paragraph (7) on sites owned by the local government if it demonstrates with substantial evidence that the sites will be made available for emergency shelter during the planning period, they are suitable for residential use, and the sites are located near amenities and services that serve people experiencing homelessness, which may include health care, transportation, retail, employment, and social services, or that the local government will provide free transportation to services or offer services onsite.

(5) An analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the types of housing identified in paragraph (1) of subdivision (c), and for persons with disabilities as identified in the analysis pursuant to paragraph (7), including land use controls, building codes and their enforcement, site improvements, fees, and other exactions required of developers, local processing and permit procedures, historic preservation practices and policies and an assessment of how existing and proposed historic designations affect the locality's ability to meet its share of the housing need pursuant to paragraph (1), and any locally adopted ordinances that directly impact the cost and supply of residential development. The analysis shall also demonstrate local efforts to remove governmental constraints that hinder the locality from meeting its share of the regional housing need in accordance with Section 65584 and from meeting the need for housing for persons with disabilities, supportive housing, transitional housing, and emergency shelters identified pursuant to paragraph (7).

(6) An analysis of potential and actual nongovernmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the availability of financing, the price of land, the cost of construction, the requests to develop housing at densities below those anticipated in the analysis required by subdivision (c) of Section 65583.2, and the length of time between receiving approval for a housing development and submittal of an application for building permits for

that housing development that hinder the construction of a locality's share of the regional housing need in accordance with Section 65584. The analysis shall also demonstrate local efforts to remove nongovernmental constraints that create a gap between the locality's planning for the development of housing for all income levels and the construction of that housing.

(7) (A) An analysis of any special housing needs, such as those of the elderly; persons with disabilities, including a developmental disability, as defined in Section 4512 of the Welfare and Institutions Code; extremely low income households; large families; farmworkers; families with female heads of households; and families and persons in need of emergency shelter. The need for emergency shelter shall be assessed based on the capacity necessary to accommodate the most recent homeless point-in-time count conducted before the start of the planning period, the need for emergency shelter based on number of beds available on a year-round and seasonal basis, the number of shelter beds that go unused on an average monthly basis within a one-year period, and the percentage of those in emergency shelters that move to permanent housing solutions. The need for emergency shelter may be reduced by the number of supportive housing units that are identified in an adopted 10-year plan to end chronic homelessness and that are either vacant or for which funding has been identified to allow construction during the planning period. An analysis of special housing needs by a city or county may include an analysis of the need for frequent user coordinated care housing services.

(B) For the seventh and subsequent revisions of the housing element, the analysis required in subparagraph (A) shall also include an analysis of the housing needs of acutely and extremely low income households.

(8) An analysis of opportunities for energy conservation with respect to residential development. Cities and counties are encouraged to include weatherization and energy efficiency improvements as part of publicly subsidized housing rehabilitation projects. This may include energy efficiency measures that encompass the building envelope, its heating and cooling systems, and its electrical system.

(9) An analysis of existing assisted housing developments that are eligible to change from low-income housing uses during the next 10 years due to termination of subsidy contracts, mortgage prepayment, or expiration of restrictions on use. "Assisted housing developments," for the purpose of this section, shall mean multifamily rental housing that receives governmental assistance under federal programs listed in subdivision (a) of Section 65863.10, state and local multifamily revenue bond programs, local redevelopment programs, the federal Community Development Block Grant Program, or local in-lieu fees. "Assisted housing developments" shall also include multifamily rental units that were developed pursuant to a local inclusionary housing program or used to qualify for a density bonus pursuant to Section 65916.

(A) The analysis shall include a listing of each development by project name and address, the type of governmental assistance received, the earliest possible date of change from low-income use, and the total number of elderly and nonelderly units that could be lost from the locality's low-income housing stock in each year during the 10-year period. For purposes of state and federally funded projects, the analysis required by this subparagraph need only contain information available on a statewide basis.

(B) The analysis shall estimate the total cost of producing new rental housing that is comparable in size and rent levels, to replace the units that could change from low-income use, and an estimated cost of preserving the assisted housing developments. This cost analysis for replacement housing may be done aggregately for each five-year period and does not have to contain a project-by-project cost estimate.

(C) The analysis shall identify public and private nonprofit corporations known to the local government that have legal and managerial capacity to acquire and manage these housing developments.

(D) The analysis shall identify and consider the use of all federal, state, and local financing and subsidy programs that can be used to preserve, for lower income households, the assisted housing developments, identified in this paragraph, including, but not limited to, federal Community Development Block Grant Program funds, tax increment funds received by a redevelopment agency of the community, and administrative fees received by a housing authority operating within the community. In considering the use of these financing and subsidy programs, the analysis shall identify the amounts of funds under each available program that have not been legally obligated for other purposes and that could be available for use in preserving assisted housing developments.

(b) (1) A statement of the community's goals, quantified objectives, and policies relative to affirmatively furthering fair housing and to the maintenance, preservation, improvement, and development of housing.

(2) It is recognized that the total housing needs identified pursuant to subdivision (a) may exceed available resources and the community's ability to satisfy this need within the content of the general plan requirements outlined in Article 5 (commencing with Section 65300). Under these circumstances, the quantified objectives need not be identical to the total housing needs. The quantified objectives shall establish the maximum number of housing units by income category that can be constructed, rehabilitated, and conserved over a five-year time period.

(c) A program that sets forth a schedule of actions during the planning period, each with a timeline for implementation, that may recognize that certain programs are ongoing, such that there will be beneficial impacts of the programs within the planning period, that the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the housing element through the administration of land use and development controls, the provision of regulatory concessions and incentives, the utilization of appropriate federal and state financing and subsidy programs when available, and the utilization of moneys in a low- and moderate-income housing fund of an agency if the locality has established a redevelopment project area pursuant to the Community Redevelopment Law (Division 24 (commencing with Section 33000) of the Health and Safety Code). In order to make adequate provision for the housing needs of all economic segments of the community, the program shall do all of the following:

(1) Identify actions that will be taken to make sites available during the planning period with appropriate zoning and development standards and with services and facilities to accommodate that portion of the city's or county's share of the regional housing need for all income levels that could not be accommodated on sites identified in the inventory completed pursuant to paragraph (3) of subdivision (a) without rezoning, and to comply with the requirements of Section 65584.09. Sites shall be identified as needed to affirmatively further fair housing and to facilitate and encourage the development of a variety of types of housing for all income levels, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing.

(A) Where the inventory of sites, pursuant to paragraph (3) of subdivision (a), does not identify adequate sites to accommodate the need for groups of all household income levels pursuant to Section 65584, a program for rezoning of those sites, subject to the following deadlines:

(i) For the adoption of the sixth revision of the housing element, jurisdictions with an eight-year housing element planning period pursuant to Section 65588, including adoption of minimum density and development standards or, for a jurisdiction in the coastal zone, any necessary local coastal program amendments related to land use designations, changes in intensity of land use, zoning ordinances, or zoning district maps, consistent with Sections 30512, 30512.2, 30513, and 30514 of the Public Resources Code, shall be completed no later than three years after either the date the housing element is adopted pursuant to subdivision (f) of Section 65585 or the date that is 90 days after receipt of comments from the department pursuant to subdivision (b) of Section 65585, whichever is earlier, unless the deadline is extended pursuant to subdivision (f). Notwithstanding the foregoing, for a local government that fails to adopt a housing element that the department has found to be in substantial compliance with this article within 120 days of the statutory deadline in Section 65588 for adoption of the housing element, rezoning of those sites, including adoption of minimum density and development standards or, for a jurisdiction in the coastal zone, any necessary local coastal program amendments related to land use designations, changes in intensity of land use, zoning ordinances, or zoning district maps, consistent with Sections 30512, 30512.2, 30513, and 30514 of the Public Resources Code, shall be completed no later than one year from the statutory deadline in Section 65588 for adoption of the housing element.

(ii) For adoption of the seventh and all subsequent revisions of the housing element, rezonings shall be completed no later than one year from the statutory deadline in Section 65588 for adoption of the housing element.

(iii) Notwithstanding clause (ii), for the adoption of the seventh and all subsequent revisions of the housing element, rezonings shall be completed no later than three years and 90 days after the statutory deadline in Section 65588 for adoption of the housing element, unless the deadline is extended pursuant to subdivision (f). This clause shall apply only if the local government complies with all of the following:

(I) The local government submits a draft element or draft amendment to the department for review pursuant to paragraph (1) of subdivision (b) of Section 65585 at least 90 days before the statutory deadline established in Section 65588 for adoption of the housing element.

(II) The local government receives from the department findings that the draft element or draft amendment substantially complies with this article pursuant to paragraph (3) of subdivision (b) of Section 65585 on or before the statutory deadline set forth in Section 65588 for adoption of the housing element.

(III) The local government adopts the draft element or draft amendment that the department found to substantially comply with this article no later than 120 days after the statutory deadline set forth in Section 65588.

(B) Where the inventory of sites, pursuant to paragraph (3) of subdivision (a), does not identify adequate sites to accommodate the need for groups of all household income levels pursuant to Section 65584, the program shall identify sites that can be developed for housing within the planning period pursuant to subdivision (h) of Section 65583.2. The identification of sites shall include all components specified in Section 65583.2.

(C) Where the inventory of sites pursuant to paragraph (3) of subdivision (a) does not identify adequate sites to accommodate the need for farmworker housing, the program shall provide for sufficient sites to meet the need with zoning that permits farmworker housing use by right, including density and development standards that could accommodate and facilitate the feasibility of the development of farmworker housing for low- and very low income households.

(2) (A) Assist in the development of adequate housing to meet the needs of extremely low, very low, low-, and moderate-income households.

(B) For the seventh and subsequent revisions of the housing element, the program shall also assist in the development of adequate housing to meet the needs of acutely low income households.

(3) Address and, where appropriate and legally possible, remove governmental and nongovernmental constraints to the maintenance, improvement, and development of housing, including housing for all income levels and housing for persons with disabilities. The program shall remove constraints to, and provide reasonable accommodations for housing designed for, intended for occupancy by, or with supportive services for, persons with disabilities. Transitional housing and supportive housing shall be considered a residential use of property and shall be subject only to those restrictions that apply to other residential dwellings of the same type in the same zone. Supportive housing, as defined in Section 65650, shall be a use by right in all zones where multifamily and mixed uses are permitted, as provided in Article 11 (commencing with Section 65650).

(4) Conserve and improve the condition of the existing affordable housing stock, which may include addressing ways to mitigate the loss of dwelling units demolished by public or private action.

(5) Promote and affirmatively further fair housing opportunities and promote housing throughout the community or communities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability, and other characteristics protected by the California Fair Employment and Housing Act (Part 2.8 (commencing with Section 12900) of Division 3 of Title 2), Section 65008, and any other state and federal fair housing and planning law.

(6) Preserve for lower income households the assisted housing developments identified pursuant to paragraph (9) of subdivision (a). The program for preservation of the assisted housing developments shall utilize, to the extent necessary, all available federal, state, and local financing and subsidy programs identified in paragraph (9) of subdivision (a), except where a community has other urgent needs for which alternative funding sources are not available. The program may include strategies that involve local regulation and technical assistance.

(7) Develop a plan that incentivizes and promotes the creation of accessory dwelling units that can be offered at affordable rent, as defined in Section 50053 of the Health and Safety Code, for very low, low-, or moderate-income households. For purposes of this paragraph, "accessory dwelling units" has the same meaning as "accessory dwelling unit" as defined in subdivision (a) of Section 66313.

(8) Include an identification of the agencies and officials responsible for the implementation of the various actions and the means by which consistency will be achieved with other general plan elements and community goals.

(9) Include a diligent effort by the local government to achieve public participation of all economic segments of the community in the development of the housing element, and the program shall describe this effort.

(10) (A) Affirmatively further fair housing in accordance with Chapter 15 (commencing with Section 8899.50) of Division 1 of Title 2. The program shall include an assessment of fair housing in the jurisdiction that shall include all of the following components:

(i) A summary of fair housing issues in the jurisdiction and an assessment of the jurisdiction's fair housing enforcement and fair housing outreach capacity.

(ii) An analysis of available federal, state, and local data and knowledge to identify integration and segregation patterns and trends, racially or ethnically concentrated areas of poverty and affluence, disparities in access to opportunity, and disproportionate housing needs, including displacement risk. The analysis shall identify and examine such patterns, trends, areas, disparities, and needs, both within the jurisdiction and comparing the jurisdiction to the region in which it is located, based on race and other characteristics protected by the California Fair Employment and Housing Act (Part 2.8 (commencing with Section 12900) of Division 3 of Title 2) and Section 65008.

(iii) An assessment of the contributing factors, including the local and regional historical origins and current policies and practices, for the fair housing issues identified under clauses (i) and (ii).

(iv) An identification of the jurisdiction's fair housing priorities and goals, giving highest priority to those factors identified in clause (iii) that limit or deny fair housing choice or access to opportunity, or negatively impact fair housing or civil rights compliance, and identifying the metrics and milestones for determining what fair housing results will be achieved.

(v) Strategies and actions to implement those priorities and goals, which may include, but are not limited to, enhancing mobility strategies and encouraging development of new affordable housing in areas of opportunity, as well as place-based strategies to encourage community revitalization, including preservation of existing affordable housing, and protecting existing residents from displacement.

(B) A jurisdiction that completes or revises an assessment of fair housing pursuant to Subpart A (commencing with Section 5.150) of Part 5 of Subtitle A of Title 24 of the Code of Federal Regulations, as published in Volume 80 of the Federal Register, Number 136, page 42272, dated July 16, 2015, or an analysis of impediments to fair housing choice in accordance with the requirements of Section 91.225 of Title 24 of the Code of Federal Regulations in effect before August 17, 2015, may incorporate relevant portions of that assessment or revised assessment of fair housing or analysis or revised analysis of impediments to fair housing into its housing element.

(C) The requirements of this paragraph shall apply to housing elements due to be revised pursuant to Section 65588 on or after January 1, 2021.

(d) (1) A local government may satisfy all or part of its requirement to identify a zone or zones suitable for the development of emergency shelters pursuant to paragraph (4) of subdivision (a) by adopting and implementing a multijurisdictional agreement, with a maximum of two other adjacent communities, that requires the participating jurisdictions to develop at least one year-round emergency shelter within two years of the beginning of the planning period.

(2) The agreement shall allocate a portion of the new shelter capacity to each jurisdiction as credit toward its emergency shelter need, and each jurisdiction shall describe how the capacity was allocated as part of its housing element.

(3) Each member jurisdiction of a multijurisdictional agreement shall describe in its housing element all of the following:

(A) How the joint facility will meet the jurisdiction's emergency shelter need.

(B) The jurisdiction's contribution to the facility for both the development and ongoing operation and management of the facility.

(C) The amount and source of the funding that the jurisdiction contributes to the facility.

(4) The aggregate capacity claimed by the participating jurisdictions in their housing elements shall not exceed the actual capacity of the shelter.

(e) Except as otherwise provided in this article, amendments to this article that alter the required content of a housing element shall apply to both of the following:

(1) A housing element or housing element amendment prepared pursuant to subdivision (e) of Section 65588 or Section 65584.02, when a city, county, or city and county submits a draft to the department for review pursuant to Section 65585 more than 90 days after the effective date of the amendment to this section.

(2) Any housing element or housing element amendment prepared pursuant to subdivision (e) of Section 65588 or Section 65584.02, when the city, county, or city and county fails to submit the first draft to the department before the due date specified in Section 65588 or 65584.02.

(f) The deadline for completing required rezoning pursuant to subparagraph (A) of paragraph (1) of subdivision (c) shall be extended by one year if the local government has completed the rezoning at densities sufficient to accommodate at least 75 percent of the units for lower income households and if the legislative body at the conclusion of a public hearing determines, based upon substantial evidence, that any of the following circumstances exists:

(1) The local government has been unable to complete the rezoning because of the action or inaction beyond the control of the local government of any other state, federal, or local agency.

(2) The local government is unable to complete the rezoning because of infrastructure deficiencies due to fiscal or regulatory constraints.

(3) The local government must undertake a major revision to its general plan in order to accommodate the housing-related policies of a sustainable communities strategy or an alternative planning strategy adopted pursuant to Section 65080.

The resolution and the findings shall be transmitted to the department together with a detailed budget and schedule for preparation and adoption of the required rezonings, including plans for citizen participation and expected interim action. The schedule shall provide for adoption of the required rezoning within one year of the adoption of the resolution.

(g) (1) If a local government fails to complete the rezoning by the deadline provided in subparagraph (A) of paragraph (1) of subdivision (c), as it may be extended pursuant to subdivision (f), except as provided in paragraph (2), a local government may not disapprove a housing development project, nor require a conditional use permit, planned unit development permit, or other locally imposed discretionary permit, or impose a condition that would render the project infeasible, if the housing development project, (A) is proposed to be located on a site required to be rezoned pursuant to the program action required by that subparagraph and, (B) complies with applicable, objective general plan and zoning standards and criteria, including design review standards, described in the program action required by that subparagraph. Any subdivision of sites shall be subject to the Subdivision Map Act (Division 2 (commencing with Section 66410)). Design review shall not constitute a "project" for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code.

(2) A local government may disapprove a housing development described in paragraph (1) if it makes written findings supported by substantial evidence on the record that both of the following conditions exist:

(A) The housing development project would have a specific, adverse impact upon the public health or safety unless the project is disapproved or approved upon the condition that the project be developed at a lower density. As used in this paragraph, a "specific, adverse impact" means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

(B) There is no feasible method to satisfactorily mitigate or avoid the adverse impact identified pursuant to paragraph (1), other than the disapproval of the housing development project or the approval of the project upon the condition that it be developed at a lower density.

(3) The applicant or any interested person may bring an action to enforce this subdivision. If a court finds that the local agency disapproved a project or conditioned its approval in violation of this subdivision, the court shall issue an order or judgment compelling compliance within 60 days. The court shall retain jurisdiction to ensure that its order or judgment is carried out. If the court determines that its order or judgment has not been carried out within 60 days, the court may issue further orders to ensure that the purposes and policies of this subdivision are fulfilled. In any such action, the city, county, or city and county shall bear the burden of proof.

(4) For purposes of this subdivision, "housing development project" means a project to construct residential units for which the project developer provides sufficient legal commitments to the appropriate local agency to ensure the continued availability and use of at least 49 percent of the housing units for very low, low-, and moderate-income households with an affordable housing cost or affordable rent, as defined in Section 50052.5 or 50053 of the Health and Safety Code, respectively, for the period required by the applicable financing.

(h) An action to enforce the program actions of the housing element shall be brought pursuant to Section 1085 of the Code of Civil Procedure.

(i) Notwithstanding any other law, the otherwise applicable timeframe set forth in paragraph (2) of subdivision (b) and subdivision (d) of Section 21080.3.1 of the Public Resources Code, and paragraph (3) of subdivision (d) of Section 21082.3 of the Public Resources Code, for a Native American tribe to respond to a lead agency and request consultation in writing is extended by 30 days for any housing development project application determined or deemed to be complete on or after March 4, 2020, and prior to December 31, 2021.

(j) On or after January 1, 2024, at the discretion of the department, the analysis of government constraints pursuant to paragraph (5) of subdivision (a) may include an analysis of constraints upon the maintenance, improvement, or development of housing for persons with a characteristic identified in subdivision (b) of Section 51 of the Civil Code. The implementation of this subdivision is contingent upon an appropriation by the Legislature in the annual Budget Act or another statute for this purpose.

SEC. 3.2. Section 65583 of the Government Code is amended to read:

65583. The housing element shall consist of an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, financial resources, and scheduled programs for the preservation, improvement, and development of housing. The housing element shall identify adequate sites for housing, including rental housing, factory-built housing, mobilehomes, and emergency shelters, and shall make adequate provision for the existing and projected needs of all economic segments of the community. The housing element shall contain all of the following:

(a) An assessment of housing needs and an inventory of resources and constraints that are relevant to the meeting of these needs. The assessment and inventory shall include all of the following:

(1) An analysis of population and employment trends and documentation of projections and a quantification of the locality's existing and projected housing needs for all income levels. These existing and projected needs shall include the locality's share

of the regional housing need in accordance with Section 65584.

(2) An analysis and documentation of household characteristics, including level of payment compared to ability to pay, housing characteristics, including overcrowding, and housing stock condition.

(3) An inventory of land suitable and available for residential development, including vacant sites and sites having realistic and demonstrated potential for redevelopment during the planning period to meet the locality's housing need for a designated income level, and an analysis of the relationship of zoning and public facilities and services to these sites, and an analysis of the relationship of the sites identified in the land inventory to the jurisdiction's duty to affirmatively further fair housing.

(4) (A) The identification of one or more zoning designations that allow residential uses, including mixed uses, where emergency shelters are allowed as a permitted use without a conditional use or other discretionary permit and that are suitable for residential uses. The identified zoning designations shall include sufficient sites meeting the requirements of subparagraph (H) with sufficient capacity, as described in subparagraph (I), to accommodate the need for emergency shelter identified in paragraph (7), except that each local government shall identify a zoning designation or designations that can accommodate at least one year-round emergency shelter. If the local government cannot identify a zoning designation or designations with sufficient capacity, the local government shall include a program to amend its zoning ordinance to meet the requirements of this paragraph within one year of the adoption of the housing element. The local government may identify additional zoning designations where emergency shelters are permitted with a conditional use permit. The local government shall also demonstrate that existing or proposed permit processing, development, and management standards that apply to emergency shelters are objective and encourage and facilitate the development of, or conversion to, emergency shelters.

(B) Emergency shelters shall only be subject to the following written, objective standards:

(i) The maximum number of beds or persons permitted to be served nightly by the facility.

(ii) Sufficient parking to accommodate all staff working in the emergency shelter, provided that the standards do not require more parking for emergency shelters than other residential or commercial uses within the same zone.

(iii) The size and location of exterior and interior onsite waiting and client intake areas.

(iv) The provision of onsite management.

(v) The proximity to other emergency shelters, provided that emergency shelters are not required to be more than 300 feet apart.

(vi) The length of stay.

(vii) Lighting.

(viii) Security during hours that the emergency shelter is in operation.

(C) For purposes of this paragraph, "emergency shelter" shall include other interim interventions, including, but not limited to, a navigation center, bridge housing, and respite or recuperative care.

(D) The permit processing, development, and management standards applied under this paragraph shall not be deemed to be discretionary acts within the meaning of the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(E) If a local government has adopted written, objective standards pursuant to subparagraph (B), the local government shall include an analysis of the standards in the analysis of constraints pursuant to paragraph (5).

(F) A local government that can demonstrate, to the satisfaction of the department, the existence of one or more emergency shelters either within its jurisdiction or pursuant to a multijurisdictional agreement that can accommodate that jurisdiction's need and the needs of the other jurisdictions that are a part of the agreement for emergency shelter identified in paragraph (7) may comply with the zoning requirements of subparagraph (A) by identifying a zoning designation where new emergency shelters are allowed with a conditional use permit.

(G) A local government with an existing ordinance or ordinances that comply with this paragraph shall not be required to take additional action to identify zoning designations for emergency shelters. The housing element must only describe how existing ordinances, policies, and standards are consistent with the requirements of this paragraph.

(H) The zoning designation or designations where emergency shelters are allowed, as described in subparagraph (A), shall include sites that meet at least one of the following standards:

(i) Vacant sites zoned for residential use.

(ii) Vacant sites zoned for nonresidential use that allow residential development, if the local government can demonstrate how the sites with this zoning designation that are being used to satisfy the requirements of paragraph (1) are located near amenities and services that serve people experiencing homelessness, which may include health care, transportation, retail, employment, and social services, or that the local government will provide free transportation to services or offer services onsite.

(iii) Nonvacant sites zoned for residential use or for nonresidential use that allow residential development that are suitable for use as a shelter in the current planning period, or which can be redeveloped for use as a shelter in the current planning period. A nonvacant site with an existing use shall be presumed to impede emergency shelter development absent an analysis based on substantial evidence that the use is likely to be discontinued during the planning period. The analysis shall consider current market demand for the current uses, market conditions, and incentives or standards to encourage shelter development.

(I) The zoning designation or designations shall have sufficient sites meeting the requirements of subparagraph (H) to accommodate the need for shelters identified pursuant to paragraph (7). The number of people experiencing homelessness that can be accommodated on any site shall be demonstrated by dividing the square footage of the site by a minimum of 200 square feet per person, unless the locality can demonstrate that one or more shelters were developed on sites that have fewer square feet per person during the prior planning period or the locality provides similar evidence to the department demonstrating that the site can accommodate more people experiencing homelessness. Any standard applied pursuant to this subparagraph is intended only for calculating site capacity pursuant to this section, and shall not be construed as establishing a development standard applicable to the siting, development, or approval of a shelter.

(J) Notwithstanding subparagraph (H), a local government may accommodate the need for emergency shelters identified pursuant to paragraph (7) on sites owned by the local government if it demonstrates with substantial evidence that the sites will be made available for emergency shelter during the planning period, they are suitable for residential use, and the sites are located near amenities and services that serve people experiencing homelessness, which may include health care, transportation, retail, employment, and social services, or that the local government will provide free transportation to services or offer services onsite.

(5) An analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the types of housing identified in paragraph (1) of subdivision (c), and for persons with disabilities as identified in the analysis pursuant to paragraph (7), including land use controls, building codes and their enforcement, site improvements, fees, and other exactions required of developers, local processing and permit procedures, historic preservation practices and policies and an assessment of how existing and proposed historic designations affect the locality's ability to meet its share of the housing need pursuant to paragraph (1), and any locally adopted ordinances that directly impact the cost and supply of residential development. The analysis shall also demonstrate local efforts to remove governmental constraints that hinder the locality from meeting its share of the regional housing need in accordance with Section 65584 and from meeting the need for housing for persons with disabilities, supportive housing, transitional housing, and emergency shelters identified pursuant to paragraph (7).

(6) An analysis of potential and actual nongovernmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the availability of financing, the price of land, the cost of construction, the requests to develop housing at densities below those anticipated in the analysis required by subdivision (c) of Section 65583.2, and the length of time between receiving approval for a housing development and submittal of an application for building permits for that housing development that hinder the construction of a locality's share of the regional housing need in accordance with Section 65584. The analysis shall also demonstrate local efforts to remove nongovernmental constraints that create a gap between the locality's planning for the development of housing for all income levels and the construction of that housing.

(7) (A) An analysis of any special housing needs, such as those of the elderly; persons with disabilities, including a developmental disability, as defined in Section 4512 of the Welfare and Institutions Code; extremely low income households; large families; farmworkers; families with female heads of households; and families and persons in need of emergency shelter. The need for emergency shelter shall be assessed based on the capacity necessary to accommodate the most recent homeless point-in-time count conducted before the start of the planning period, the need for emergency shelter based on number of beds available on a year-round and seasonal basis, the number of shelter beds that go unused on an average monthly basis within a one-year period, and the percentage of those in emergency shelters that move to permanent housing solutions. The need for emergency shelter may be reduced by the number of supportive housing units that are identified in an adopted 10-year plan to end chronic homelessness and that are either vacant or for which funding has been identified to allow construction during the planning period. An analysis of special housing needs by a city or county may include an analysis of the need for frequent user coordinated care housing services.

(B) For the seventh and subsequent revisions of the housing element, the analysis required in subparagraph (A) shall also include an analysis of the housing needs of acutely and extremely low income households.

(8) An analysis of opportunities for energy conservation with respect to residential development. Cities and counties are encouraged to include weatherization and energy efficiency improvements as part of publicly subsidized housing rehabilitation projects. This may include energy efficiency measures that encompass the building envelope, its heating and cooling systems, and its electrical system.

(9) An analysis of existing assisted housing developments that are eligible to change from low-income housing uses during the next 10 years due to termination of subsidy contracts, mortgage prepayment, or expiration of restrictions on use. "Assisted housing developments," for the purpose of this section, shall mean multifamily rental housing that receives governmental assistance under federal programs listed in subdivision (a) of Section 65863.10, state and local multifamily revenue bond programs, local redevelopment programs, the federal Community Development Block Grant Program, or local in-lieu fees. "Assisted housing developments" shall also include multifamily rental units that were developed pursuant to a local inclusionary housing program or used to qualify for a density bonus pursuant to Section 65916.

(A) The analysis shall include a listing of each development by project name and address, the type of governmental assistance received, the earliest possible date of change from low-income use, and the total number of elderly and nonelderly units that could be lost from the locality's low-income housing stock in each year during the 10-year period. For purposes of state and federally funded projects, the analysis required by this subparagraph need only contain information available on a statewide basis.

(B) The analysis shall estimate the total cost of producing new rental housing that is comparable in size and rent levels, to replace the units that could change from low-income use, and an estimated cost of preserving the assisted housing developments. This cost analysis for replacement housing may be done aggregately for each five-year period and does not have to contain a project-by-project cost estimate.

(C) The analysis shall identify public and private nonprofit corporations known to the local government that have legal and managerial capacity to acquire and manage these housing developments.

(D) The analysis shall identify and consider the use of all federal, state, and local financing and subsidy programs that can be used to preserve, for lower income households, the assisted housing developments, identified in this paragraph, including, but not limited to, federal Community Development Block Grant Program funds, tax increment funds received by a redevelopment agency of the community, and administrative fees received by a housing authority operating within the community. In considering the use of these financing and subsidy programs, the analysis shall identify the amounts of funds under each available program that have not been legally obligated for other purposes and that could be available for use in preserving assisted housing developments.

(b) (1) A statement of the community's goals, quantified objectives, and policies relative to affirmatively furthering fair housing and to the maintenance, preservation, improvement, and development of housing.

(2) It is recognized that the total housing needs identified pursuant to subdivision (a) may exceed available resources and the community's ability to satisfy this need within the content of the general plan requirements outlined in Article 5 (commencing with Section 65300). Under these circumstances, the quantified objectives need not be identical to the total housing needs. The quantified objectives shall establish the maximum number of housing units by income category that can be constructed, rehabilitated, and conserved over a five-year time period.

(c) A program that sets forth a schedule of actions during the planning period, each with a timeline for implementation, that may recognize that certain programs are ongoing, such that there will be beneficial impacts of the programs within the planning period, that the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the housing element through the administration of land use and development controls, the provision of regulatory concessions and incentives, the utilization of appropriate federal and state financing and subsidy programs when available, and the utilization of moneys in a low- and moderate-income housing fund of an agency if the locality has established a redevelopment project area pursuant to the Community Redevelopment Law (Division 24 (commencing with Section 33000) of the Health and Safety Code). In order to make adequate provision for the housing needs of all economic segments of the community, the program shall do all of the following:

(1) Identify actions that will be taken to make sites available during the planning period with appropriate zoning and development standards and with services and facilities to accommodate that portion of the city's or county's share of the regional housing need for all income levels that could not be accommodated on sites identified in the inventory completed pursuant to paragraph (3) of subdivision (a) without rezoning, and to comply with the requirements of Section 65584.09. Sites shall be identified as needed to affirmatively further fair housing and to facilitate and encourage the development of a variety of

types of housing for all income levels, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing.

(A) Where the inventory of sites, pursuant to paragraph (3) of subdivision (a), does not identify adequate sites to accommodate the need for groups of all household income levels pursuant to Section 65584, rezoning of those sites in a jurisdiction with an eight-year housing element planning period pursuant to Section 65588, including adoption of minimum density and development standards or, for a jurisdiction in the coastal zone, any necessary local coastal program amendments related to land use designations, changes in intensity of land use, zoning ordinances, or zoning district maps, consistent with Sections 30512, 30512.2, 30513, and 30514 of the Public Resources Code, shall be completed no later than three years after either the date the housing element is adopted pursuant to subdivision (f) of Section 65585 or the date that is 90 days after receipt of comments from the department pursuant to subdivision (b) of Section 65585, whichever is earlier, unless the deadline is extended pursuant to subdivision (f). Notwithstanding the foregoing, for a local government that fails to adopt a housing element that the department has found to be in substantial compliance with this article within 120 days of the statutory deadline in Section 65588 for adoption of the housing element, rezoning of those sites, including adoption of minimum density and development standards or, for a jurisdiction in the coastal zone, any necessary local coastal program amendments related to land use designations, changes in intensity of land use, zoning ordinances, or zoning district maps, consistent with Sections 30512, 30512.2, 30513, and 30514 of the Public Resources Code, shall be completed no later than one year from the statutory deadline in Section 65588 for adoption of the housing element.

(B) Where the inventory of sites, pursuant to paragraph (3) of subdivision (a), does not identify adequate sites to accommodate the need for groups of all household income levels pursuant to Section 65584, the program shall identify sites that can be developed for housing within the planning period pursuant to subdivision (h) of Section 65583.2. The identification of sites shall include all components specified in Section 65583.2.

(C) Where the inventory of sites pursuant to paragraph (3) of subdivision (a) does not identify adequate sites to accommodate the need for farmworker housing, the program shall provide for sufficient sites to meet the need with zoning that permits farmworker housing use by right, including density and development standards that could accommodate and facilitate the feasibility of the development of farmworker housing for low- and very low income households.

(2) (A) Assist in the development of adequate housing to meet the needs of extremely low, very low, low-, and moderate-income households.

(B) For the seventh and subsequent revisions of the housing element, the program shall also assist in the development of adequate housing to meet the needs of acutely low income households.

(3) Address and, where appropriate and legally possible, remove governmental and nongovernmental constraints to the maintenance, improvement, and development of housing, including housing for all income levels and housing for persons with disabilities. The program shall remove constraints to, and provide reasonable accommodations for housing designed for, intended for occupancy by, or with supportive services for, persons with disabilities. Transitional housing and supportive housing shall be considered a residential use of property and shall be subject only to those restrictions that apply to other residential dwellings of the same type in the same zone. Supportive housing, as defined in Section 65650, shall be a use by right in all zones where multifamily and mixed uses are permitted, as provided in Article 11 (commencing with Section 65650).

(4) Conserve and improve the condition of the existing affordable housing stock, which may include addressing ways to mitigate the loss of dwelling units demolished by public or private action.

(5) Promote and affirmatively further fair housing opportunities and promote housing throughout the community or communities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability, and other characteristics protected by the California Fair Employment and Housing Act (Part 2.8 (commencing with Section 12900) of Division 3 of Title 2), Section 65008, and any other state and federal fair housing and planning law.

(6) Preserve for lower income households the assisted housing developments identified pursuant to paragraph (9) of subdivision (a). The program for preservation of the assisted housing developments shall utilize, to the extent necessary, all available federal, state, and local financing and subsidy programs identified in paragraph (9) of subdivision (a), except where a community has other urgent needs for which alternative funding sources are not available. The program may include strategies that involve local regulation and technical assistance.

(7) Develop a plan that incentivizes and promotes the creation of accessory dwelling units that can be offered at affordable rent, as defined in Section 50053 of the Health and Safety Code, for very low, low-, or moderate-income households. For purposes of this paragraph, "accessory dwelling units" has the same meaning as "accessory dwelling unit" as defined in subdivision (a) of Section 66313.

(8) Include an identification of the agencies and officials responsible for the implementation of the various actions and the means by which consistency will be achieved with other general plan elements and community goals.

(9) Include a diligent effort by the local government to achieve public participation of all economic segments of the community in the development of the housing element, and the program shall describe this effort.

(10) (A) Affirmatively further fair housing in accordance with Chapter 15 (commencing with Section 8899.50) of Division 1 of Title 2. The program shall include an assessment of fair housing in the jurisdiction that shall include all of the following components:

(i) A summary of fair housing issues in the jurisdiction and an assessment of the jurisdiction's fair housing enforcement and fair housing outreach capacity.

(ii) An analysis of available federal, state, and local data and knowledge to identify integration and segregation patterns and trends, racially or ethnically concentrated areas of poverty and affluence, disparities in access to opportunity, and disproportionate housing needs, including displacement risk. The analysis shall identify and examine such patterns, trends, areas, disparities, and needs, both within the jurisdiction and comparing the jurisdiction to the region in which it is located, based on race and other characteristics protected by the California Fair Employment and Housing Act (Part 2.8 (commencing with Section 12900) of Division 3 of Title 2) and Section 65008.

(iii) An assessment of the contributing factors, including the local and regional historical origins and current policies and practices, for the fair housing issues identified under clauses (i) and (ii).

(iv) An identification of the jurisdiction's fair housing priorities and goals, giving highest priority to those factors identified in clause (iii) that limit or deny fair housing choice or access to opportunity, or negatively impact fair housing or civil rights compliance, and identifying the metrics and milestones for determining what fair housing results will be achieved.

(v) Strategies and actions to implement those priorities and goals, which may include, but are not limited to, enhancing mobility strategies and encouraging development of new affordable housing in areas of opportunity, as well as place-based strategies to encourage community revitalization, including preservation of existing affordable housing, and protecting existing residents from displacement.

(B) A jurisdiction that completes or revises an assessment of fair housing pursuant to Subpart A (commencing with Section 5.150) of Part 5 of Subtitle A of Title 24 of the Code of Federal Regulations, as published in Volume 80 of the Federal Register, Number 136, page 42272, dated July 16, 2015, or an analysis of impediments to fair housing choice in accordance with the requirements of Section 91.225 of Title 24 of the Code of Federal Regulations in effect before August 17, 2015, may incorporate relevant portions of that assessment or revised assessment of fair housing or analysis or revised analysis of impediments to fair housing into its housing element.

(C) (i) The requirements of this paragraph shall apply to housing elements due to be revised pursuant to Section 65588 on or after January 1, 2021.

(ii) The assessment required pursuant to this paragraph shall be completed before the planning agency makes its first draft revision of a housing element available for public comment pursuant to subdivision (b) of Section 65585.

(D) (i) The department shall develop a standardized reporting format for programs and actions taken pursuant to this paragraph. The standardized reporting format shall enable the reporting of all of the assessment components listed in subparagraph (A) and, at a minimum, include all of the following fields:

(I) Timelines for implementation.

(II) Responsible party or parties.

(III) Resources committed from the local budget to affirmatively further fair housing.

(IV) Action areas.

(V) Potential impacts of the program.

(ii) A local government shall utilize the standardized report format developed pursuant to this subparagraph for the seventh and each subsequent revision of the housing element.

(d) (1) A local government may satisfy all or part of its requirement to identify a zone or zones suitable for the development of emergency shelters pursuant to paragraph (4) of subdivision (a) by adopting and implementing a multijurisdictional agreement,

with a maximum of two other adjacent communities, that requires the participating jurisdictions to develop at least one year-round emergency shelter within two years of the beginning of the planning period.

(2) The agreement shall allocate a portion of the new shelter capacity to each jurisdiction as credit toward its emergency shelter need, and each jurisdiction shall describe how the capacity was allocated as part of its housing element.

(3) Each member jurisdiction of a multijurisdictional agreement shall describe in its housing element all of the following:

(A) How the joint facility will meet the jurisdiction's emergency shelter need.

(B) The jurisdiction's contribution to the facility for both the development and ongoing operation and management of the facility.

(C) The amount and source of the funding that the jurisdiction contributes to the facility.

(4) The aggregate capacity claimed by the participating jurisdictions in their housing elements shall not exceed the actual capacity of the shelter.

(e) Except as otherwise provided in this article, amendments to this article that alter the required content of a housing element shall apply to both of the following:

(1) A housing element or housing element amendment prepared pursuant to subdivision (e) of Section 65588 or Section 65584.02, when a city, county, or city and county submits a draft to the department for review pursuant to Section 65585 more than 90 days after the effective date of the amendment to this section.

(2) Any housing element or housing element amendment prepared pursuant to subdivision (e) of Section 65588 or Section 65584.02, when the city, county, or city and county fails to submit the first draft to the department before the due date specified in Section 65588 or 65584.02.

(f) The deadline for completing required rezoning pursuant to subparagraph (A) of paragraph (1) of subdivision (c) shall be extended by one year if the local government has completed the rezoning at densities sufficient to accommodate at least 75 percent of the units for lower income households and if the legislative body at the conclusion of a public hearing determines, based upon substantial evidence, that any of the following circumstances exists:

(1) The local government has been unable to complete the rezoning because of the action or inaction beyond the control of the local government of any other state, federal, or local agency.

(2) The local government is unable to complete the rezoning because of infrastructure deficiencies due to fiscal or regulatory constraints.

(3) The local government must undertake a major revision to its general plan in order to accommodate the housing-related policies of a sustainable communities strategy or an alternative planning strategy adopted pursuant to Section 65080.

The resolution and the findings shall be transmitted to the department together with a detailed budget and schedule for preparation and adoption of the required rezonings, including plans for citizen participation and expected interim action. The schedule shall provide for adoption of the required rezoning within one year of the adoption of the resolution.

(g) (1) If a local government fails to complete the rezoning by the deadline provided in subparagraph (A) of paragraph (1) of subdivision (c), as it may be extended pursuant to subdivision (f), except as provided in paragraph (2), a local government may not disapprove a housing development project, nor require a conditional use permit, planned unit development permit, or other locally imposed discretionary permit, or impose a condition that would render the project infeasible, if the housing development project, (A) is proposed to be located on a site required to be rezoned pursuant to the program action required by that subparagraph and, (B) complies with applicable, objective general plan and zoning standards and criteria, including design review standards, described in the program action required by that subparagraph. Any subdivision of sites shall be subject to the Subdivision Map Act (Division 2 (commencing with Section 66410)). Design review shall not constitute a "project" for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code.

(2) A local government may disapprove a housing development described in paragraph (1) if it makes written findings supported by substantial evidence on the record that both of the following conditions exist:

(A) The housing development project would have a specific, adverse impact upon the public health or safety unless the project is disapproved or approved upon the condition that the project be developed at a lower density. As used in this paragraph, a "specific, adverse impact" means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

(B) There is no feasible method to satisfactorily mitigate or avoid the adverse impact identified pursuant to paragraph (1), other than the disapproval of the housing development project or the approval of the project upon the condition that it be developed at a lower density.

(3) The applicant or any interested person may bring an action to enforce this subdivision. If a court finds that the local agency disapproved a project or conditioned its approval in violation of this subdivision, the court shall issue an order or judgment compelling compliance within 60 days. The court shall retain jurisdiction to ensure that its order or judgment is carried out. If the court determines that its order or judgment has not been carried out within 60 days, the court may issue further orders to ensure that the purposes and policies of this subdivision are fulfilled. In any such action, the city, county, or city and county shall bear the burden of proof.

(4) For purposes of this subdivision, "housing development project" means a project to construct residential units for which the project developer provides sufficient legal commitments to the appropriate local agency to ensure the continued availability and use of at least 49 percent of the housing units for very low, low-, and moderate-income households with an affordable housing cost or affordable rent, as defined in Section 50052.5 or 50053 of the Health and Safety Code, respectively, for the period required by the applicable financing.

(h) An action to enforce the program actions of the housing element shall be brought pursuant to Section 1085 of the Code of Civil Procedure.

(i) Notwithstanding any other law, the otherwise applicable timeframe set forth in paragraph (2) of subdivision (b) and subdivision (d) of Section 21080.3.1 of the Public Resources Code, and paragraph (3) of subdivision (d) of Section 21082.3 of the Public Resources Code, for a Native American tribe to respond to a lead agency and request consultation in writing is extended by 30 days for any housing development project application determined or deemed to be complete on or after March 4, 2020, and prior to December 31, 2021.

(j) On or after January 1, 2024, at the discretion of the department, the analysis of government constraints pursuant to paragraph (5) of subdivision (a) may include an analysis of constraints upon the maintenance, improvement, or development of housing for persons with a characteristic identified in subdivision (b) of Section 51 of the Civil Code. The implementation of this subdivision is contingent upon an appropriation by the Legislature in the annual Budget Act or another statute for this purpose.

SEC. 3.3. Section 65583 of the Government Code is amended to read:

65583. The housing element shall consist of an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, financial resources, and scheduled programs for the preservation, improvement, and development of housing. The housing element shall identify adequate sites for housing, including rental housing, factory-built housing, mobilehomes, and emergency shelters, and shall make adequate provision for the existing and projected needs of all economic segments of the community. The housing element shall contain all of the following:

(a) An assessment of housing needs and an inventory of resources and constraints that are relevant to the meeting of these needs. The assessment and inventory shall include all of the following:

(1) An analysis of population and employment trends and documentation of projections and a quantification of the locality's existing and projected housing needs for all income levels. These existing and projected needs shall include the locality's share of the regional housing need in accordance with Section 65584.

(2) An analysis and documentation of household characteristics, including level of payment compared to ability to pay, housing characteristics, including overcrowding, and housing stock condition.

(3) An inventory of land suitable and available for residential development, including vacant sites and sites having realistic and demonstrated potential for redevelopment during the planning period to meet the locality's housing need for a designated income level, and an analysis of the relationship of zoning and public facilities and services to these sites, and an analysis of the relationship of the sites identified in the land inventory to the jurisdiction's duty to affirmatively further fair housing.

(4) (A) The identification of one or more zoning designations that allow residential uses, including mixed uses, where emergency shelters are allowed as a permitted use without a conditional use or other discretionary permit and that are suitable for residential uses. The identified zoning designations shall include sufficient sites meeting the requirements of subparagraph (H) with sufficient capacity, as described in subparagraph (I), to accommodate the need for emergency shelter identified in paragraph (7), except that each local government shall identify a zoning designation or designations that can accommodate at least one year-round emergency shelter. If the local government cannot identify a zoning designation or designations with sufficient capacity, the local government shall include a program to amend its zoning ordinance to meet the requirements of this paragraph within one year of the adoption of the housing element. The local government may identify additional zoning designations where emergency shelters are permitted with a conditional use permit. The local government shall also

demonstrate that existing or proposed permit processing, development, and management standards that apply to emergency shelters are objective and encourage and facilitate the development of, or conversion to, emergency shelters.

(B) Emergency shelters shall only be subject to the following written, objective standards:

- (i) The maximum number of beds or persons permitted to be served nightly by the facility.
- (ii) Sufficient parking to accommodate all staff working in the emergency shelter, provided that the standards do not require more parking for emergency shelters than other residential or commercial uses within the same zone.
- (iii) The size and location of exterior and interior onsite waiting and client intake areas.
- (iv) The provision of onsite management.
- (v) The proximity to other emergency shelters, provided that emergency shelters are not required to be more than 300 feet apart.
- (vi) The length of stay.
- (vii) Lighting.
- (viii) Security during hours that the emergency shelter is in operation.

(C) For purposes of this paragraph, "emergency shelter" shall include other interim interventions, including, but not limited to, a navigation center, bridge housing, and respite or recuperative care.

(D) The permit processing, development, and management standards applied under this paragraph shall not be deemed to be discretionary acts within the meaning of the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(E) If a local government has adopted written, objective standards pursuant to subparagraph (B), the local government shall include an analysis of the standards in the analysis of constraints pursuant to paragraph (5).

(F) A local government that can demonstrate, to the satisfaction of the department, the existence of one or more emergency shelters either within its jurisdiction or pursuant to a multijurisdictional agreement that can accommodate that jurisdiction's need and the needs of the other jurisdictions that are a part of the agreement for emergency shelter identified in paragraph (7) may comply with the zoning requirements of subparagraph (A) by identifying a zoning designation where new emergency shelters are allowed with a conditional use permit.

(G) A local government with an existing ordinance or ordinances that comply with this paragraph shall not be required to take additional action to identify zoning designations for emergency shelters. The housing element must only describe how existing ordinances, policies, and standards are consistent with the requirements of this paragraph.

(H) The zoning designation or designations where emergency shelters are allowed, as described in subparagraph (A), shall include sites that meet at least one of the following standards:

- (i) Vacant sites zoned for residential use.
- (ii) Vacant sites zoned for nonresidential use that allow residential development, if the local government can demonstrate how the sites with this zoning designation that are being used to satisfy the requirements of paragraph (1) are located near amenities and services that serve people experiencing homelessness, which may include health care, transportation, retail, employment, and social services, or that the local government will provide free transportation to services or offer services onsite.
- (iii) Nonvacant sites zoned for residential use or for nonresidential use that allow residential development that are suitable for use as a shelter in the current planning period, or which can be redeveloped for use as a shelter in the current planning period. A nonvacant site with an existing use shall be presumed to impede emergency shelter development absent an analysis based on substantial evidence that the use is likely to be discontinued during the planning period. The analysis shall consider current market demand for the current uses, market conditions, and incentives or standards to encourage shelter development.

(I) The zoning designation or designations shall have sufficient sites meeting the requirements of subparagraph (H) to accommodate the need for shelters identified pursuant to paragraph (7). The number of people experiencing homelessness that can be accommodated on any site shall be demonstrated by dividing the square footage of the site by a minimum of 200 square feet per person, unless the locality can demonstrate that one or more shelters were developed on sites that

have fewer square feet per person during the prior planning period or the locality provides similar evidence to the department demonstrating that the site can accommodate more people experiencing homelessness. Any standard applied pursuant to this subparagraph is intended only for calculating site capacity pursuant to this section, and shall not be construed as establishing a development standard applicable to the siting, development, or approval of a shelter.

(J) Notwithstanding subparagraph (H), a local government may accommodate the need for emergency shelters identified pursuant to paragraph (7) on sites owned by the local government if it demonstrates with substantial evidence that the sites will be made available for emergency shelter during the planning period, they are suitable for residential use, and the sites are located near amenities and services that serve people experiencing homelessness, which may include health care, transportation, retail, employment, and social services, or that the local government will provide free transportation to services or offer services onsite.

(5) An analysis of potential and actual governmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the types of housing identified in paragraph (1) of subdivision (c), and for persons with disabilities as identified in the analysis pursuant to paragraph (7), including land use controls, building codes and their enforcement, site improvements, fees, and other exactions required of developers, local processing and permit procedures, historic preservation practices and policies and an assessment of how existing and proposed historic designations affect the locality's ability to meet its share of the housing need pursuant to paragraph (1), and any locally adopted ordinances that directly impact the cost and supply of residential development. The analysis shall also demonstrate local efforts to remove governmental constraints that hinder the locality from meeting its share of the regional housing need in accordance with Section 65584 and from meeting the need for housing for persons with disabilities, supportive housing, transitional housing, and emergency shelters identified pursuant to paragraph (7).

(6) An analysis of potential and actual nongovernmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the availability of financing, the price of land, the cost of construction, the requests to develop housing at densities below those anticipated in the analysis required by subdivision (c) of Section 65583.2, and the length of time between receiving approval for a housing development and submittal of an application for building permits for that housing development that hinder the construction of a locality's share of the regional housing need in accordance with Section 65584. The analysis shall also demonstrate local efforts to remove nongovernmental constraints that create a gap between the locality's planning for the development of housing for all income levels and the construction of that housing.

(7) (A) An analysis of any special housing needs, such as those of the elderly; persons with disabilities, including a developmental disability, as defined in Section 4512 of the Welfare and Institutions Code; extremely low income households; large families; farmworkers; families with female heads of households; and families and persons in need of emergency shelter. The need for emergency shelter shall be assessed based on the capacity necessary to accommodate the most recent homeless point-in-time count conducted before the start of the planning period, the need for emergency shelter based on number of beds available on a year-round and seasonal basis, the number of shelter beds that go unused on an average monthly basis within a one-year period, and the percentage of those in emergency shelters that move to permanent housing solutions. The need for emergency shelter may be reduced by the number of supportive housing units that are identified in an adopted 10-year plan to end chronic homelessness and that are either vacant or for which funding has been identified to allow construction during the planning period. An analysis of special housing needs by a city or county may include an analysis of the need for frequent user coordinated care housing services.

(B) For the seventh and subsequent revisions of the housing element, the analysis required in subparagraph (A) shall also include an analysis of the housing needs of acutely and extremely low income households.

(8) An analysis of opportunities for energy conservation with respect to residential development. Cities and counties are encouraged to include weatherization and energy efficiency improvements as part of publicly subsidized housing rehabilitation projects. This may include energy efficiency measures that encompass the building envelope, its heating and cooling systems, and its electrical system.

(9) An analysis of existing assisted housing developments that are eligible to change from low-income housing uses during the next 10 years due to termination of subsidy contracts, mortgage prepayment, or expiration of restrictions on use. "Assisted housing developments," for the purpose of this section, shall mean multifamily rental housing that receives governmental assistance under federal programs listed in subdivision (a) of Section 65863.10, state and local multifamily revenue bond programs, local redevelopment programs, the federal Community Development Block Grant Program, or local in-lieu fees. "Assisted housing developments" shall also include multifamily rental units that were developed pursuant to a local inclusionary housing program or used to qualify for a density bonus pursuant to Section 65916.

(A) The analysis shall include a listing of each development by project name and address, the type of governmental assistance received, the earliest possible date of change from low-income use, and the total number of elderly and nonelderly units that could be lost from the locality's low-income housing stock in each year during the 10-year period. For

purposes of state and federally funded projects, the analysis required by this subparagraph need only contain information available on a statewide basis.

(B) The analysis shall estimate the total cost of producing new rental housing that is comparable in size and rent levels, to replace the units that could change from low-income use, and an estimated cost of preserving the assisted housing developments. This cost analysis for replacement housing may be done aggregately for each five-year period and does not have to contain a project-by-project cost estimate.

(C) The analysis shall identify public and private nonprofit corporations known to the local government that have legal and managerial capacity to acquire and manage these housing developments.

(D) The analysis shall identify and consider the use of all federal, state, and local financing and subsidy programs that can be used to preserve, for lower income households, the assisted housing developments, identified in this paragraph, including, but not limited to, federal Community Development Block Grant Program funds, tax increment funds received by a redevelopment agency of the community, and administrative fees received by a housing authority operating within the community. In considering the use of these financing and subsidy programs, the analysis shall identify the amounts of funds under each available program that have not been legally obligated for other purposes and that could be available for use in preserving assisted housing developments.

(b) (1) A statement of the community's goals, quantified objectives, and policies relative to affirmatively furthering fair housing and to the maintenance, preservation, improvement, and development of housing.

(2) It is recognized that the total housing needs identified pursuant to subdivision (a) may exceed available resources and the community's ability to satisfy this need within the content of the general plan requirements outlined in Article 5 (commencing with Section 65300). Under these circumstances, the quantified objectives need not be identical to the total housing needs. The quantified objectives shall establish the maximum number of housing units by income category that can be constructed, rehabilitated, and conserved over a five-year time period.

(c) A program that sets forth a schedule of actions during the planning period, each with a timeline for implementation, that may recognize that certain programs are ongoing, such that there will be beneficial impacts of the programs within the planning period, that the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the housing element through the administration of land use and development controls, the provision of regulatory concessions and incentives, the utilization of appropriate federal and state financing and subsidy programs when available, and the utilization of moneys in a low- and moderate-income housing fund of an agency if the locality has established a redevelopment project area pursuant to the Community Redevelopment Law (Division 24 (commencing with Section 33000) of the Health and Safety Code). In order to make adequate provision for the housing needs of all economic segments of the community, the program shall do all of the following:

(1) Identify actions that will be taken to make sites available during the planning period with appropriate zoning and development standards and with services and facilities to accommodate that portion of the city's or county's share of the regional housing need for all income levels that could not be accommodated on sites identified in the inventory completed pursuant to paragraph (3) of subdivision (a) without rezoning, and to comply with the requirements of Section 65584.09. Sites shall be identified as needed to affirmatively further fair housing and to facilitate and encourage the development of a variety of types of housing for all income levels, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing.

(A) Where the inventory of sites, pursuant to paragraph (3) of subdivision (a), does not identify adequate sites to accommodate the need for groups of all household income levels pursuant to Section 65584, a program for rezoning of those sites, subject to the following deadlines:

(i) For the adoption of the sixth revision of the housing element, jurisdictions with an eight-year housing element planning period pursuant to Section 65588, including adoption of minimum density and development standards or, for a jurisdiction in the coastal zone, any necessary local coastal program amendments related to land use designations, changes in intensity of land use, zoning ordinances, or zoning district maps, consistent with Sections 30512, 30512.2, 30513, and 30514 of the Public Resources Code, shall be completed no later than three years after either the date the housing element is adopted pursuant to subdivision (f) of Section 65585 or the date that is 90 days after receipt of comments from the department pursuant to subdivision (b) of Section 65585, whichever is earlier, unless the deadline is extended pursuant to subdivision (f). Notwithstanding the foregoing, for a local government that fails to adopt a housing element that the department has found to be in substantial compliance with this article within 120 days of the statutory deadline in Section 65588 for adoption of the housing element, rezoning of those sites, including adoption of minimum density and development standards or, for a jurisdiction in the coastal zone, any necessary local coastal program amendments related to land use designations, changes in intensity of land use, zoning ordinances, or zoning district

maps, consistent with Sections 30512, 30512.2, 30513, and 30514 of the Public Resources Code, shall be completed no later than one year from the statutory deadline in Section 65588 for adoption of the housing element.

(ii) For adoption of the seventh and all subsequent revisions of the housing element, rezonings shall be completed no later than one year from the statutory deadline in Section 65588 for adoption of the housing element.

(iii) Notwithstanding clause (ii), for the adoption of the seventh and all subsequent revisions of the housing element, rezonings shall be completed no later than three years and 90 days after the statutory deadline in Section 65588 for adoption of the housing element, unless the deadline is extended pursuant to subdivision (f). This clause shall apply only if the local government complies with all of the following:

(I) The local government submits a draft element or draft amendment to the department for review pursuant to paragraph (1) of subdivision (b) of Section 65585 at least 90 days before the statutory deadline established in Section 65588 for adoption of the housing element.

(II) The local government receives from the department findings that the draft element or draft amendment substantially complies with this article pursuant to paragraph (3) of subdivision (b) of Section 65585 on or before the statutory deadline set forth in Section 65588 for adoption of the housing element.

(III) The local government adopts the draft element or draft amendment that the department found to substantially comply with this article no later than 120 days after the statutory deadline set forth in Section 65588.

(B) Where the inventory of sites, pursuant to paragraph (3) of subdivision (a), does not identify adequate sites to accommodate the need for groups of all household income levels pursuant to Section 65584, the program shall identify sites that can be developed for housing within the planning period pursuant to subdivision (h) of Section 65583.2. The identification of sites shall include all components specified in Section 65583.2.

(C) Where the inventory of sites pursuant to paragraph (3) of subdivision (a) does not identify adequate sites to accommodate the need for farmworker housing, the program shall provide for sufficient sites to meet the need with zoning that permits farmworker housing use by right, including density and development standards that could accommodate and facilitate the feasibility of the development of farmworker housing for low- and very low income households.

(2) (A) Assist in the development of adequate housing to meet the needs of extremely low, very low, low-, and moderate-income households.

(B) For the seventh and subsequent revisions of the housing element, the program shall also assist in the development of adequate housing to meet the needs of acutely low income households.

(3) Address and, where appropriate and legally possible, remove governmental and nongovernmental constraints to the maintenance, improvement, and development of housing, including housing for all income levels and housing for persons with disabilities. The program shall remove constraints to, and provide reasonable accommodations for housing designed for, intended for occupancy by, or with supportive services for, persons with disabilities. Transitional housing and supportive housing shall be considered a residential use of property and shall be subject only to those restrictions that apply to other residential dwellings of the same type in the same zone. Supportive housing, as defined in Section 65650, shall be a use by right in all zones where multifamily and mixed uses are permitted, as provided in Article 11 (commencing with Section 65650).

(4) Conserve and improve the condition of the existing affordable housing stock, which may include addressing ways to mitigate the loss of dwelling units demolished by public or private action.

(5) Promote and affirmatively further fair housing opportunities and promote housing throughout the community or communities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, color, familial status, or disability, and other characteristics protected by the California Fair Employment and Housing Act (Part 2.8 (commencing with Section 12900) of Division 3 of Title 2), Section 65008, and any other state and federal fair housing and planning law.

(6) Preserve for lower income households the assisted housing developments identified pursuant to paragraph (9) of subdivision (a). The program for preservation of the assisted housing developments shall utilize, to the extent necessary, all available federal, state, and local financing and subsidy programs identified in paragraph (9) of subdivision (a), except where a community has other urgent needs for which alternative funding sources are not available. The program may include strategies that involve local regulation and technical assistance.

(7) Develop a plan that incentivizes and promotes the creation of accessory dwelling units that can be offered at affordable rent, as defined in Section 50053 of the Health and Safety Code, for very low, low-, or moderate-income households. For purposes of this paragraph, "accessory dwelling units" has the same meaning as "accessory dwelling unit" as defined in subdivision (a) of Section 66313.

(8) Include an identification of the agencies and officials responsible for the implementation of the various actions and the means by which consistency will be achieved with other general plan elements and community goals.

(9) Include a diligent effort by the local government to achieve public participation of all economic segments of the community in the development of the housing element, and the program shall describe this effort.

(10) (A) Affirmatively further fair housing in accordance with Chapter 15 (commencing with Section 8899.50) of Division 1 of Title 2. The program shall include an assessment of fair housing in the jurisdiction that shall include all of the following components:

(i) A summary of fair housing issues in the jurisdiction and an assessment of the jurisdiction's fair housing enforcement and fair housing outreach capacity.

(ii) An analysis of available federal, state, and local data and knowledge to identify integration and segregation patterns and trends, racially or ethnically concentrated areas of poverty and affluence, disparities in access to opportunity, and disproportionate housing needs, including displacement risk. The analysis shall identify and examine such patterns, trends, areas, disparities, and needs, both within the jurisdiction and comparing the jurisdiction to the region in which it is located, based on race and other characteristics protected by the California Fair Employment and Housing Act (Part 2.8 (commencing with Section 12900) of Division 3 of Title 2) and Section 65008.

(iii) An assessment of the contributing factors, including the local and regional historical origins and current policies and practices, for the fair housing issues identified under clauses (i) and (ii).

(iv) An identification of the jurisdiction's fair housing priorities and goals, giving highest priority to those factors identified in clause (iii) that limit or deny fair housing choice or access to opportunity, or negatively impact fair housing or civil rights compliance, and identifying the metrics and milestones for determining what fair housing results will be achieved.

(v) Strategies and actions to implement those priorities and goals, which may include, but are not limited to, enhancing mobility strategies and encouraging development of new affordable housing in areas of opportunity, as well as place-based strategies to encourage community revitalization, including preservation of existing affordable housing, and protecting existing residents from displacement.

(B) A jurisdiction that completes or revises an assessment of fair housing pursuant to Subpart A (commencing with Section 5.150) of Part 5 of Subtitle A of Title 24 of the Code of Federal Regulations, as published in Volume 80 of the Federal Register, Number 136, page 42272, dated July 16, 2015, or an analysis of impediments to fair housing choice in accordance with the requirements of Section 91.225 of Title 24 of the Code of Federal Regulations in effect before August 17, 2015, may incorporate relevant portions of that assessment or revised assessment of fair housing or analysis or revised analysis of impediments to fair housing into its housing element.

(C) (i) The requirements of this paragraph shall apply to housing elements due to be revised pursuant to Section 65588 on or after January 1, 2021.

(ii) The assessment required pursuant to this paragraph shall be completed before the planning agency makes its first draft revision of a housing element available for public comment pursuant to subdivision (b) of Section 65585.

(D) (i) The department shall develop a standardized reporting format for programs and actions taken pursuant to this paragraph. The standardized reporting format shall enable the reporting of all of the assessment components listed in subparagraph (A) and, at a minimum, include all of the following fields:

(I) Timelines for implementation.

(II) Responsible party or parties.

(III) Resources committed from the local budget to affirmatively further fair housing.

(IV) Action areas.

(V) Potential impacts of the program.

(ii) A local government shall utilize the standardized report format developed pursuant to this subparagraph for the seventh and each subsequent revision of the housing element.

(d) (1) A local government may satisfy all or part of its requirement to identify a zone or zones suitable for the development of emergency shelters pursuant to paragraph (4) of subdivision (a) by adopting and implementing a multijurisdictional agreement,

with a maximum of two other adjacent communities, that requires the participating jurisdictions to develop at least one year-round emergency shelter within two years of the beginning of the planning period.

(2) The agreement shall allocate a portion of the new shelter capacity to each jurisdiction as credit toward its emergency shelter need, and each jurisdiction shall describe how the capacity was allocated as part of its housing element.

(3) Each member jurisdiction of a multijurisdictional agreement shall describe in its housing element all of the following:

(A) How the joint facility will meet the jurisdiction's emergency shelter need.

(B) The jurisdiction's contribution to the facility for both the development and ongoing operation and management of the facility.

(C) The amount and source of the funding that the jurisdiction contributes to the facility.

(4) The aggregate capacity claimed by the participating jurisdictions in their housing elements shall not exceed the actual capacity of the shelter.

(e) Except as otherwise provided in this article, amendments to this article that alter the required content of a housing element shall apply to both of the following:

(1) A housing element or housing element amendment prepared pursuant to subdivision (e) of Section 65588 or Section 65584.02, when a city, county, or city and county submits a draft to the department for review pursuant to Section 65585 more than 90 days after the effective date of the amendment to this section.

(2) Any housing element or housing element amendment prepared pursuant to subdivision (e) of Section 65588 or Section 65584.02, when the city, county, or city and county fails to submit the first draft to the department before the due date specified in Section 65588 or 65584.02.

(f) The deadline for completing required rezoning pursuant to subparagraph (A) of paragraph (1) of subdivision (c) shall be extended by one year if the local government has completed the rezoning at densities sufficient to accommodate at least 75 percent of the units for lower income households and if the legislative body at the conclusion of a public hearing determines, based upon substantial evidence, that any of the following circumstances exists:

(1) The local government has been unable to complete the rezoning because of the action or inaction beyond the control of the local government of any other state, federal, or local agency.

(2) The local government is unable to complete the rezoning because of infrastructure deficiencies due to fiscal or regulatory constraints.

(3) The local government must undertake a major revision to its general plan in order to accommodate the housing-related policies of a sustainable communities strategy or an alternative planning strategy adopted pursuant to Section 65080.

The resolution and the findings shall be transmitted to the department together with a detailed budget and schedule for preparation and adoption of the required rezonings, including plans for citizen participation and expected interim action. The schedule shall provide for adoption of the required rezoning within one year of the adoption of the resolution.

(g) (1) If a local government fails to complete the rezoning by the deadline provided in subparagraph (A) of paragraph (1) of subdivision (c), as it may be extended pursuant to subdivision (f), except as provided in paragraph (2), a local government may not disapprove a housing development project, nor require a conditional use permit, planned unit development permit, or other locally imposed discretionary permit, or impose a condition that would render the project infeasible, if the housing development project, (A) is proposed to be located on a site required to be rezoned pursuant to the program action required by that subparagraph and, (B) complies with applicable, objective general plan and zoning standards and criteria, including design review standards, described in the program action required by that subparagraph. Any subdivision of sites shall be subject to the Subdivision Map Act (Division 2 (commencing with Section 66410)). Design review shall not constitute a "project" for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code.

(2) A local government may disapprove a housing development described in paragraph (1) if it makes written findings supported by substantial evidence on the record that both of the following conditions exist:

(A) The housing development project would have a specific, adverse impact upon the public health or safety unless the project is disapproved or approved upon the condition that the project be developed at a lower density. As used in this paragraph, a "specific, adverse impact" means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

(B) There is no feasible method to satisfactorily mitigate or avoid the adverse impact identified pursuant to paragraph (1), other than the disapproval of the housing development project or the approval of the project upon the condition that it be developed at a lower density.

(3) The applicant or any interested person may bring an action to enforce this subdivision. If a court finds that the local agency disapproved a project or conditioned its approval in violation of this subdivision, the court shall issue an order or judgment compelling compliance within 60 days. The court shall retain jurisdiction to ensure that its order or judgment is carried out. If the court determines that its order or judgment has not been carried out within 60 days, the court may issue further orders to ensure that the purposes and policies of this subdivision are fulfilled. In any such action, the city, county, or city and county shall bear the burden of proof.

(4) For purposes of this subdivision, "housing development project" means a project to construct residential units for which the project developer provides sufficient legal commitments to the appropriate local agency to ensure the continued availability and use of at least 49 percent of the housing units for very low, low-, and moderate-income households with an affordable housing cost or affordable rent, as defined in Section 50052.5 or 50053 of the Health and Safety Code, respectively, for the period required by the applicable financing.

(h) An action to enforce the program actions of the housing element shall be brought pursuant to Section 1085 of the Code of Civil Procedure.

(i) Notwithstanding any other law, the otherwise applicable timeframe set forth in paragraph (2) of subdivision (b) and subdivision (d) of Section 21080.3.1 of the Public Resources Code, and paragraph (3) of subdivision (d) of Section 21082.3 of the Public Resources Code, for a Native American tribe to respond to a lead agency and request consultation in writing is extended by 30 days for any housing development project application determined or deemed to be complete on or after March 4, 2020, and prior to December 31, 2021.

(j) On or after January 1, 2024, at the discretion of the department, the analysis of government constraints pursuant to paragraph (5) of subdivision (a) may include an analysis of constraints upon the maintenance, improvement, or development of housing for persons with a characteristic identified in subdivision (b) of Section 51 of the Civil Code. The implementation of this subdivision is contingent upon an appropriation by the Legislature in the annual Budget Act or another statute for this purpose.

SEC. 4. Section 65583.05 is added to the Government Code, to read:

65583.05. (a) (1) The Department of Housing and Community Development shall publish, by December 31, 2026, advisory guidance, including, but not limited to, sample analyses and programs, pertaining to both of the following:

(A) Special housing needs for acutely low and extremely low income households, as described in paragraph (7) of subdivision (a) of Section 65583.

(B) Programs to assist in the development of adequate housing to meet the needs of acutely low income households, as described in paragraph (2) of subdivision (c) of Section 65583.

(2) The guidance described in paragraph (1) shall provide advice regarding the impact of the statutory requirements pertaining to acutely low and extremely low income households on both of the following:

(A) Compliance with the requirements in Section 65583 to analyze potential and actual governmental constraints and, where appropriate and legally possible, remove governmental constraints.

(B) Residential development project financial or other factors that impact feasibility.

(b) The Department of Housing and Community Development shall publish, by December 31, 2026, advisory guidance to be used by each council of governments, or delegate subregion, as applicable, to develop a proposed methodology for allocating the regional housing need for acutely low and extremely low income households to cities, counties, and cities and counties within the region or within the subregion pursuant to Section 65584.04.

SEC. 5. Section 65583.1 of the Government Code is amended to read:

65583.1. (a) The Department of Housing and Community Development, in evaluating a proposed or adopted housing element for substantial compliance with this article, may allow a city or county to identify adequate sites, as required pursuant to Section 65583, by a variety of methods, including, but not limited to, redesignation of property to a more intense land use category and increasing the density allowed within one or more categories. The department may also allow a city or county to identify sites for accessory dwelling units based on the number of accessory dwelling units developed in the prior housing element planning period whether or not the units are permitted by right, the need for these units in the community, the resources or incentives available for their development, and any other relevant factors, as determined by the department. Nothing in this section reduces the

responsibility of a city or county to identify, by income category, the total number of sites for residential development as required by this article.

(b) Sites that contain permanent housing units located on a military base undergoing closure or conversion as a result of action pursuant to the Defense Authorization Amendments and Base Closure and Realignment Act (Public Law 100-526), the Defense Base Closure and Realignment Act of 1990 (Public Law 101-510), or any subsequent act requiring the closure or conversion of a military base may be identified as an adequate site if the housing element demonstrates that the housing units will be available for occupancy by households within the planning period of the element. No sites containing housing units scheduled or planned for demolition or conversion to nonresidential uses shall qualify as an adequate site.

Any city, city and county, or county using this subdivision shall address the progress in meeting this section in the reports provided pursuant to paragraph (1) of subdivision (b) of Section 65400.

(c) (1) The Department of Housing and Community Development may allow a city or county to substitute the provision of units for up to 25 percent of the community's obligation to identify adequate sites for any income category in its housing element pursuant to paragraph (1) of subdivision (c) of Section 65583 where the community includes in its housing element a program committing the local government to provide units in that income category within the city or county that will be made available through the provision of committed assistance during the planning period covered by the element to lower income households at affordable housing costs or affordable rents, as defined in Sections 50052.5 and 50053 of the Health and Safety Code, and which meet the requirements of paragraph (2). Except as otherwise provided in this subdivision, the community may substitute one dwelling unit for one dwelling unit site in the applicable income category. The program shall do all of the following:

(A) Identify the specific, existing sources of committed assistance and dedicate a specific portion of the funds from those sources to the provision of housing pursuant to this subdivision.

(B) Indicate the number of units that will be provided to low-, very low, extremely low, and acutely low income households and demonstrate that the amount of dedicated funds is sufficient to develop the units at affordable housing costs or affordable rents.

(C) Demonstrate that the units meet the requirements of paragraph (2).

(2) Only units that comply with subparagraph (A), (B), (C), (D), or (E) qualify for inclusion in the housing element program described in paragraph (1), as follows:

(A) Units that are to be substantially rehabilitated with committed assistance from the city or county and constitute a net increase in the community's stock of housing affordable to lower income households. For purposes of this subparagraph, a unit is not eligible to be "substantially rehabilitated" unless all of the following requirements are met:

(i) At the time the unit is identified for substantial rehabilitation, (I) the local government has determined that the unit is at imminent risk of loss to the housing stock, (II) the local government has committed to provide relocation assistance pursuant to Chapter 16 (commencing with Section 7260) of Division 7 of Title 1 to any occupants temporarily or permanently displaced by the rehabilitation or code enforcement activity, or the relocation is otherwise provided prior to displacement either as a condition of receivership, or provided by the property owner or the local government pursuant to Article 2.5 (commencing with Section 17975) of Chapter 5 of Part 1.5 of Division 13 of the Health and Safety Code, or as otherwise provided by local ordinance; provided the assistance includes not less than the equivalent of four months' rent and moving expenses and comparable replacement housing consistent with the moving expenses and comparable replacement housing required pursuant to Section 7260, (III) the local government requires that any displaced occupants will have the right to reoccupy the rehabilitated units, and (IV) the unit has been found by the local government or a court to be unfit for human habitation due to the existence of at least four violations of the conditions listed in subdivisions (a) to (g), inclusive, of Section 17995.3 of the Health and Safety Code.

(ii) The rehabilitated unit will have long-term affordability covenants and restrictions that require the unit to be available to, and occupied by, persons or families of lower income at affordable housing costs for at least 55 years or the time period required by any applicable federal or state law or regulation.

(iii) Prior to initial occupancy after rehabilitation, the local code enforcement agency shall issue a certificate of occupancy indicating compliance with all applicable state and local building code and health and safety code requirements.

(B) Units that are located either on foreclosed property or in a multifamily rental or ownership housing complex of three or more units, are converted with committed assistance from the city or county from nonaffordable to affordable by acquisition of the unit or the purchase of affordability covenants and restrictions for the unit, are not acquired by eminent domain, and constitute a net increase in the community's stock of housing affordable to lower income households. For purposes of this

subparagraph, a unit is not converted by acquisition or the purchase of affordability covenants unless all of the following occur:

(i) The unit is made available for rent at a cost affordable to lower income households.

(ii) At the time the unit is identified for acquisition, the unit is not available at an affordable housing cost to either of the following:

(I) Low-income households, if the unit will be made affordable to low-income households.

(II) Very low, extremely low, or acutely low income households, if the unit will be made affordable to very low income households.

(iii) At the time the unit is identified for acquisition the unit is not occupied by lower income households or if the acquired unit is occupied, the local government has committed to provide relocation assistance prior to displacement, if any, pursuant to Chapter 16 (commencing with Section 7260) of Division 7 of Title 1 to any occupants displaced by the conversion, or the relocation is otherwise provided prior to displacement; provided the assistance includes not less than the equivalent of four months' rent and moving expenses and comparable replacement housing consistent with the moving expenses and comparable replacement housing required pursuant to Section 7260.

(iv) The unit is in decent, safe, and sanitary condition at the time of occupancy.

(v) The unit has long-term affordability covenants and restrictions that require the unit to be affordable to persons of lower income for not less than 55 years.

(vi) For units located in multifamily ownership housing complexes with three or more units, or on or after January 1, 2015, on foreclosed properties, at least an equal number of new-construction multifamily rental units affordable to lower income households have been constructed in the city or county within the same planning period as the number of ownership units to be converted.

(C) Units that will be preserved at affordable housing costs to persons or families of lower incomes with committed assistance from the city or county by acquisition of the unit or the purchase of affordability covenants for the unit. For purposes of this subparagraph, a unit shall not be deemed preserved unless all of the following occur:

(i) The unit has long-term affordability covenants and restrictions that require the unit to be affordable to, and reserved for occupancy by, persons of the same or a lower income group as the current occupants for a period of at least 55 years.

(ii) The unit is within an "assisted housing development," as defined in paragraph (3) of subdivision (a) of Section 65863.10.

(iii) The city or county finds, after a public hearing, that the unit is eligible, and is reasonably expected, to change from housing affordable to lower income households to any other use during the next eight years due to termination of subsidy contracts, mortgage prepayment, or expiration of restrictions on use.

(iv) The unit is in decent, safe, and sanitary condition at the time of occupancy.

(v) At the time the unit is identified for preservation it is available at affordable cost to persons or families of low or very low income.

(D) Units in a motel, hotel, or hostel that are converted with committed assistance from the city or county from nonresidential to residential by the acquisition of the unit or the purchase of affordability covenants and restrictions for the unit, are not acquired by eminent domain, and constitute a net increase in the community's stock of housing affordable to low- and very low income households. For purposes of this subparagraph, a unit is not converted by acquisition or the purchase of affordability covenants unless all of the following occur:

(i) The unit is part of a long-term recovery response to COVID-19.

(ii) The unit is made available for people experiencing homelessness as defined in Section 578.3 of Title 24 of the Code of Federal Regulations.

(iii) The unit is made available for rent at a cost affordable to low- or very low income households.

(iv) The unit is in decent, safe, and sanitary condition at the time of occupancy.

(v) The unit has long-term affordability covenants and restrictions that require the unit to be affordable to persons of low or very low income for not less than 55 years.

(vi) This subparagraph shall remain in effect only for the sixth revision of the housing element pursuant to Section 65588.

(E) All spaces in a mobilehome park, as defined in subdivision (a) of Section 18214 of the Health and Safety Code, that is acquired with committed assistance from the city or county where any of the following apply:

(i) The mobilehome park will be acquired with financing that includes a loan from the department pursuant to Section 50783 or 50784.5 of the Health and Safety Code.

(ii) At least 50 percent of the current residents in the mobilehome park to be acquired are lower income households and the entity acquiring the park agrees to enter into a regulatory agreement for a minimum of 55 years that requires both of the following:

(I) All vacant spaces shall be rented at a space rent that does not exceed 50 percent of maximum rent limits established by the California Tax Credit Allocation Committee at 60 percent of the area median income.

(II) The space rent for existing residents at the time of the acquisition of the property, both during the 12 months preceding the acquisition and during the term of the regulatory agreement, shall not increase more than 5 percent in any 12-month period.

(3) This subdivision does not apply to any city or county that, during the current or immediately prior planning period, as defined by Section 65588, has not met any of its share of the regional need for affordable housing, as defined in Section 65584, for low- and very low income households. A city or county shall document for any housing unit that a building permit has been issued and all development and permit fees have been paid or the unit is eligible to be lawfully occupied.

(4) For purposes of this subdivision, "committed assistance" means that the city or county enters into a legally enforceable agreement during the period from the beginning of the projection period until the end of the third year of the planning period that obligates sufficient available funds or other in-kind services to provide the assistance necessary to make the identified units affordable and that requires that the units be made available for occupancy within two years of the execution of the agreement. "Committed assistance" does not include tenant-based rental assistance.

(5) For purposes of this subdivision, "net increase" includes only housing units provided committed assistance pursuant to subparagraph (A) or (B) of paragraph (2) in the current planning period, as defined in Section 65588, that were not provided committed assistance in the immediately prior planning period.

(6) For purposes of this subdivision, "the time the unit is identified" means the earliest time when any city or county agent, acting on behalf of a public entity, has proposed in writing or has proposed orally or in writing to the property owner, that the unit be considered for substantial rehabilitation, acquisition, or preservation.

(7) In the fourth year of the planning period, as defined by Section 65588, in the report required pursuant to Section 65400, each city or county that has included in its housing element a program to provide units pursuant to subparagraph (A), (B), (C), (D), or (E) of paragraph (2) shall report in writing to the legislative body, and to the department within 30 days of making its report to the legislative body, on its progress in providing units pursuant to this subdivision. The report shall identify the specific units for which committed assistance has been provided or which have been made available to lower income households, and it shall adequately document how each unit complies with this subdivision. If, by the end of the third year of the planning period, the city or county has not entered into an enforceable agreement of committed assistance for all units specified in the programs adopted pursuant to subparagraph (A), (B), (C), (D), or (E) of paragraph (2), the city or county shall, not later than the end of the fourth year of the planning period, adopt an amended housing element in accordance with Section 65585, identifying additional adequate sites pursuant to paragraph (1) of subdivision (c) of Section 65583 sufficient to accommodate the number of units for which committed assistance was not provided. If a city or county does not amend its housing element to identify adequate sites to address any shortfall, or fails to complete the rehabilitation, acquisition, purchase of affordability covenants, or the preservation of any housing unit within two years after committed assistance was provided to that unit, it shall be prohibited from identifying units pursuant to subparagraph (A), (B), (C), (D), or (E) of paragraph (2) in the housing element that it adopts for the next planning period, as defined in Section 65588, above the number of units actually provided or preserved due to committed assistance.

(d) A city or county may reduce its share of the regional housing need by the number of units built between the start of the projection period and the deadline for adoption of the housing element. If the city or county reduces its share pursuant to this subdivision, the city or county shall include in the housing element a description of the methodology for assigning those housing units to an income category based on actual or projected sales price, rent levels, or other mechanisms establishing affordability.

SEC. 6. Section 65583.2 of the Government Code, as amended by Section 5 of Chapter 7 of the Statutes of 2024, is amended to read:

65583.2. (a) A city's or county's inventory of land suitable for residential development pursuant to paragraph (3) of subdivision (a) of Section 65583 shall be used to identify sites throughout the community, consistent with paragraph (10) of subdivision (c) of Section 65583, that can be developed for housing within the planning period and that are sufficient to provide for the jurisdiction's share of the regional housing need for all income levels pursuant to Section 65584. As used in this section, "land suitable for residential development" includes all of the following sites that meet the standards set forth in subdivisions (c) and (g):

(1) Vacant sites zoned for residential use.

(2) Vacant sites zoned for nonresidential use that allows residential development.

(3) Residentially zoned sites that are capable of being developed at a higher density, including sites owned or leased by a city, county, or city and county.

(4) Sites zoned for nonresidential use that can be redeveloped for residential use, and for which the housing element includes a program to rezone the site, as necessary, rezoned for, to permit residential use, including sites owned or leased by a city, county, or city and county.

(b) The inventory of land shall include all of the following:

(1) A listing of properties by assessor parcel number.

(2) The size of each property listed pursuant to paragraph (1), and the general plan designation and zoning of each property.

(3) For nonvacant sites, a description of the existing use of each property. If a site subject to this paragraph is owned by the city or county, the description shall also include whether there are any plans to dispose of the property during the planning period and how the city or county will comply with Article 8 (commencing with Section 54220) of Chapter 5 of Part 1 of Division 2 of Title 5.

(4) A general description of any environmental constraints to the development of housing within the jurisdiction, the documentation for which has been made available to the jurisdiction. This information need not be identified on a site-specific basis.

(5) (A) A description of existing or planned water, sewer, and other dry utilities supply, including the availability and access to distribution facilities.

(B) Parcels included in the inventory must have sufficient water, sewer, and dry utilities supply available and accessible to support housing development or be included in an existing general plan program or other mandatory program or plan, including a program or plan of a public or private entity providing water or sewer service, to secure sufficient water, sewer, and dry utilities supply to support housing development. This paragraph does not impose any additional duty on the city or county to construct, finance, or otherwise provide water, sewer, or dry utilities to parcels included in the inventory.

(6) Sites identified as available for housing for above moderate-income households in areas not served by public sewer systems. This information need not be identified on a site-specific basis.

(7) A map that shows the location of the sites included in the inventory, such as the land use map from the jurisdiction's general plan, for reference purposes only.

(c) Based on the information provided in subdivision (b), a city or county shall determine whether each site in the inventory can accommodate the development of some portion of its share of the regional housing need by income level during the planning period, as determined pursuant to Section 65584. The inventory shall specify for each site the number of units that can realistically be accommodated on that site and whether the site is adequate to accommodate lower income housing, moderate-income housing, or above moderate-income housing. A nonvacant site identified pursuant to paragraph (3) or (4) of subdivision (a) in a prior housing element and a vacant site that has been included in two or more consecutive planning periods that was not approved to develop a portion of the locality's housing need shall not be deemed adequate to accommodate a portion of the housing need for lower income households that must be accommodated in the current housing element planning period unless the site is zoned at residential densities consistent with paragraph (3) of this subdivision and the site is subject to a program in the housing element requiring rezoning within three years of the beginning of the planning period to allow residential use by right for housing developments in which at least 20 percent of the units are affordable to lower income households. Notwithstanding the foregoing, for a local government that fails to adopt a housing element that the department has found to be in substantial compliance with state law within 120 days of the statutory deadline in Section 65588 for adoption of the housing element, rezoning pursuant to this subdivision shall be completed no later than one year from the statutory deadline in Section 65588 for

adoption of the housing element. An unincorporated area in a nonmetropolitan county pursuant to clause (ii) of subparagraph (B) of paragraph (3) shall not be subject to the requirements of this subdivision to allow residential use by right. The analysis shall determine whether the inventory can provide for a variety of types of housing, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing, and whether the inventory affirmatively furthers fair housing. The city or county shall determine the number of housing units that can be accommodated on each site as follows:

(1) If local law or regulations require the development of a site at a minimum density, the department shall accept the planning agency's calculation of the total housing unit capacity on that site based on the established minimum density. If the city or county does not adopt a law or regulation requiring the development of a site at a minimum density, then it shall demonstrate how the number of units determined for that site pursuant to this subdivision will be accommodated.

(2) The number of units calculated pursuant to paragraph (1) shall be adjusted as necessary, based on the land use controls and site improvements requirement identified in paragraph (5) of subdivision (a) of Section 65583, the realistic development capacity for the site, typical densities of existing or approved residential developments at a similar affordability level in that jurisdiction, and on the current or planned availability and accessibility of sufficient water, sewer, and dry utilities.

(A) A site smaller than half an acre shall not be deemed adequate to accommodate lower income housing need unless the locality can demonstrate that sites of equivalent size were successfully developed during the prior planning period for an equivalent number of lower income housing units as projected for the site or unless the locality provides other evidence to the department that the site is adequate to accommodate lower income housing.

(B) A site larger than 10 acres shall not be deemed adequate to accommodate lower income housing need unless the locality can demonstrate that sites of equivalent size were successfully developed during the prior planning period for an equivalent number of lower income housing units as projected for the site or unless the locality provides other evidence to the department that the site can be developed as lower income housing. For purposes of this subparagraph, "site" means that portion of a parcel or parcels designated to accommodate lower income housing needs pursuant to this subdivision.

(C) A site may be presumed to be realistic for development to accommodate lower income housing need if, at the time of the adoption of the housing element, a development affordable to lower income households has been proposed and approved for development on the site.

(3) For the number of units calculated to accommodate its share of the regional housing need for lower income households pursuant to paragraph (2), a city or county shall do either of the following:

(A) Provide an analysis demonstrating how the adopted densities accommodate this need. The analysis shall include, but is not limited to, factors such as market demand, financial feasibility, or information based on development project experience within a zone or zones that provide housing for lower income households.

(B) The following densities shall be deemed appropriate to accommodate housing for lower income households:

(i) For an incorporated city within a nonmetropolitan county and for a nonmetropolitan county that has a micropolitan area: sites allowing at least 15 units per acre.

(ii) For an unincorporated area in a nonmetropolitan county not included in clause (i): sites allowing at least 10 units per acre.

(iii) For a suburban jurisdiction: sites allowing at least 20 units per acre.

(iv) For a jurisdiction in a metropolitan county: sites allowing at least 30 units per acre.

(4) (A) For a metropolitan jurisdiction:

(i) At least 25 percent of the jurisdiction's share of the regional housing need for moderate-income housing shall be allocated to sites with zoning that allows at least 4 units of housing, but not more than 100 units per acre of housing.

(ii) At least 25 percent of the jurisdiction's share of the regional housing need for above moderate-income housing shall be allocated to sites with zoning that allows at least 4 units of housing.

(B) The allocation of moderate-income and above moderate-income housing to sites pursuant to this paragraph shall not be a basis for the jurisdiction to do either of the following:

(i) Deny a project that does not comply with the allocation.

(ii) Impose a price minimum, price maximum, price control, or any other exaction or condition of approval in lieu thereof. This clause does not prohibit a jurisdiction from imposing any price minimum, price maximum, price control, exaction, or condition in lieu thereof, pursuant to any other law.

(iii) The provisions of this subparagraph do not constitute a change in, but are declaratory of, existing law with regard to the allocation of sites pursuant to this section.

(C) This paragraph does not apply to an unincorporated area.

(D) For purposes of this paragraph:

(i) "Housing development project" has the same meaning as defined in paragraph (2) of subdivision (h) of Section 65589.5.

(ii) "Unit of housing" does not include an accessory dwelling unit or junior accessory dwelling unit that could be approved pursuant to Article 2 (commencing with Section 66314) or Article 3 (commencing with Section 66333) of Chapter 13 or through a local ordinance or other provision implementing either of those sections. This paragraph shall not limit the ability of a local government to count the actual production of accessory dwelling units or junior accessory dwelling units in an annual progress report submitted pursuant to Section 65400 or other progress report as determined by the department.

(E) Nothing in this subdivision shall preclude the subdivision of a parcel, provided that the subdivision is subject to the Subdivision Map Act (Division 2 (commencing with Section 66410)) or any other applicable law authorizing the subdivision of land.

(d) For purposes of this section, a metropolitan county, nonmetropolitan county, and nonmetropolitan county with a micropolitan area shall be as determined by the United States Census Bureau. A nonmetropolitan county with a micropolitan area includes the following counties: Del Norte, Humboldt, Lake, Mendocino, Nevada, Tehama, and Tuolumne and other counties as may be determined by the United States Census Bureau to be nonmetropolitan counties with micropolitan areas in the future.

(e) (1) Except as provided in paragraph (2), a jurisdiction shall be considered suburban if the jurisdiction does not meet the requirements of clauses (i) and (ii) of subparagraph (B) of paragraph (3) of subdivision (c) and is located in a Metropolitan Statistical Area (MSA) of less than 2,000,000 in population, unless that jurisdiction's population is greater than 100,000, in which case it shall be considered metropolitan. A county, not including the City and County of San Francisco, shall be considered suburban unless the county is in an MSA of 2,000,000 or greater in population, in which case the county shall be considered metropolitan.

(2) (A) (i) Notwithstanding paragraph (1), if a county that is in the San Francisco-Oakland-Fremont California MSA has a population of less than 400,000, that county shall be considered suburban. If this county includes an incorporated city that has a population of less than 100,000, this city shall also be considered suburban. This paragraph shall apply to a housing element revision cycle, as described in subparagraph (A) of paragraph (3) of subdivision (e) of Section 65588, that is in effect from July 1, 2014, to December 31, 2028, inclusive.

(ii) A county subject to this subparagraph shall utilize the sum existing in the county's housing trust fund as of June 30, 2013, for the development and preservation of housing affordable to low- and very low income households.

(B) A jurisdiction that is classified as suburban pursuant to this paragraph shall report to the Assembly Committee on Housing and Community Development, the Senate Committee on Housing, and the Department of Housing and Community Development regarding its progress in developing low- and very low income housing consistent with the requirements of Section 65400. The report shall be provided three times: once, on or before December 31, 2019, which report shall address the initial four years of the housing element cycle, a second time, on or before December 31, 2023, which report shall address the subsequent four years of the housing element cycle, and a third time, on or before December 31, 2027, which report shall address the subsequent four years of the housing element cycle and the cycle as a whole. The reports shall be provided consistent with the requirements of Section 9795.

(f) A jurisdiction shall be considered metropolitan if the jurisdiction does not meet the requirements for "suburban area" above and is located in an MSA of 2,000,000 or greater in population, unless that jurisdiction's population is less than 25,000 in which case it shall be considered suburban.

(g) (1) For sites described in paragraph (3) of subdivision (b), the city or county shall specify the additional development potential for each site within the planning period and shall provide an explanation of the methodology used to determine the development potential. The methodology shall consider factors including the extent to which existing uses may constitute an impediment to additional residential development, the city's or county's past experience with converting existing uses to higher density

residential development, the current market demand for the existing use, an analysis of any existing leases or other contracts that would perpetuate the existing use or prevent redevelopment of the site for additional residential development, development trends, market conditions, and regulatory or other incentives or standards to encourage additional residential development on these sites.

(2) In addition to the analysis required in paragraph (1), when a city or county is relying on nonvacant sites described in paragraph (3) of subdivision (b) to accommodate 50 percent or more of its housing need for lower income households, the methodology used to determine additional development potential shall demonstrate that the existing use identified pursuant to paragraph (3) of subdivision (b) does not constitute an impediment to additional residential development during the period covered by the housing element. An existing use shall be presumed to impede additional residential development, absent findings based on substantial evidence that the use is likely to be discontinued during the planning period.

(3) Notwithstanding any other law, and in addition to the requirements in paragraphs (1) and (2), sites that currently have residential uses, or within the past five years have had residential uses that have been vacated or demolished, that are or were subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of low or very low income, subject to any other form of rent or price control through a public entity's valid exercise of its police power, or occupied by low- or very low income households, shall be subject to a policy requiring the replacement of all those units affordable to the same or lower income level as a condition of any development on the site. Replacement requirements shall be consistent with those set forth in paragraph (3) of subdivision (c) of Section 65915.

(h) (1) The program required by subparagraph (A) of paragraph (1) of subdivision (c) of Section 65583 shall accommodate 100 percent of the need for housing for lower income households allocated pursuant to Section 65584 for which site capacity has not been identified in the inventory of sites pursuant to paragraph (3) of subdivision (a) on sites that shall be zoned to permit owner-occupied and rental multifamily residential use by right for developments in which at least 20 percent of the units are affordable to lower income households during the planning period.

(2) These sites shall be zoned with minimum density and development standards that permit at least 16 units per site at a density of at least 16 units per acre in jurisdictions described in clause (i) of subparagraph (B) of paragraph (3) of subdivision (c), shall be at least 20 units per acre in jurisdictions described in clauses (iii) and (iv) of subparagraph (B) of paragraph (3) of subdivision (c), and shall meet the standards set forth in subparagraph (B) of paragraph (5) of subdivision (b). At least 50 percent of the lower income housing need shall be accommodated on sites designated for residential use and for which nonresidential uses or mixed uses are not permitted, except that a city or county may accommodate all of the lower income housing need on sites designated for mixed use if those sites allow 100 percent residential use and require that residential use occupy 50 percent of the total floor area of a mixed-use project.

(i) For purposes of this section and Section 65583, the phrase "use by right" shall mean that the local government's review of the owner-occupied or multifamily residential use may not require a conditional use permit, planned unit development permit, or other discretionary local government review or approval that would constitute a "project" for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code. Any subdivision of the sites shall be subject to all laws, including, but not limited to, the local government ordinance implementing the Subdivision Map Act. A local ordinance may provide that "use by right" does not exempt the use from design review. However, that design review shall not constitute a "project" for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code. Use by right for all rental multifamily residential housing shall be provided in accordance with subdivision (f) of Section 65589.5.

(j) Notwithstanding any other provision of this section, within one-half mile of a Sonoma-Marín Area Rail Transit station, housing density requirements in place on June 30, 2014, shall apply.

(k) For purposes of subdivisions (a) and (b), the department shall provide guidance to local governments to properly survey, detail, and account for sites listed pursuant to Section 65585.

(l) (1) The changes to this section made by Chapter 193 of the Statutes of 2020 shall become operative on January 1, 2022.

(2) The changes to this section made by Chapter 193 of the Statutes of 2020 shall not apply to a housing element revision that is originally due on or before January 1, 2022, regardless of the date of adoption by the local agency.

(m) This section shall remain in effect only until December 31, 2028, and as of that date is repealed.

SEC. 6.5. Section 65583.2 of the Government Code, as amended by Section 5 of Chapter 7 of the Statutes of 2024, is amended to read:

65583.2. (a) A city's or county's inventory of land suitable for residential development pursuant to paragraph (3) of subdivision (a) of Section 65583 shall be used to identify sites throughout the community, consistent with paragraph (10) of subdivision (c) of Section 65583, that can be developed for housing within the planning period and that are sufficient to provide for the jurisdiction's

share of the regional housing need for all income levels pursuant to Section 65584. As used in this section, "land suitable for residential development" includes all of the following sites that meet the standards set forth in subdivisions (c) and (g):

(1) Vacant sites zoned for residential use.

(2) Vacant sites zoned for nonresidential use that allows residential development.

(3) Residentially zoned sites that are capable of being developed at a higher density, including sites owned or leased by a city, county, or city and county.

(4) Sites zoned for nonresidential use that can be redeveloped for residential use, and for which the housing element includes a program to rezone the site, as necessary, rezoned for, to permit residential use, including sites owned or leased by a city, county, or city and county.

(b) The inventory of land shall include all of the following:

(1) A listing of properties by assessor parcel number.

(2) The size of each property listed pursuant to paragraph (1), and the general plan designation and zoning of each property.

(3) For nonvacant sites, a description of the existing use of each property. If a site subject to this paragraph is owned by the city or county, the description shall also include whether there are any plans to dispose of the property during the planning period and how the city or county will comply with Article 8 (commencing with Section 54220) of Chapter 5 of Part 1 of Division 2 of Title 5.

(4) A general description of any environmental constraints to the development of housing within the jurisdiction, the documentation for which has been made available to the jurisdiction. This information need not be identified on a site-specific basis.

(5) (A) A description of existing or planned water, sewer, and other dry utilities supply, including the availability and access to distribution facilities.

(B) Parcels included in the inventory must have sufficient water, sewer, and dry utilities supply available and accessible to support housing development or be included in an existing general plan program or other mandatory program or plan, including a program or plan of a public or private entity providing water or sewer service, to secure sufficient water, sewer, and dry utilities supply to support housing development. This paragraph does not impose any additional duty on the city or county to construct, finance, or otherwise provide water, sewer, or dry utilities to parcels included in the inventory.

(6) Sites identified as available for housing for above moderate-income households in areas not served by public sewer systems. This information need not be identified on a site-specific basis.

(7) A map that shows the location of the sites included in the inventory, such as the land use map from the jurisdiction's general plan, for reference purposes only.

(c) Based on the information provided in subdivision (b), a city or county shall determine whether each site in the inventory can accommodate the development of some portion of its share of the regional housing need by income level during the planning period, as determined pursuant to Section 65584. The inventory shall specify for each site the number of units that can realistically be accommodated on that site and whether the site is adequate to accommodate lower income housing, moderate-income housing, or above moderate-income housing. A nonvacant site identified pursuant to paragraph (3) or (4) of subdivision (a) in a prior housing element and a vacant site that has been included in two or more consecutive planning periods that was not approved to develop a portion of the locality's housing need shall not be deemed adequate to accommodate a portion of the housing need for lower income households that must be accommodated in the current housing element planning period unless the site is zoned at residential densities consistent with paragraph (3) of this subdivision and the site is subject to a program in the housing element requiring rezoning by the applicable deadline for rezoning set forth in subparagraph (A) of paragraph (1) of subdivision (c) of Section 65583 to allow residential use by right for housing developments in which at least 20 percent of the units are affordable to lower income households. An unincorporated area in a nonmetropolitan county pursuant to clause (ii) of subparagraph (B) of paragraph (3) shall not be subject to the requirements of this subdivision to allow residential use by right. The analysis shall determine whether the inventory can provide for a variety of types of housing, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing, and whether the inventory affirmatively furthers fair housing. The city or county shall determine the number of housing units that can be accommodated on each site as follows:

(1) If local law or regulations require the development of a site at a minimum density, the department shall accept the planning agency's calculation of the total housing unit capacity on that site based on the established minimum density. If the city or

county does not adopt a law or regulation requiring the development of a site at a minimum density, then it shall demonstrate how the number of units determined for that site pursuant to this subdivision will be accommodated.

(2) The number of units calculated pursuant to paragraph (1) shall be adjusted as necessary, based on the land use controls and site improvements requirement identified in paragraph (5) of subdivision (a) of Section 65583, the realistic development capacity for the site, typical densities of existing or approved residential developments at a similar affordability level in that jurisdiction, and on the current or planned availability and accessibility of sufficient water, sewer, and dry utilities.

(A) A site smaller than half an acre shall not be deemed adequate to accommodate lower income housing need unless the locality can demonstrate that sites of equivalent size were successfully developed during the prior planning period for an equivalent number of lower income housing units as projected for the site or unless the locality provides other evidence to the department that the site is adequate to accommodate lower income housing.

(B) A site larger than 10 acres shall not be deemed adequate to accommodate lower income housing need unless the locality can demonstrate that sites of equivalent size were successfully developed during the prior planning period for an equivalent number of lower income housing units as projected for the site or unless the locality provides other evidence to the department that the site can be developed as lower income housing. For purposes of this subparagraph, "site" means that portion of a parcel or parcels designated to accommodate lower income housing needs pursuant to this subdivision.

(C) A site may be presumed to be realistic for development to accommodate lower income housing need if, at the time of the adoption of the housing element, a development affordable to lower income households has been proposed and approved for development on the site.

(3) For the number of units calculated to accommodate its share of the regional housing need for lower income households pursuant to paragraph (2), a city or county shall do either of the following:

(A) Provide an analysis demonstrating how the adopted densities accommodate this need. The analysis shall include, but is not limited to, factors such as market demand, financial feasibility, or information based on development project experience within a zone or zones that provide housing for lower income households.

(B) The following densities shall be deemed appropriate to accommodate housing for lower income households:

(i) For an incorporated city within a nonmetropolitan county and for a nonmetropolitan county that has a micropolitan area: sites allowing at least 15 units per acre.

(ii) For an unincorporated area in a nonmetropolitan county not included in clause (i): sites allowing at least 10 units per acre.

(iii) For a suburban jurisdiction: sites allowing at least 20 units per acre.

(iv) For a jurisdiction in a metropolitan county: sites allowing at least 30 units per acre.

(4) (A) For a metropolitan jurisdiction:

(i) At least 25 percent of the jurisdiction's share of the regional housing need for moderate-income housing shall be allocated to sites with zoning that allows at least four units of housing, but not more than 100 units per acre of housing.

(ii) At least 25 percent of the jurisdiction's share of the regional housing need for above moderate-income housing shall be allocated to sites with zoning that allows at least 4 units of housing.

(B) The allocation of moderate-income and above moderate-income housing to sites pursuant to this paragraph shall not be a basis for the jurisdiction to do either of the following:

(i) Deny a project that does not comply with the allocation.

(ii) Impose a price minimum, price maximum, price control, or any other exaction or condition of approval in lieu thereof. This clause does not prohibit a jurisdiction from imposing any price minimum, price maximum, price control, exaction, or condition in lieu thereof, pursuant to any other law.

(iii) The provisions of this subparagraph do not constitute a change in, but are declaratory of, existing law with regard to the allocation of sites pursuant to this section.

(C) This paragraph does not apply to an unincorporated area.

(D) For purposes of this paragraph:

(i) "Housing development project" has the same meaning as defined in paragraph (2) of subdivision (h) of Section 65589.5.

(ii) "Unit of housing" does not include an accessory dwelling unit or junior accessory dwelling unit that could be approved pursuant to Article 2 (commencing with Section 66314) or Article 3 (commencing with Section 66333) of Chapter 13 or through a local ordinance or other provision implementing either of those articles. This paragraph shall not limit the ability of a local government to count the actual production of accessory dwelling units or junior accessory dwelling units in an annual progress report submitted pursuant to Section 65400 or other progress report as determined by the department.

(E) Nothing in this subdivision shall preclude the subdivision of a parcel, provided that the subdivision is subject to the Subdivision Map Act (Division 2 (commencing with Section 66410)) or any other applicable law authorizing the subdivision of land.

(d) For purposes of this section, a metropolitan county, nonmetropolitan county, and nonmetropolitan county with a micropolitan area shall be as determined by the United States Census Bureau. A nonmetropolitan county with a micropolitan area includes the following counties: Del Norte, Humboldt, Lake, Mendocino, Nevada, Tehama, and Tuolumne and other counties as may be determined by the United States Census Bureau to be nonmetropolitan counties with micropolitan areas in the future.

(e) (1) Except as provided in paragraph (2), a jurisdiction shall be considered suburban if the jurisdiction does not meet the requirements of clauses (i) and (ii) of subparagraph (B) of paragraph (3) of subdivision (c) and is located in a Metropolitan Statistical Area (MSA) of less than 2,000,000 in population, unless that jurisdiction's population is greater than 100,000, in which case it shall be considered metropolitan. A county, not including the City and County of San Francisco, shall be considered suburban unless the county is in an MSA of 2,000,000 or greater in population, in which case the county shall be considered metropolitan.

(2) (A) (i) Notwithstanding paragraph (1), if a county that is in the San Francisco-Oakland-Fremont California MSA has a population of less than 400,000, that county shall be considered suburban. If this county includes an incorporated city that has a population of less than 100,000, this city shall also be considered suburban. This paragraph shall apply to a housing element revision cycle, as described in subparagraph (A) of paragraph (3) of subdivision (e) of Section 65588, that is in effect from July 1, 2014, to December 31, 2028, inclusive.

(ii) A county subject to this subparagraph shall utilize the sum existing in the county's housing trust fund as of June 30, 2013, for the development and preservation of housing affordable to low- and very low income households.

(B) A jurisdiction that is classified as suburban pursuant to this paragraph shall report to the Assembly Committee on Housing and Community Development, the Senate Committee on Housing, and the Department of Housing and Community Development regarding its progress in developing low- and very low income housing consistent with the requirements of Section 65400. The report shall be provided three times: once, on or before December 31, 2019, which report shall address the initial four years of the housing element cycle, a second time, on or before December 31, 2023, which report shall address the subsequent four years of the housing element cycle, and a third time, on or before December 31, 2027, which report shall address the subsequent four years of the housing element cycle and the cycle as a whole. The reports shall be provided consistent with the requirements of Section 9795.

(f) A jurisdiction shall be considered metropolitan if the jurisdiction does not meet the requirements for "suburban area" above and is located in an MSA of 2,000,000 or greater in population, unless that jurisdiction's population is less than 25,000 in which case it shall be considered suburban.

(g) (1) For sites described in paragraph (3) of subdivision (b), the city or county shall specify the additional development potential for each site within the planning period and shall provide an explanation of the methodology used to determine the development potential. The methodology shall consider factors including the extent to which existing uses may constitute an impediment to additional residential development, the city's or county's past experience with converting existing uses to higher density residential development, the current market demand for the existing use, an analysis of any existing leases or other contracts that would perpetuate the existing use or prevent redevelopment of the site for additional residential development, development trends, market conditions, and regulatory or other incentives or standards to encourage additional residential development on these sites.

(2) In addition to the analysis required in paragraph (1), when a city or county is relying on nonvacant sites described in paragraph (3) of subdivision (b) to accommodate 50 percent or more of its housing need for lower income households, the methodology used to determine additional development potential shall demonstrate that the existing use identified pursuant to paragraph (3) of subdivision (b) does not constitute an impediment to additional residential development during the period

covered by the housing element. An existing use shall be presumed to impede additional residential development, absent findings based on substantial evidence that the use is likely to be discontinued during the planning period.

(3) Notwithstanding any other law, and in addition to the requirements in paragraphs (1) and (2), sites that currently have residential uses, or within the past five years have had residential uses that have been vacated or demolished, that are or were subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of low or very low income, subject to any other form of rent or price control through a public entity's valid exercise of its police power, or occupied by low- or very low income households, shall be subject to a policy requiring the replacement of all those units affordable to the same or lower income level as a condition of any development on the site. Replacement requirements shall be consistent with those set forth in paragraph (3) of subdivision (c) of Section 65915.

(h) (1) The program required by subparagraph (A) of paragraph (1) of subdivision (c) of Section 65583 shall accommodate 100 percent of the need for housing for lower income households allocated pursuant to Section 65584 for which site capacity has not been identified in the inventory of sites pursuant to paragraph (3) of subdivision (a) on sites that shall be zoned to permit owner-occupied and rental multifamily residential use by right for developments in which at least 20 percent of the units are affordable to lower income households during the planning period.

(2) These sites shall be zoned with minimum density and development standards that permit at least 16 units per site at a density of at least 16 units per acre in jurisdictions described in clause (i) of subparagraph (B) of paragraph (3) of subdivision (c), shall be at least 20 units per acre in jurisdictions described in clauses (iii) and (iv) of subparagraph (B) of paragraph (3) of subdivision (c), and shall meet the standards set forth in subparagraph (B) of paragraph (5) of subdivision (b). At least 50 percent of the lower income housing need shall be accommodated on sites designated for residential use and for which nonresidential uses or mixed uses are not permitted, except that a city or county may accommodate all of the lower income housing need on sites designated for mixed use if those sites allow 100 percent residential use and require that residential use occupy 50 percent of the total floor area of a mixed-use project.

(i) For purposes of this section and Section 65583, the phrase "use by right" shall mean that the local government's review of the owner-occupied or multifamily residential use may not require a conditional use permit, planned unit development permit, or other discretionary local government review or approval that would constitute a "project" for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code. Any subdivision of the sites shall be subject to all laws, including, but not limited to, the local government ordinance implementing the Subdivision Map Act. A local ordinance may provide that "use by right" does not exempt the use from design review. However, that design review shall not constitute a "project" for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code. Use by right for all rental multifamily residential housing shall be provided in accordance with subdivision (f) of Section 65589.5.

(j) Notwithstanding any other provision of this section, within one-half mile of a Sonoma-Marín Area Rail Transit station, housing density requirements in place on June 30, 2014, shall apply.

(k) For purposes of subdivisions (a) and (b), the department shall provide guidance to local governments to properly survey, detail, and account for sites listed pursuant to Section 65585.

(l) (1) The changes to this section made by Chapter 193 of the Statutes of 2020 shall become operative on January 1, 2022.

(2) The changes to this section made by Chapter 193 of the Statutes of 2020 shall not apply to a housing element revision that is originally due on or before January 1, 2022, regardless of the date of adoption by the local agency.

(m) This section shall remain in effect only until December 31, 2028, and as of that date is repealed.

SEC. 7. Section 65583.2 of the Government Code, as amended by Section 6 of Chapter 7 of the Statutes of 2024, is amended to read:

65583.2. (a) A city's or county's inventory of land suitable for residential development pursuant to paragraph (3) of subdivision (a) of Section 65583 shall be used to identify sites throughout the community, consistent with paragraph (10) of subdivision (c) of Section 65583, that can be developed for housing within the planning period and that are sufficient to provide for the jurisdiction's share of the regional housing need for all income levels pursuant to Section 65584. As used in this section, "land suitable for residential development" includes all of the following sites that meet the standards set forth in subdivisions (c) and (g):

(1) Vacant sites zoned for residential use.

(2) Vacant sites zoned for nonresidential use that allows residential development.

(3) Residentially zoned sites that are capable of being developed at a higher density, and sites owned or leased by a city, county, or city and county.

(4) Sites zoned for nonresidential use that can be redeveloped for residential use, and for which the housing element includes a program to rezone the site, as necessary, to permit residential use, including sites owned or leased by a city, county, or city and county.

(b) The inventory of land shall include all of the following:

(1) A listing of properties by assessor parcel number.

(2) The size of each property listed pursuant to paragraph (1), and the general plan designation and zoning of each property.

(3) For nonvacant sites, a description of the existing use of each property. If a site subject to this paragraph is owned by the city or county, the description shall also include whether there are any plans to dispose of the property during the planning period and how the city or county will comply with Article 8 (commencing with Section 54220) of Chapter 5 of Part 1 of Division 2 of Title 5.

(4) A general description of any environmental constraints to the development of housing within the jurisdiction, the documentation for which has been made available to the jurisdiction. This information need not be identified on a site-specific basis.

(5) (A) A description of existing or planned water, sewer, and other dry utilities supply, including the availability and access to distribution facilities.

(B) Parcels included in the inventory must have sufficient water, sewer, and dry utilities supply available and accessible to support housing development or be included in an existing general plan program or other mandatory program or plan, including a program or plan of a public or private entity providing water or sewer service, to secure sufficient water, sewer, and dry utilities supply to support housing development. This paragraph does not impose any additional duty on the city or county to construct, finance, or otherwise provide water, sewer, or dry utilities to parcels included in the inventory.

(6) Sites identified as available for housing for above moderate-income households in areas not served by public sewer systems. This information need not be identified on a site-specific basis.

(7) A map that shows the location of the sites included in the inventory, such as the land use map from the jurisdiction's general plan for reference purposes only.

(c) Based on the information provided in subdivision (b), a city or county shall determine whether each site in the inventory can accommodate the development of some portion of its share of the regional housing need by income level during the planning period, as determined pursuant to Section 65584. The inventory shall specify for each site the number of units that can realistically be accommodated on that site and whether the site is adequate to accommodate lower income housing, moderate-income housing, or above moderate-income housing. A nonvacant site identified pursuant to paragraph (3) or (4) of subdivision (a) in a prior housing element and a vacant site that has been included in two or more consecutive planning periods that was not approved to develop a portion of the locality's housing need shall not be deemed adequate to accommodate a portion of the housing need for lower income households that must be accommodated in the current housing element planning period unless the site is zoned at residential densities consistent with paragraph (3) of this subdivision and the site is subject to a program in the housing element requiring rezoning within three years of the beginning of the planning period to allow residential use by right for housing developments in which at least 20 percent of the units are affordable to lower income households. Notwithstanding the foregoing, for a local government that fails to adopt a housing element that the department has found to be in substantial compliance with state law within 120 days of the statutory deadline in Section 65588 for adoption of the housing element, rezoning pursuant to this subdivision shall be completed no later than one year from the statutory deadline in Section 65588 for adoption of the housing element. An unincorporated area in a nonmetropolitan county pursuant to clause (ii) of subparagraph (B) of paragraph (3) shall not be subject to the requirements of this subdivision to allow residential use by right. The analysis shall determine whether the inventory can provide for a variety of types of housing, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing, and whether the inventory affirmatively furthers fair housing. The city or county shall determine the number of housing units that can be accommodated on each site as follows:

(1) If local law or regulations require the development of a site at a minimum density, the department shall accept the planning agency's calculation of the total housing unit capacity on that site based on the established minimum density. If the city or county does not adopt a law or regulation requiring the development of a site at a minimum density, then it shall demonstrate how the number of units determined for that site pursuant to this subdivision will be accommodated.

(2) The number of units calculated pursuant to paragraph (1) shall be adjusted as necessary, based on the land use controls and site improvements requirement identified in paragraph (5) of subdivision (a) of Section 65583, the realistic development

capacity for the site, typical densities of existing or approved residential developments at a similar affordability level in that jurisdiction, and on the current or planned availability and accessibility of sufficient water, sewer, and dry utilities.

(A) A site smaller than half an acre shall not be deemed adequate to accommodate lower income housing need unless the locality can demonstrate that sites of equivalent size were successfully developed during the prior planning period for an equivalent number of lower income housing units as projected for the site or unless the locality provides other evidence to the department that the site is adequate to accommodate lower income housing.

(B) A site larger than 10 acres shall not be deemed adequate to accommodate lower income housing need unless the locality can demonstrate that sites of equivalent size were successfully developed during the prior planning period for an equivalent number of lower income housing units as projected for the site or unless the locality provides other evidence to the department that the site can be developed as lower income housing. For purposes of this subparagraph, "site" means that portion of a parcel or parcels designated to accommodate lower income housing needs pursuant to this subdivision.

(C) A site may be presumed to be realistic for development to accommodate lower income housing need if, at the time of the adoption of the housing element, a development affordable to lower income households has been proposed and approved for development on the site.

(3) For the number of units calculated to accommodate its share of the regional housing need for lower income households pursuant to paragraph (2), a city or county shall do either of the following:

(A) Provide an analysis demonstrating how the adopted densities accommodate this need. The analysis shall include, but is not limited to, factors such as market demand, financial feasibility, or information based on development project experience within a zone or zones that provide housing for lower income households.

(B) The following densities shall be deemed appropriate to accommodate housing for lower income households:

(i) For an incorporated city within a nonmetropolitan county and for a nonmetropolitan county that has a micropolitan area: sites allowing at least 15 units per acre.

(ii) For an unincorporated area in a nonmetropolitan county not included in clause (i): sites allowing at least 10 units per acre.

(iii) For a suburban jurisdiction: sites allowing at least 20 units per acre.

(iv) For a jurisdiction in a metropolitan county: sites allowing at least 30 units per acre.

(4) (A) For a metropolitan jurisdiction:

(i) At least 25 percent of the jurisdiction's share of the regional housing need for moderate-income housing shall be allocated to sites with zoning that allows at least 4 units of housing, but not more than 100 units per acre of housing.

(ii) At least 25 percent of the jurisdiction's share of the regional housing need for above moderate-income housing shall be allocated to sites with zoning that allows at least 4 units of housing.

(B) The allocation of moderate-income and above moderate-income housing to sites pursuant to this paragraph shall not be a basis for the jurisdiction to do either of the following:

(i) Deny a project that does not comply with the allocation.

(ii) Impose a price minimum, price maximum, price control, or any other exaction or condition of approval in lieu thereof. This clause does not prohibit a jurisdiction from imposing any price minimum, price maximum, price control, exaction, or condition in lieu thereof, pursuant to any other law.

(iii) The provisions of this subparagraph do not constitute a change in, but are declaratory of, existing law with regard to the allocation of sites pursuant to this section.

(C) This paragraph does not apply to an unincorporated area.

(D) For purposes of this paragraph:

(i) "Housing development project" has the same meaning as defined in paragraph (2) of subdivision (h) of Section 65589.5.

(ii) "Unit of housing" does not include an accessory dwelling unit or junior accessory dwelling unit that could be approved pursuant to Article 2 (commencing with Section 66314) or Article 3 (commencing with Section 66333) of Chapter 13 or

through a local ordinance or other provision implementing either of those sections. This paragraph shall not limit the ability of a local government to count the actual production of accessory dwelling units or junior accessory dwelling units in an annual progress report submitted pursuant to Section 65400 or other progress report as determined by the department.

(E) Nothing in this subdivision shall preclude the subdivision of a parcel, provided that the subdivision is subject to the Subdivision Map Act (Division 2 (commencing with Section 66410)) or any other applicable law authorizing the subdivision of land.

(d) For purposes of this section, a metropolitan county, nonmetropolitan county, and nonmetropolitan county with a micropolitan area shall be as determined by the United States Census Bureau. A nonmetropolitan county with a micropolitan area includes the following counties: Del Norte, Humboldt, Lake, Mendocino, Nevada, Tehama, and Tuolumne and other counties as may be determined by the United States Census Bureau to be nonmetropolitan counties with micropolitan areas in the future.

(e) A jurisdiction shall be considered suburban if the jurisdiction does not meet the requirements of clauses (i) and (ii) of subparagraph (B) of paragraph (3) of subdivision (c) and is located in a Metropolitan Statistical Area (MSA) of less than 2,000,000 in population, unless that jurisdiction's population is greater than 100,000, in which case it shall be considered metropolitan. A county, not including the City and County of San Francisco, shall be considered suburban unless the county is in an MSA of 2,000,000 or greater in population in which case the county shall be considered metropolitan.

(f) A jurisdiction shall be considered metropolitan if the jurisdiction does not meet the requirements for "suburban area" above and is located in an MSA of 2,000,000 or greater in population, unless that jurisdiction's population is less than 25,000 in which case it shall be considered suburban.

(g) (1) For sites described in paragraph (3) of subdivision (b), the city or county shall specify the additional development potential for each site within the planning period and shall provide an explanation of the methodology used to determine the development potential. The methodology shall consider factors including the extent to which existing uses may constitute an impediment to additional residential development, the city's or county's past experience with converting existing uses to higher density residential development, the current market demand for the existing use, an analysis of any existing leases or other contracts that would perpetuate the existing use or prevent redevelopment of the site for additional residential development, development trends, market conditions, and regulatory or other incentives or standards to encourage additional residential development on these sites.

(2) In addition to the analysis required in paragraph (1), when a city or county is relying on nonvacant sites described in paragraph (3) of subdivision (b) to accommodate 50 percent or more of its housing need for lower income households, the methodology used to determine additional development potential shall demonstrate that the existing use identified pursuant to paragraph (3) of subdivision (b) does not constitute an impediment to additional residential development during the period covered by the housing element. An existing use shall be presumed to impede additional residential development, absent findings based on substantial evidence that the use is likely to be discontinued during the planning period.

(3) Notwithstanding any other law, and in addition to the requirements in paragraphs (1) and (2), sites that currently have residential uses, or within the past five years have had residential uses that have been vacated or demolished, that are or were subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of low or very low income, subject to any other form of rent or price control through a public entity's valid exercise of its police power, or occupied by low- or very low income households, shall be subject to a policy requiring the replacement of all those units affordable to the same or lower income level as a condition of any development on the site. Replacement requirements shall be consistent with those set forth in paragraph (3) of subdivision (c) of Section 65915.

(h) (1) The program required by subparagraph (A) of paragraph (1) of subdivision (c) of Section 65583 shall accommodate 100 percent of the need for housing for lower income households allocated pursuant to Section 65584 for which site capacity has not been identified in the inventory of sites pursuant to paragraph (3) of subdivision (a) on sites that shall be zoned to permit owner-occupied and rental multifamily residential use by right for developments in which at least 20 percent of the units are affordable to lower income households during the planning period.

(2) These sites shall be zoned with minimum density and development standards that permit at least 16 units per site at a density of at least 16 units per acre in jurisdictions described in clause (i) of subparagraph (B) of paragraph (3) of subdivision (c), shall be at least 20 units per acre in jurisdictions described in clauses (iii) and (iv) of subparagraph (B) of paragraph (3) of subdivision (c), and shall meet the standards set forth in subparagraph (B) of paragraph (5) of subdivision (b). At least 50 percent of the lower income housing need shall be accommodated on sites designated for residential use and for which nonresidential uses or mixed uses are not permitted, except that a city or county may accommodate all of the lower income housing need on sites designated for mixed use if those sites allow 100 percent residential use and require that residential use occupy 50 percent of the total floor area of a mixed-use project.

(i) For purposes of this section and Section 65583, the phrase “use by right” shall mean that the local government’s review of the owner-occupied or multifamily residential use may not require a conditional use permit, planned unit development permit, or other discretionary local government review or approval that would constitute a “project” for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code. Any subdivision of the sites shall be subject to all laws, including, but not limited to, the local government ordinance implementing the Subdivision Map Act. A local ordinance may provide that “use by right” does not exempt the use from design review. However, that design review shall not constitute a “project” for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code. Use by right for all rental multifamily residential housing shall be provided in accordance with subdivision (f) of Section 65589.5.

(j) For purposes of subdivisions (a) and (b), the department shall provide guidance to local governments to properly survey, detail, and account for sites listed pursuant to Section 65585.

(k) This section shall become operative on December 31, 2028.

SEC. 7.5. Section 65583.2 of the Government Code, as amended by Section 6 of Chapter 7 of the Statutes of 2024, is amended to read:

65583.2. (a) A city’s or county’s inventory of land suitable for residential development pursuant to paragraph (3) of subdivision (a) of Section 65583 shall be used to identify sites throughout the community, consistent with paragraph (10) of subdivision (c) of Section 65583, that can be developed for housing within the planning period and that are sufficient to provide for the jurisdiction’s share of the regional housing need for all income levels pursuant to Section 65584. As used in this section, “land suitable for residential development” includes all of the following sites that meet the standards set forth in subdivisions (c) and (g):

(1) Vacant sites zoned for residential use.

(2) Vacant sites zoned for nonresidential use that allows residential development.

(3) Residentially zoned sites that are capable of being developed at a higher density, and sites owned or leased by a city, county, or city and county.

(4) Sites zoned for nonresidential use that can be redeveloped for residential use, and for which the housing element includes a program to rezone the site, as necessary, to permit residential use, including sites owned or leased by a city, county, or city and county.

(b) The inventory of land shall include all of the following:

(1) A listing of properties by assessor parcel number.

(2) The size of each property listed pursuant to paragraph (1), and the general plan designation and zoning of each property.

(3) For nonvacant sites, a description of the existing use of each property. If a site subject to this paragraph is owned by the city or county, the description shall also include whether there are any plans to dispose of the property during the planning period and how the city or county will comply with Article 8 (commencing with Section 54220) of Chapter 5 of Part 1 of Division 2 of Title 5.

(4) A general description of any environmental constraints to the development of housing within the jurisdiction, the documentation for which has been made available to the jurisdiction. This information need not be identified on a site-specific basis.

(5) (A) A description of existing or planned water, sewer, and other dry utilities supply, including the availability and access to distribution facilities.

(B) Parcels included in the inventory must have sufficient water, sewer, and dry utilities supply available and accessible to support housing development or be included in an existing general plan program or other mandatory program or plan, including a program or plan of a public or private entity providing water or sewer service, to secure sufficient water, sewer, and dry utilities supply to support housing development. This paragraph does not impose any additional duty on the city or county to construct, finance, or otherwise provide water, sewer, or dry utilities to parcels included in the inventory.

(6) Sites identified as available for housing for above moderate-income households in areas not served by public sewer systems. This information need not be identified on a site-specific basis.

(7) A map that shows the location of the sites included in the inventory, such as the land use map from the jurisdiction’s general plan for reference purposes only.

(c) Based on the information provided in subdivision (b), a city or county shall determine whether each site in the inventory can accommodate the development of some portion of its share of the regional housing need by income level during the planning period, as determined pursuant to Section 65584. The inventory shall specify for each site the number of units that can realistically be accommodated on that site and whether the site is adequate to accommodate lower income housing, moderate-income housing, or above moderate-income housing. A nonvacant site identified pursuant to paragraph (3) or (4) of subdivision (a) in a prior housing element and a vacant site that has been included in two or more consecutive planning periods that was not approved to develop a portion of the locality's housing need shall not be deemed adequate to accommodate a portion of the housing need for lower income households that must be accommodated in the current housing element planning period unless the site is zoned at residential densities consistent with paragraph (3) of this subdivision and the site is subject to a program in the housing element requiring rezoning by the applicable deadline for rezoning set forth in subparagraph (A) of paragraph (1) of subdivision (c) of Section 65583 to allow residential use by right for housing developments in which at least 20 percent of the units are affordable to lower income households. An unincorporated area in a nonmetropolitan county pursuant to clause (ii) of subparagraph (B) of paragraph (3) shall not be subject to the requirements of this subdivision to allow residential use by right. The analysis shall determine whether the inventory can provide for a variety of types of housing, including multifamily rental housing, factory-built housing, mobilehomes, housing for agricultural employees, supportive housing, single-room occupancy units, emergency shelters, and transitional housing, and whether the inventory affirmatively furthers fair housing. The city or county shall determine the number of housing units that can be accommodated on each site as follows:

(1) If local law or regulations require the development of a site at a minimum density, the department shall accept the planning agency's calculation of the total housing unit capacity on that site based on the established minimum density. If the city or county does not adopt a law or regulation requiring the development of a site at a minimum density, then it shall demonstrate how the number of units determined for that site pursuant to this subdivision will be accommodated.

(2) The number of units calculated pursuant to paragraph (1) shall be adjusted as necessary, based on the land use controls and site improvements requirement identified in paragraph (5) of subdivision (a) of Section 65583, the realistic development capacity for the site, typical densities of existing or approved residential developments at a similar affordability level in that jurisdiction, and on the current or planned availability and accessibility of sufficient water, sewer, and dry utilities.

(A) A site smaller than half an acre shall not be deemed adequate to accommodate lower income housing need unless the locality can demonstrate that sites of equivalent size were successfully developed during the prior planning period for an equivalent number of lower income housing units as projected for the site or unless the locality provides other evidence to the department that the site is adequate to accommodate lower income housing.

(B) A site larger than 10 acres shall not be deemed adequate to accommodate lower income housing need unless the locality can demonstrate that sites of equivalent size were successfully developed during the prior planning period for an equivalent number of lower income housing units as projected for the site or unless the locality provides other evidence to the department that the site can be developed as lower income housing. For purposes of this subparagraph, "site" means that portion of a parcel or parcels designated to accommodate lower income housing needs pursuant to this subdivision.

(C) A site may be presumed to be realistic for development to accommodate lower income housing need if, at the time of the adoption of the housing element, a development affordable to lower income households has been proposed and approved for development on the site.

(3) For the number of units calculated to accommodate its share of the regional housing need for lower income households pursuant to paragraph (2), a city or county shall do either of the following:

(A) Provide an analysis demonstrating how the adopted densities accommodate this need. The analysis shall include, but is not limited to, factors such as market demand, financial feasibility, or information based on development project experience within a zone or zones that provide housing for lower income households.

(B) The following densities shall be deemed appropriate to accommodate housing for lower income households:

(i) For an incorporated city within a nonmetropolitan county and for a nonmetropolitan county that has a micropolitan area: sites allowing at least 15 units per acre.

(ii) For an unincorporated area in a nonmetropolitan county not included in clause (i): sites allowing at least 10 units per acre.

(iii) For a suburban jurisdiction: sites allowing at least 20 units per acre.

(iv) For a jurisdiction in a metropolitan county: sites allowing at least 30 units per acre.

(4) (A) For a metropolitan jurisdiction:

(i) At least 25 percent of the jurisdiction's share of the regional housing need for moderate-income housing shall be allocated to sites with zoning that allows at least four units of housing, but not more than 100 units per acre of housing.

(ii) At least 25 percent of the jurisdiction's share of the regional housing need for above moderate-income housing shall be allocated to sites with zoning that allows at least 4 units of housing.

(B) The allocation of moderate-income and above moderate-income housing to sites pursuant to this paragraph shall not be a basis for the jurisdiction to do either of the following:

(i) Deny a project that does not comply with the allocation.

(ii) Impose a price minimum, price maximum, price control, or any other exaction or condition of approval in lieu thereof. This clause does not prohibit a jurisdiction from imposing any price minimum, price maximum, price control, exaction, or condition in lieu thereof, pursuant to any other law.

(iii) The provisions of this subparagraph do not constitute a change in, but are declaratory of, existing law with regard to the allocation of sites pursuant to this section.

(C) This paragraph does not apply to an unincorporated area.

(D) For purposes of this paragraph:

(i) "Housing development project" has the same meaning as defined in paragraph (2) of subdivision (h) of Section 65589.5.

(ii) "Unit of housing" does not include an accessory dwelling unit or junior accessory dwelling unit that could be approved pursuant to Article 2 (commencing with Section 66314) or Article 3 (commencing with Section 66333) of Chapter 13 or through a local ordinance or other provision implementing either of those articles. This paragraph shall not limit the ability of a local government to count the actual production of accessory dwelling units or junior accessory dwelling units in an annual progress report submitted pursuant to Section 65400 or other progress report as determined by the department.

(E) Nothing in this subdivision shall preclude the subdivision of a parcel, provided that the subdivision is subject to the Subdivision Map Act (Division 2 (commencing with Section 66410)) or any other applicable law authorizing the subdivision of land.

(d) For purposes of this section, a metropolitan county, nonmetropolitan county, and nonmetropolitan county with a micropolitan area shall be as determined by the United States Census Bureau. A nonmetropolitan county with a micropolitan area includes the following counties: Del Norte, Humboldt, Lake, Mendocino, Nevada, Tehama, and Tuolumne and other counties as may be determined by the United States Census Bureau to be nonmetropolitan counties with micropolitan areas in the future.

(e) A jurisdiction shall be considered suburban if the jurisdiction does not meet the requirements of clauses (i) and (ii) of subparagraph (B) of paragraph (3) of subdivision (c) and is located in a Metropolitan Statistical Area (MSA) of less than 2,000,000 in population, unless that jurisdiction's population is greater than 100,000, in which case it shall be considered metropolitan. A county, not including the City and County of San Francisco, shall be considered suburban unless the county is in an MSA of 2,000,000 or greater in population in which case the county shall be considered metropolitan.

(f) A jurisdiction shall be considered metropolitan if the jurisdiction does not meet the requirements for "suburban area" above and is located in an MSA of 2,000,000 or greater in population, unless that jurisdiction's population is less than 25,000 in which case it shall be considered suburban.

(g) (1) For sites described in paragraph (3) of subdivision (b), the city or county shall specify the additional development potential for each site within the planning period and shall provide an explanation of the methodology used to determine the development potential. The methodology shall consider factors including the extent to which existing uses may constitute an impediment to additional residential development, the city's or county's past experience with converting existing uses to higher density residential development, the current market demand for the existing use, an analysis of any existing leases or other contracts that would perpetuate the existing use or prevent redevelopment of the site for additional residential development, development trends, market conditions, and regulatory or other incentives or standards to encourage additional residential development on these sites.

(2) In addition to the analysis required in paragraph (1), when a city or county is relying on nonvacant sites described in paragraph (3) of subdivision (b) to accommodate 50 percent or more of its housing need for lower income households, the methodology used to determine additional development potential shall demonstrate that the existing use identified pursuant to paragraph (3) of subdivision (b) does not constitute an impediment to additional residential development during the period

covered by the housing element. An existing use shall be presumed to impede additional residential development, absent findings based on substantial evidence that the use is likely to be discontinued during the planning period.

(3) Notwithstanding any other law, and in addition to the requirements in paragraphs (1) and (2), sites that currently have residential uses, or within the past five years have had residential uses that have been vacated or demolished, that are or were subject to a recorded covenant, ordinance, or law that restricts rents to levels affordable to persons and families of low or very low income, subject to any other form of rent or price control through a public entity's valid exercise of its police power, or occupied by low- or very low income households, shall be subject to a policy requiring the replacement of all those units affordable to the same or lower income level as a condition of any development on the site. Replacement requirements shall be consistent with those set forth in paragraph (3) of subdivision (c) of Section 65915.

(h) (1) The program required by subparagraph (A) of paragraph (1) of subdivision (c) of Section 65583 shall accommodate 100 percent of the need for housing for lower income households allocated pursuant to Section 65584 for which site capacity has not been identified in the inventory of sites pursuant to paragraph (3) of subdivision (a) on sites that shall be zoned to permit owner-occupied and rental multifamily residential use by right for developments in which at least 20 percent of the units are affordable to lower income households during the planning period.

(2) These sites shall be zoned with minimum density and development standards that permit at least 16 units per site at a density of at least 16 units per acre in jurisdictions described in clause (i) of subparagraph (B) of paragraph (3) of subdivision (c), shall be at least 20 units per acre in jurisdictions described in clauses (iii) and (iv) of subparagraph (B) of paragraph (3) of subdivision (c), and shall meet the standards set forth in subparagraph (B) of paragraph (5) of subdivision (b). At least 50 percent of the lower income housing need shall be accommodated on sites designated for residential use and for which nonresidential uses or mixed uses are not permitted, except that a city or county may accommodate all of the lower income housing need on sites designated for mixed use if those sites allow 100 percent residential use and require that residential use occupy 50 percent of the total floor area of a mixed-use project.

(i) For purposes of this section and Section 65583, the phrase "use by right" shall mean that the local government's review of the owner-occupied or multifamily residential use may not require a conditional use permit, planned unit development permit, or other discretionary local government review or approval that would constitute a "project" for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code. Any subdivision of the sites shall be subject to all laws, including, but not limited to, the local government ordinance implementing the Subdivision Map Act. A local ordinance may provide that "use by right" does not exempt the use from design review. However, that design review shall not constitute a "project" for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code. Use by right for all rental multifamily residential housing shall be provided in accordance with subdivision (f) of Section 65589.5.

(j) For purposes of subdivisions (a) and (b), the department shall provide guidance to local governments to properly survey, detail, and account for sites listed pursuant to Section 65585.

(k) This section shall become operative on December 31, 2028.

SEC. 8. Section 65584 of the Government Code is amended to read:

65584. (a) (1) For the fourth and subsequent revisions of the housing element pursuant to Section 65588, the department shall determine the existing and projected need for housing for each region pursuant to this article. For purposes of subdivision (a) of Section 65583, the share of a city or county of the regional housing need shall include that share of the housing need of persons at all income levels within the area significantly affected by the general plan of the city or county.

(2) It is the intent of the Legislature that cities, counties, and cities and counties should undertake all necessary actions to encourage, promote, and facilitate the development of housing to accommodate the entire regional housing need, and reasonable actions should be taken by local and regional governments to ensure that future housing production meets, at a minimum, the regional housing need established for planning purposes. These actions shall include applicable reforms and incentives in Section 65582.1.

(3) The Legislature finds and declares that insufficient housing in job centers hinders the state's environmental quality and runs counter to the state's environmental goals. In particular, when Californians seeking affordable housing are forced to drive longer distances to work, an increased amount of greenhouse gases and other pollutants are released and puts in jeopardy the achievement of the state's climate goals, as established pursuant to Section 38566 of the Health and Safety Code, and clean air goals.

(b) The department, in consultation with each council of governments, shall determine each region's existing and projected housing need pursuant to Section 65584.01 at least two years prior to the scheduled revision required pursuant to Section 65588. The appropriate council of governments, or for cities and counties without a council of governments, the department, shall adopt a final regional housing need plan that allocates a share of the regional housing need to each city, county, or city and county at

least one year prior to the scheduled revision for the region required by Section 65588. The allocation plan prepared by a council of governments shall be prepared pursuant to Sections 65584.04 and 65584.05.

(c) Notwithstanding any other provision of law, the due dates for the determinations of the department or for the council of governments, respectively, regarding the regional housing need may be extended by the department by not more than 60 days if the extension will enable access to more recent critical population or housing data from a pending or recent release of the United States Census Bureau or the Department of Finance. If the due date for the determination of the department or the council of governments is extended for this reason, the department shall extend the corresponding housing element revision deadline pursuant to Section 65588 by not more than 60 days.

(d) The regional housing needs allocation plan shall further all of the following objectives:

(1) Increasing the housing supply and the mix of housing types, tenure, and affordability in all cities and counties within the region in an equitable manner, which shall result in each jurisdiction receiving an allocation of units for low- and very low income households. The regional housing needs allocation plan shall allocate units for extremely low- and acutely low income households in a manner that is roughly proportional to, and within a range of 3 percent of, the housing need for very low income households.

(2) Promoting infill development and socioeconomic equity, the protection of environmental and agricultural resources, the encouragement of efficient development patterns, and the achievement of the region's greenhouse gas reductions targets provided by the State Air Resources Board pursuant to Section 65080.

(3) Promoting an improved intraregional relationship between jobs and housing, including an improved balance between the number of low-wage jobs and the number of housing units affordable to low-wage workers in each jurisdiction.

(4) Allocating a lower proportion of housing need to an income category when a jurisdiction already has a disproportionately high share of households in that income category, as compared to the countywide distribution of households in that category from the most recent American Community Survey.

(5) Affirmatively furthering fair housing.

(e) For purposes of this section, "affirmatively furthering fair housing" means taking meaningful actions, in addition to combating discrimination, that overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristics. Specifically, affirmatively furthering fair housing means taking meaningful actions that, taken together, address significant disparities in housing needs and in access to opportunity, replacing segregated living patterns with truly integrated and balanced living patterns, transforming racially and ethnically concentrated areas of poverty into areas of opportunity, and fostering and maintaining compliance with civil rights and fair housing laws.

(f) (1) Subject to paragraph (2), for purposes of this section with respect to revisions of the housing element through the sixth revision, "household income levels" are as determined by the department pursuant to the following code sections:

(A) Very low incomes, as defined by Section 50105 of the Health and Safety Code.

(B) Lower incomes, as defined by Section 50079.5 of the Health and Safety Code.

(C) Moderate incomes, as defined by Section 50093 of the Health and Safety Code.

(D) Above moderate incomes are those exceeding the moderate-income level of Section 50093 of the Health and Safety Code.

(2) For purposes of this section with respect to the seventh and subsequent revisions of the housing element, "household income levels" are as determined by the department in accordance with the definitions of acutely low, extremely low, very low, low, moderate, and above moderate income in Section 65582.

(g) Notwithstanding any other provision of law, determinations made by the department, a council of governments, or a city or county pursuant to this section or Section 65584.01, 65584.02, 65584.03, 65584.04, 65584.05, 65584.06, 65584.07, or 65584.08 are exempt from the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

SEC. 9. Section 65584.01 of the Government Code is amended to read:

65584.01. For the fourth and subsequent revision of the housing element pursuant to Section 65588, the department, in consultation with each council of governments, where applicable, shall determine the existing and projected need for housing for each region in the following manner:

(a) The department's determination shall be based upon population projections produced by the Department of Finance and regional population forecasts used in preparing regional transportation plans, in consultation with each council of governments. If the total regional population forecast for the projection year, developed by the council of governments and used for the preparation of the regional transportation plan, is within a range of 1.5 percent of the total regional population forecast for the projection year by the Department of Finance, then the population forecast developed by the council of governments shall be the basis from which the department determines the existing and projected need for housing in the region. If the difference between the total population projected by the council of governments and the total population projected for the region by the Department of Finance is greater than 1.5 percent, then the department and the council of governments shall meet to discuss variances in methodology used for population projections and seek agreement on a population projection for the region to be used as a basis for determining the existing and projected housing need for the region. If agreement is not reached, then the population projection for the region shall be the population projection for the region prepared by the Department of Finance as may be modified by the department as a result of discussions with the council of governments.

(b) (1) At least 26 months prior to the scheduled revision pursuant to Section 65588 and prior to developing the existing and projected housing need for a region, the department shall meet and consult with the council of governments regarding the assumptions and methodology to be used by the department to determine the region's housing needs. The council of governments shall provide data assumptions from the council's projections, including, if available, the following data for the region:

(A) Anticipated household growth associated with projected population increases.

(B) Household size data and trends in household size.

(C) The percentage of households that are overcrowded and the overcrowding rate for a comparable housing market. For purposes of this subparagraph:

(i) The term "overcrowded" means more than one resident per room in each room in a dwelling.

(ii) The term "overcrowded rate for a comparable housing market" means that the overcrowding rate is no more than the average overcrowding rate in comparable regions throughout the nation, as determined by the council of governments.

(D) The rate of household formation, or headship rates, based on age, gender, ethnicity, or other established demographic measures.

(E) The vacancy rates in existing housing stock, and the vacancy rates for healthy housing market functioning and regional mobility, as well as housing replacement needs. For purposes of this subparagraph, the vacancy rate for a healthy rental housing market shall be considered no less than 5 percent.

(F) Other characteristics of the composition of the projected population.

(G) The relationship between jobs and housing, including any imbalance between jobs and housing.

(H) The percentage of households that are cost burdened and the rate of housing cost burden for a healthy housing market. For the purposes of this subparagraph:

(i) The term "cost burdened" means the share of very low, low-, moderate-, and above moderate-income households that are paying more than 30 percent of household income on housing costs.

(ii) The term "rate of housing cost burden for a healthy housing market" means that the rate of households that are cost burdened is no more than the average rate of households that are cost burdened in comparable regions throughout the nation, as determined by the council of governments.

(I) The loss of units during a state of emergency that was declared by the Governor pursuant to the California Emergency Services Act (Chapter 7 (commencing with Section 8550) of Division 1 of Title 2), during the planning period immediately preceding the relevant revision pursuant to Section 65588 that have yet to be rebuilt or replaced at the time of the data request.

(J) The housing needs of individuals and families experiencing homelessness.

(i) The data utilized by the council of governments shall align with homelessness data best practices as determined by the department.

(ii) Sources of homelessness data may include the Homeless Data Integration System administered by the Interagency Council on Homelessness, the homeless point-in-time count, or other sources deemed appropriate by the department.

(2) The department may accept or reject the information provided by the council of governments or modify its own assumptions or methodology based on this information. After consultation with the council of governments, the department shall make determinations in writing on the assumptions for each of the factors listed in subparagraphs (A) to (I), inclusive, of paragraph (1) and the methodology it shall use and shall provide these determinations to the council of governments. The methodology submitted by the department may make adjustments based on the region's total projected households, which includes existing households as well as projected households.

(c) (1) After consultation with the council of governments, the department shall make a determination of the region's existing and projected housing need based upon the assumptions and methodology determined pursuant to subdivision (b). The region's existing and projected housing need shall reflect the achievement of a feasible balance between jobs and housing within the region using the regional employment projections in the applicable regional transportation plan. Within 30 days following notice of the determination from the department, the council of governments may file an objection to the department's determination of the region's existing and projected housing need with the department.

(2) The objection shall be based on and substantiate either of the following:

(A) The department failed to base its determination on the population projection for the region established pursuant to subdivision (a), and shall identify the population projection which the council of governments believes should instead be used for the determination and explain the basis for its rationale.

(B) The regional housing need determined by the department is not a reasonable application of the methodology and assumptions determined pursuant to subdivision (b). The objection shall include a proposed alternative determination of its regional housing need based upon the determinations made in subdivision (b), including analysis of why the proposed alternative would be a more reasonable application of the methodology and assumptions determined pursuant to subdivision (b).

(3) If a council of governments files an objection pursuant to this subdivision and includes with the objection a proposed alternative determination of its regional housing need, it shall also include documentation of its basis for the alternative determination. Within 45 days of receiving an objection filed pursuant to this section, the department shall consider the objection and make a final written determination of the region's existing and projected housing need that includes an explanation of the information upon which the determination was made.

(d) Statutory changes enacted after the date the department issued a final determination pursuant to this section shall not be a basis for a revision of the final determination.

SEC. 9.5. Section 65584.01 of the Government Code is amended to read:

65584.01. For the fourth and subsequent revision of the housing element pursuant to Section 65588, the department, in consultation with each council of governments, where applicable, shall determine the existing and projected need for housing for each region in the following manner:

(a) The department's determination shall be based upon population projections produced by the Department of Finance and regional population forecasts used in preparing regional transportation plans, in consultation with each council of governments. If the total regional population forecast for the projection year, developed by the council of governments and used for the preparation of the regional transportation plan, is within a range of 1.5 percent of the total regional population forecast for the projection year by the Department of Finance, then the population forecast developed by the council of governments shall be the basis from which the department determines the existing and projected need for housing in the region. If the difference between the total population projected by the council of governments and the total population projected for the region by the Department of Finance is greater than 1.5 percent, then the department and the council of governments shall meet to discuss variances in methodology used for population projections and seek agreement on a population projection for the region to be used as a basis for determining the existing and projected housing need for the region. If agreement is not reached, then the population projection for the region shall be the population projection for the region prepared by the Department of Finance as may be modified by the department as a result of discussions with the council of governments.

(b) (1) At least 26 months prior to the scheduled revision pursuant to Section 65588 and prior to developing the existing and projected housing need for a region, the department shall meet and consult with the council of governments regarding the assumptions and methodology to be used by the department to determine the region's housing needs. The council of governments shall provide data assumptions from the council's projections, including, if available, the following data for the region:

(A) Anticipated household growth associated with projected population increases.

(B) Household size data and trends in household size.

(C) The percentage of households that are overcrowded and the overcrowding rate for a comparable housing market. For purposes of this subparagraph:

(i) The term "overcrowded" means more than one resident per room in each room in a dwelling.

(ii) The term "overcrowding rate for a comparable housing market" means that the overcrowding rate is no more than the average overcrowding rate in comparable regions throughout the nation, as determined by the council of governments.

(D) The rate of household formation, or headship rates, based on age, gender, ethnicity, or other established demographic measures.

(E) The vacancy rates in existing housing stock, and the vacancy rates for healthy housing market functioning and regional mobility, as well as housing replacement needs. For purposes of this subparagraph, the vacancy rate for a healthy rental housing market shall be considered no less than 5 percent.

(F) Other characteristics of the composition of the projected population.

(G) The relationship between jobs and housing, including any imbalance between jobs and housing.

(H) The percentage of households that are cost burdened and the rate of housing cost burden for a healthy housing market. For the purposes of this subparagraph:

(i) The term "cost burdened" means the share of very low, low-, moderate-, and above moderate-income households that are paying more than 30 percent of household income on housing costs.

(ii) The term "rate of housing cost burden for a healthy housing market" means that the rate of households that are cost burdened is no more than the average rate of households that are cost burdened in comparable regions throughout the nation, as determined by the council of governments.

(I) The loss of units during a state of emergency that was declared by the Governor pursuant to the California Emergency Services Act (Chapter 7 (commencing with Section 8550) of Division 1 of Title 2), during the planning period immediately preceding the relevant revision pursuant to Section 65588 that have yet to be rebuilt or replaced at the time of the data request.

(J) The housing needs of individuals and families experiencing homelessness.

(i) The data utilized by the council of governments shall align with homelessness data best practices as determined by the department.

(ii) Sources of homelessness data may include the Homeless Data Integration System administered by the Interagency Council on Homelessness, the homeless point-in-time count, or other sources deemed appropriate by the department.

(2) The department may accept or reject the information provided by the council of governments or modify its own assumptions or methodology based on this information. After consultation with the council of governments, the department shall make determinations in writing on the assumptions for each of the factors listed in subparagraphs (A) to (I), inclusive, of paragraph (1) and the methodology it shall use and shall provide these determinations to the council of governments. The methodology submitted by the department may make adjustments based on the region's total projected households, which includes existing households as well as projected households.

(c) (1) After consultation with the council of governments, the department shall make a determination of the region's existing and projected housing need based upon the assumptions and methodology determined pursuant to subdivision (b). The region's existing and projected housing need shall reflect the achievement of a feasible balance between jobs and housing within the region using the regional employment projections in the applicable regional transportation plan. Within 30 days following notice of the determination from the department, the council of governments may file an objection to the department's determination of the region's existing and projected housing need with the department.

(2) The objection shall be based on and substantiate either of the following:

(A) The department failed to base its determination on the population projection for the region established pursuant to subdivision (a), and shall identify the population projection which the council of governments believes should instead be used for the determination and explain the basis for its rationale.

(B) The regional housing need determined by the department is not a reasonable application of the methodology and assumptions determined pursuant to subdivision (b). The objection shall include a proposed alternative determination of its regional housing need based upon the determinations made in subdivision (b), including analysis of why the proposed

alternative would be a more reasonable application of the methodology and assumptions determined pursuant to subdivision (b).

(3) If a council of governments files an objection pursuant to this subdivision and includes with the objection a proposed alternative determination of its regional housing need, it shall also include documentation of its basis for the alternative determination. Within 45 days of receiving an objection filed pursuant to this section, the department shall consider the objection and make a final written determination of the region's existing and projected housing need that includes an explanation of the information upon which the determination was made.

(4) In regions in which the department is required to distribute the regional housing need pursuant to Section 65584.06, no city or county may file an objection to the regional housing need determination.

(d) Statutory changes enacted after the date the department issued a final determination pursuant to this section shall not be a basis for a revision of the final determination.

SEC. 10. Section 65584.04 of the Government Code, as added by Section 3 of Chapter 948 of the Statutes of 2022, is amended to read:

65584.04. (a) At least two years before a scheduled revision required by Section 65588, each council of governments, or delegate subregion as applicable, shall develop, in consultation with the department, a proposed methodology for distributing the existing and projected regional housing need to cities, counties, and cities and counties within the region or within the subregion, where applicable pursuant to this section. The methodology shall further the objectives listed in subdivision (d) of Section 65584.

(b) (1) No more than six months before the development of a proposed methodology for distributing the existing and projected housing need, each council of governments shall survey each of its member jurisdictions to request, at a minimum, information regarding the factors listed in subdivision (e) that will allow the development of a methodology based upon the factors established in subdivision (e).

(2) With respect to the objective in paragraph (5) of subdivision (d) of Section 65584, the survey shall review and compile information that will allow the development of a methodology based upon the issues, strategies, and actions that are included, as available, in an Analysis of Impediments to Fair Housing Choice or an Assessment of Fair Housing completed by any city or county or the department that covers communities within the area served by the council of governments, and in housing elements adopted pursuant to this article by cities and counties within the area served by the council of governments.

(3) The council of governments shall seek to obtain the information in a manner and format that is comparable throughout the region and utilize readily available data to the extent possible.

(4) The information provided by a local government pursuant to this section shall be used, to the extent possible, by the council of governments, or delegate subregion as applicable, as source information for the methodology developed pursuant to this section. The survey shall state that none of the information received may be used as a basis for reducing the total housing need established for the region pursuant to Section 65584.01.

(5) If the council of governments fails to conduct a survey pursuant to this subdivision, a city, county, or city and county may submit information related to the items listed in subdivision (e) before the public comment period provided for in subdivision (d).

(c) The council of governments shall electronically report the results of the survey of fair housing issues, strategies, and actions compiled pursuant to paragraph (2) of subdivision (b). The report shall describe common themes and effective strategies employed by cities and counties within the area served by the council of governments, including common themes and effective strategies around avoiding the displacement of lower income households. The council of governments shall also identify significant barriers to affirmatively furthering fair housing at the regional level and may recommend strategies or actions to overcome those barriers. A council of governments or metropolitan planning organization, as appropriate, may use this information for any other purpose, including publication within a regional transportation plan adopted pursuant to Section 65080 or to inform the land use assumptions that are applied in the development of a regional transportation plan.

(d) Public participation and access shall be required in the development of the methodology and in the process of drafting and adoption of the allocation of the regional housing needs. Participation by organizations other than local jurisdictions and councils of governments shall be solicited in a diligent effort to achieve public participation of all economic segments of the community as well as members of protected classes under Section 12955. The proposed methodology, along with any relevant underlying data and assumptions, an explanation of how information about local government conditions gathered pursuant to subdivision (b) has been used to develop the proposed methodology, how each of the factors listed in subdivision (e) is incorporated into the methodology, and how the proposed methodology furthers the objectives listed in subdivision (d) of Section 65584, shall be distributed to all cities, counties, any subregions, and members of the public who have made a written or electronic request for the proposed methodology and published on the council of governments', or delegate subregion's, internet website. The council

of governments, or delegate subregion, as applicable, shall conduct at least one public hearing to receive oral and written comments on the proposed methodology.

(e) To the extent that sufficient data is available from local governments pursuant to subdivision (b) or other sources, each council of governments, or delegate subregion as applicable, shall consider including the following factors in developing the methodology that allocates regional housing needs:

(1) Each member jurisdiction's existing and projected jobs and housing relationship. This shall include an estimate based on readily available data on the number of low-wage jobs within the jurisdiction and how many housing units within the jurisdiction are affordable to low-wage workers as well as an estimate based on readily available data, of projected job growth and projected household growth by income level within each member jurisdiction during the planning period.

(2) The opportunities and constraints to development of additional housing in each member jurisdiction, including all of the following:

(A) Lack of capacity for sewer or water service due to federal or state laws, regulations or regulatory actions, or supply and distribution decisions made by a sewer or water service provider other than the local jurisdiction that preclude the jurisdiction from providing necessary infrastructure for additional development during the planning period.

(B) The availability of land suitable for urban development or for conversion to residential use, the availability of underutilized land, and opportunities for infill development and increased residential densities. The council of governments may not limit its consideration of suitable housing sites or land suitable for urban development to existing zoning ordinances and land use restrictions of a locality, but shall consider the potential for increased residential development under alternative zoning ordinances and land use restrictions. The determination of available land suitable for urban development may exclude lands where the Federal Emergency Management Agency (FEMA) or the Department of Water Resources has determined that the flood management infrastructure designed to protect that land is not adequate to avoid the risk of flooding.

(C) Lands preserved or protected from urban development under existing federal or state programs, or both, designed to protect open space, farmland, environmental habitats, and natural resources on a long-term basis, including land zoned or designated for agricultural protection or preservation that is subject to a local ballot measure that was approved by the voters of that jurisdiction that prohibits or restricts conversion to nonagricultural uses.

(D) County policies to preserve prime agricultural land, as defined pursuant to Section 56064, within an unincorporated area and land within an unincorporated area zoned or designated for agricultural protection or preservation that is subject to a local ballot measure that was approved by the voters of that jurisdiction that prohibits or restricts its conversion to nonagricultural uses.

(E) Emergency evacuation route capacity, wildfire risk, sea level rise, and other impacts caused by climate change.

(3) The distribution of household growth assumed for purposes of a comparable period of regional transportation plans and opportunities to maximize the use of public transportation and existing transportation infrastructure.

(4) Agreements between a county and cities in a county to direct growth toward incorporated areas of the county and land within an unincorporated area zoned or designated for agricultural protection or preservation that is subject to a local ballot measure that was approved by the voters of the jurisdiction that prohibits or restricts conversion to nonagricultural uses.

(5) The loss of units contained in assisted housing developments, as defined in paragraph (9) of subdivision (a) of Section 65583, that changed to non-low-income use through mortgage prepayment, subsidy contract expirations, or termination of use restrictions.

(6) The percentage of existing households at each of the income levels listed in subdivision (f) of Section 65584 that are paying more than 30 percent and more than 50 percent of their income in rent.

(7) The rate of overcrowding.

(8) The housing needs of farmworkers.

(9) The housing needs generated by the presence of a private university or a campus of the California State University or the University of California within any member jurisdiction.

(10) The housing needs of individuals and families experiencing homelessness. If a council of governments has surveyed each of its member jurisdictions pursuant to subdivision (b) on or before January 1, 2020, this paragraph shall apply only to the development of methodologies for the seventh and subsequent revisions of the housing element.

(11) The loss of units during a state of emergency that was declared by the Governor pursuant to the California Emergency Services Act (Chapter 7 (commencing with Section 8550) of Division 1 of Title 2), during the planning period immediately preceding the relevant revision pursuant to Section 65588 that have yet to be rebuilt or replaced at the time of the analysis.

(12) The region's greenhouse gas emissions targets provided by the State Air Resources Board pursuant to Section 65080.

(13) Any other factors adopted by the council of governments, that further the objectives listed in subdivision (d) of Section 65584, provided that the council of governments specifies which of the objectives each additional factor is necessary to further. The council of governments may include additional factors unrelated to furthering the objectives listed in subdivision (d) of Section 65584 so long as the additional factors do not undermine the objectives listed in subdivision (d) of Section 65584 and are applied equally across all household income levels as described in subdivision (f) of Section 65584 and the council of governments makes a finding that the factor is necessary to address significant health and safety conditions.

(f) The council of governments, or delegate subregion, as applicable, shall explain in writing how each of the factors described in subdivision (e) was incorporated into the methodology and how the methodology furthers the objectives listed in subdivision (d) of Section 65584. The methodology may include numerical weighting. This information, and any other supporting materials used in determining the methodology, shall be posted on the council of governments', or delegate subregion's, internet website.

(g) The following criteria shall not be a justification for a determination or a reduction in a jurisdiction's share of the regional housing need:

(1) Any ordinance, policy, voter-approved measure, or standard of a city or county that directly or indirectly limits the number of residential building permits issued by a city or county.

(2) Prior underproduction of housing in a city or county from the previous regional housing need allocation, as determined by each jurisdiction's annual production report submitted pursuant to subparagraph (H) of paragraph (2) of subdivision (a) of Section 65400.

(3) Stable population numbers in a city or county from the previous regional housing needs cycle.

(h) Following the conclusion of the public comment period described in subdivision (d) on the proposed allocation methodology, and after making any revisions deemed appropriate by the council of governments, or delegate subregion, as applicable, as a result of comments received during the public comment period, and as a result of consultation with the department, each council of governments, or delegate subregion, as applicable, shall publish a draft allocation methodology on its internet website and submit the draft allocation methodology, along with the information required pursuant to subdivision (e), to the department.

(i) Within 60 days, the department shall review the draft allocation methodology and report its written findings to the council of governments, or delegate subregion, as applicable. In its written findings the department shall determine whether the methodology furthers the objectives listed in subdivision (d) of Section 65584. If the department determines that the methodology is not consistent with subdivision (d) of Section 65584, the council of governments, or delegate subregion, as applicable, shall take one of the following actions:

(1) Revise the methodology to further the objectives listed in subdivision (d) of Section 65584 and adopt a final regional, or subregional, housing need allocation methodology.

(2) Adopt the regional, or subregional, housing need allocation methodology without revisions and include within its resolution of adoption findings, supported by substantial evidence, as to why the council of governments, or delegate subregion, believes that the methodology furthers the objectives listed in subdivision (d) of Section 65584 despite the findings of the department.

(j) If the department's findings are not available within the time limits set by subdivision (i), the council of governments, or delegate subregion, may act without them.

(k) Upon either action pursuant to subdivision (i), the council of governments, or delegate subregion, shall provide notice of the adoption of the methodology to the jurisdictions within the region, or delegate subregion, as applicable, and to the department, and shall publish the adopted allocation methodology, along with its resolution and any adopted written findings, on its internet website.

(l) The department may, within 90 days, review the adopted methodology and report its findings to the council of governments, or delegate subregion.

(m) (1) It is the intent of the Legislature that housing planning be coordinated and integrated with the regional transportation plan. To achieve this goal, the allocation plan shall allocate housing units within the region consistent with the development pattern included in the sustainable communities strategy.

(2) (A) The final allocation plan shall ensure that the total regional housing need, by income category, as determined under Section 65584, is maintained, and that each jurisdiction in the region receive an allocation of units for low- and very low income households.

(B) For the seventh and subsequent revisions of the housing element, the allocation to each region required under subparagraph (A) shall also include an allocation of units for acutely low and extremely low income households.

(3) The resolution approving the final housing need allocation plan shall demonstrate that the plan is consistent with the sustainable communities strategy in the regional transportation plan and furthers the objectives listed in subdivision (d) of Section 65584.

(n) This section shall become operative on January 1, 2025.

SEC. 10.5. Section 65584.04 of the Government Code, as added by Section 3 of Chapter 948 of the Statutes of 2022, is amended to read:

65584.04. (a) At least two years before a scheduled revision required by Section 65588, each council of governments, or delegate subregion as applicable, shall develop, in consultation with the department, a proposed methodology for distributing the existing and projected regional housing need to cities, counties, and cities and counties within the region or within the subregion, where applicable pursuant to this section. The methodology shall further the objectives listed in subdivision (d) of Section 65584.

(b) (1) No more than six months before the development of a proposed methodology for distributing the existing and projected housing need, each council of governments shall survey each of its member jurisdictions to request, at a minimum, information regarding the factors listed in subdivision (e) that will allow the development of a methodology based upon the factors established in subdivision (e).

(2) With respect to the objective in paragraph (5) of subdivision (d) of Section 65584, the survey shall review and compile information that will allow the development of a methodology based upon the issues, strategies, and actions that are included, as available, in an Analysis of Impediments to Fair Housing Choice or an Assessment of Fair Housing completed by any city or county or the department that covers communities within the area served by the council of governments, and in housing elements adopted pursuant to this article by cities and counties within the area served by the council of governments.

(3) The council of governments shall seek to obtain the information in a manner and format that is comparable throughout the region and utilize readily available data to the extent possible.

(4) The information provided by a local government pursuant to this section shall be used, to the extent possible, by the council of governments, or delegate subregion as applicable, as source information for the methodology developed pursuant to this section. The survey shall state that none of the information received may be used as a basis for reducing the total housing need established for the region pursuant to Section 65584.01.

(5) If the council of governments fails to conduct a survey pursuant to this subdivision, a city, county, or city and county may submit information related to the items listed in subdivision (e) before the public comment period provided for in subdivision (d).

(c) The council of governments shall electronically report the results of the survey of fair housing issues, strategies, and actions compiled pursuant to paragraph (2) of subdivision (b). The report shall describe common themes and effective strategies employed by cities and counties within the area served by the council of governments, including common themes and effective strategies around avoiding the displacement of lower income households. The council of governments shall also identify significant barriers to affirmatively furthering fair housing at the regional level and may recommend strategies or actions to overcome those barriers. A council of governments or metropolitan planning organization, as appropriate, may use this information for any other purpose, including publication within a regional transportation plan adopted pursuant to Section 65080 or to inform the land use assumptions that are applied in the development of a regional transportation plan.

(d) Public participation and access shall be required in the development of the methodology and in the process of drafting and adoption of the allocation of the regional housing needs. Participation by organizations other than local jurisdictions and councils of governments shall be solicited in a diligent effort to achieve public participation of all economic segments of the community as well as members of protected classes under Section 12955 and households with special housing needs under paragraph (7) of subdivision (a) of Section 65583. The proposed methodology, along with any relevant underlying data and assumptions, an explanation of how information about local government conditions gathered pursuant to subdivision (b) has been used to develop the proposed methodology, how each of the factors listed in subdivision (e) is incorporated into the methodology, and how the proposed methodology furthers the objectives listed in subdivision (d) of Section 65584, shall be distributed to all cities, counties, any subregions, and members of the public who have made a written or electronic request for the proposed methodology and published on the council of governments', or delegate subregion's, internet website. The council of governments, or delegate

subregion, as applicable, shall conduct at least one public hearing to receive oral and written comments on the proposed methodology.

(e) To the extent that sufficient data is available from local governments pursuant to subdivision (b) or other sources, each council of governments, or delegate subregion as applicable, shall consider including the following factors in developing the methodology that allocates regional housing needs:

(1) Each member jurisdiction's existing and projected jobs and housing relationship. This shall include an estimate based on readily available data on the number of low-wage jobs within the jurisdiction and how many housing units within the jurisdiction are affordable to low-wage workers as well as an estimate based on readily available data, of projected job growth and projected household growth by income level within each member jurisdiction during the planning period.

(2) The opportunities and constraints to development of additional housing in each member jurisdiction, including all of the following:

(A) Lack of capacity for sewer or water service due to federal or state laws, regulations or regulatory actions, or supply and distribution decisions made by a sewer or water service provider other than the local jurisdiction that preclude the jurisdiction from providing necessary infrastructure for additional development during the planning period.

(B) The availability of land suitable for urban development or for conversion to residential use, the availability of underutilized land, and opportunities for infill development and increased residential densities. The council of governments may not limit its consideration of suitable housing sites or land suitable for urban development to existing zoning ordinances and land use restrictions of a locality, but shall consider the potential for increased residential development under alternative zoning ordinances and land use restrictions. The determination of available land suitable for urban development may exclude lands where the Federal Emergency Management Agency (FEMA) or the Department of Water Resources has determined that the flood management infrastructure designed to protect that land is not adequate to avoid the risk of flooding.

(C) Lands preserved or protected from urban development under existing federal or state programs, or both, designed to protect open space, farmland, environmental habitats, and natural resources on a long-term basis, including land zoned or designated for agricultural protection or preservation that is subject to a local ballot measure that was approved by the voters of that jurisdiction that prohibits or restricts conversion to nonagricultural uses.

(D) County policies to preserve prime agricultural land, as defined pursuant to Section 56064, within an unincorporated area and land within an unincorporated area zoned or designated for agricultural protection or preservation that is subject to a local ballot measure that was approved by the voters of that jurisdiction that prohibits or restricts its conversion to nonagricultural uses.

(E) Emergency evacuation route capacity, wildfire risk, sea level rise, and other impacts caused by climate change.

(3) The distribution of household growth assumed for purposes of a comparable period of regional transportation plans and opportunities to maximize the use of public transportation and existing transportation infrastructure.

(4) Agreements between a county and cities in a county to direct growth toward incorporated areas of the county and land within an unincorporated area zoned or designated for agricultural protection or preservation that is subject to a local ballot measure that was approved by the voters of the jurisdiction that prohibits or restricts conversion to nonagricultural uses.

(5) The loss of units contained in assisted housing developments, as defined in paragraph (9) of subdivision (a) of Section 65583, that changed to non-low-income use through mortgage prepayment, subsidy contract expirations, or termination of use restrictions.

(6) The percentage of existing households at each of the income levels listed in subdivision (f) of Section 65584 that are paying more than 30 percent and more than 50 percent of their income in rent.

(7) The rate of overcrowding.

(8) The housing needs of farmworkers.

(9) The housing needs generated by the presence of a private university or a campus of the California State University or the University of California within any member jurisdiction.

(10) The housing needs of individuals and families experiencing homelessness. If a council of governments has surveyed each of its member jurisdictions pursuant to subdivision (b) on or before January 1, 2020, this paragraph shall apply only to the development of methodologies for the seventh and subsequent revisions of the housing element.

(11) The loss of units during a state of emergency that was declared by the Governor pursuant to the California Emergency Services Act (Chapter 7 (commencing with Section 8550) of Division 1 of Title 2), during the planning period immediately preceding the relevant revision pursuant to Section 65588 that have yet to be rebuilt or replaced at the time of the analysis.

(12) The region's greenhouse gas emissions targets provided by the State Air Resources Board pursuant to Section 65080.

(13) Any other factors adopted by the council of governments, that further the objectives listed in subdivision (d) of Section 65584, provided that the council of governments specifies which of the objectives each additional factor is necessary to further. The council of governments may include additional factors unrelated to furthering the objectives listed in subdivision (d) of Section 65584 so long as the additional factors do not undermine the objectives listed in subdivision (d) of Section 65584 and are applied equally across all household income levels as described in subdivision (f) of Section 65584 and the council of governments makes a finding that the factor is necessary to address significant health and safety conditions.

(f) The council of governments, or delegate subregion, as applicable, shall explain in writing how each of the factors described in subdivision (e) was incorporated into the methodology and how the methodology furthers the objectives listed in subdivision (d) of Section 65584. The methodology may include numerical weighting. This information, and any other supporting materials used in determining the methodology, shall be posted on the council of governments', or delegate subregion's, internet website.

(g) The following criteria shall not be a justification for a determination or a reduction in a jurisdiction's share of the regional housing need:

(1) Any ordinance, policy, voter-approved measure, or standard of a city or county that directly or indirectly limits the number of residential building permits issued by a city or county.

(2) Prior underproduction of housing in a city or county from the previous regional housing need allocation, as determined by each jurisdiction's annual production report submitted pursuant to subparagraph (H) of paragraph (2) of subdivision (a) of Section 65400.

(3) Stable population numbers in a city or county from the previous regional housing needs cycle.

(h) Following the conclusion of the public comment period described in subdivision (d) on the proposed allocation methodology, and after making any revisions deemed appropriate by the council of governments, or delegate subregion, as applicable, as a result of comments received during the public comment period, and as a result of consultation with the department, each council of governments, or delegate subregion, as applicable, shall publish a draft allocation methodology on its internet website and submit the draft allocation methodology, along with the information required pursuant to subdivision (e), to the department.

(i) Within 60 days, the department shall review the draft allocation methodology and report its written findings to the council of governments, or delegate subregion, as applicable. In its written findings the department shall determine whether the methodology furthers the objectives listed in subdivision (d) of Section 65584. If the department determines that the methodology is not consistent with subdivision (d) of Section 65584, the council of governments, or delegate subregion, as applicable, shall take one of the following actions:

(1) Revise the methodology to further the objectives listed in subdivision (d) of Section 65584 and adopt a final regional, or subregional, housing need allocation methodology.

(2) Adopt the regional, or subregional, housing need allocation methodology without revisions and include within its resolution of adoption findings, supported by substantial evidence, as to why the council of governments, or delegate subregion, believes that the methodology furthers the objectives listed in subdivision (d) of Section 65584 despite the findings of the department.

(j) If the department's findings are not available within the time limits set by subdivision (i), the council of governments, or delegate subregion, may act without them.

(k) Upon either action pursuant to subdivision (i), the council of governments, or delegate subregion, shall provide notice of the adoption of the methodology to the jurisdictions within the region, or delegate subregion, as applicable, and to the department, and shall publish the adopted allocation methodology, along with its resolution and any adopted written findings, on its internet website.

(l) The department may, within 45 days, review the adopted methodology and report its findings to the council of governments, or delegate subregion.

(m) (1) It is the intent of the Legislature that housing planning be coordinated and integrated with the regional transportation plan. To achieve this goal, the allocation plan shall allocate housing units within the region consistent with the development pattern included in the sustainable communities strategy.

(2) (A) The final allocation plan shall ensure that the total regional housing need, by income category, as determined under Section 65584, is maintained, and that each jurisdiction in the region receive an allocation of units for low- and very low income households.

(B) For the seventh and subsequent revisions of the housing element, the allocation to each region required under subparagraph (A) shall also include an allocation of units for acutely low and extremely low income households.

(3) The resolution approving the final housing need allocation plan shall demonstrate that the plan is consistent with the sustainable communities strategy in the regional transportation plan and furthers the objectives listed in subdivision (d) of Section 65584.

(n) This section shall become operative on January 1, 2025.

SEC. 11. Section 65584.07 of the Government Code is amended to read:

65584.07. (a) During the period between adoption of a final regional housing needs allocation and the due date of the housing element update under Section 65588, the council of governments, subregional entity, or the department, whichever assigned the county's share, shall reduce the share of regional housing needs of a county if all of the following conditions are met:

(1) One or more cities within the county agree to increase its share or their shares in an amount equivalent to the reduction.

(2) The transfer of shares shall only occur between a county and cities within that county.

(3) (A) Except as provided in subparagraph (B), the county's share of low-income and very low income housing shall be reduced only in proportion to the amount by which the county's share of moderate- and above moderate-income housing is reduced.

(B) For the seventh and subsequent revisions of the housing element, the county's share of low-, very low, extremely low, and acutely low income housing shall be reduced only in proportion to the amount by which the county's share of moderate- and above moderate-income housing is reduced.

(4) The council of governments, subregional entity, or the department, whichever assigned the county's share, shall approve the proposed reduction, if it determines that the conditions set forth in paragraphs (1), (2), and (3) have been satisfied. The county and city or cities proposing the transfer shall submit an analysis of the factors and circumstances, with all supporting data, justifying the revision to the council of governments, subregional entity, or the department. The council of governments or subregional entity shall submit a copy of its decision regarding the proposed reduction to the department.

(b) (1) The county and cities that have executed transfers of regional housing needs pursuant to subdivision (a) shall use the revised regional housing need allocation in their housing elements and shall adopt their housing elements by the deadlines set forth in Section 65588.

(2) A city that has received a transfer of a regional housing need pursuant to subdivision (c) shall adopt or amend its housing element within 30 months of the effective date of incorporation.

(3) A county or city that has received a transfer of regional housing need pursuant to subdivision (d) shall amend its housing element within 180 days of the effective date of the transfer.

(4) A county or city is responsible for identifying sites to accommodate its revised regional housing need by the deadlines set forth in paragraphs (1), (2), and (3).

(5) All materials and data used to justify any revision shall be made available upon request to any interested party within seven days upon payment of reasonable costs of reproduction unless the costs are waived due to economic hardship. A fee may be charged to interested parties for any additional costs caused by the amendments made to former subdivision (c) of Section 65584 that reduced from 45 to 7 days the time within which materials and data were required to be made available to interested parties.

(c) (1) If an incorporation of a new city occurs after the council of governments, subregional entity, or the department for areas with no council of governments, has made its final allocation under Section 65584.03, 65584.04, or 65584.06, a portion of the county's allocation shall be transferred to the new city. The city and county may reach a mutually acceptable agreement for transfer of a portion of the county's allocation to the city, which shall be accepted by the council of governments, subregional entity, or the department, whichever allocated the county's share. If the affected parties cannot reach a mutually acceptable agreement, then either party may submit a written request to the council of governments, subregional entity, or to the department for areas with no council of governments, to consider the facts, data, and methodology presented by both parties and determine the number of units, by income category, that should be transferred from the county's allocation to the new city.

(2) Within 90 days after the date of incorporation, either the transfer, by income category, agreed upon by the city and county, or a written request for a transfer, shall be submitted to the council of governments, subregional entity, or to the department, whichever allocated the county's share. A mutually acceptable transfer agreement shall be effective immediately upon receipt by the council of governments, the subregional entity, or the department. A copy of a written transfer request submitted to the council of governments shall be submitted to the department. The council of governments, subregional entity, or the department, whichever allocated the county's share, shall make the transfer effective within 180 days after receipt of the written request. If the council of governments allocated the county's share, the transfer shall be based on the methodology adopted pursuant to Section 65584.04. If the subregional entity allocated the subregion's share, the transfer shall be based on the methodology adopted pursuant to Section 65584.03. If the department allocated the county's share, the transfer shall be based on the considerations specified in Section 65584.06. The transfer shall neither reduce the total regional housing needs nor change the regional housing needs allocated to other cities by the council of governments, subregional entity, or the department. A copy of the transfer finalized by the council of governments or subregional entity shall be submitted to the department. The council of governments, the subregional entity, or the department, as appropriate, may extend the 90-day deadline if it determines an extension is consistent with the objectives of this article.

(d) (1) If an annexation of unincorporated land to a city occurs after the council of governments, subregional entity, or the department for areas with no council of governments, has made its final allocation under Section 65584.03, 65584.04, or 65584.06, a portion of the county's allocation may be transferred to the city. The city and county may reach a mutually acceptable agreement for transfer of a portion of the county's allocation to the city, which shall be accepted by the council of governments, subregional entity, or the department, whichever allocated the county's share. If the affected parties cannot reach a mutually acceptable agreement, then either party may submit a written request to the council of governments, subregional entity, or to the department for areas with no council of governments, to consider the facts, data, and methodology presented by both parties and determine the number of units, by income category, that should be transferred from the county's allocation to the city.

(2) (A) Except as provided under subparagraph (B), within 90 days after the date of annexation, either the transfer, by income category, agreed upon by the city and county, or a written request for a transfer, shall be submitted to the council of governments, subregional entity, and to the department. A mutually acceptable transfer agreement shall be effective immediately upon receipt by the council of governments, the subregional entity, or the department. The council of governments, subregional entity, or the department for areas with no council of governments, shall make the transfer effective within 180 days after receipt of the written request. If the council of governments allocated the county's share, the transfer shall be based on the methodology adopted pursuant to Section 65584.04. If the subregional entity allocated the subregion's share, the transfer shall be based on the methodology adopted pursuant to Section 65584.03. If the department allocated the county's share, the transfer shall be based on the considerations specified in Section 65584.06. The transfer shall neither reduce the total regional housing needs nor change the regional housing needs allocated to other cities by the council of governments, subregional entity, or the department for areas with no council of governments. A copy of the transfer finalized by the council of governments or subregional entity shall be submitted to the department. The council of governments, the subregional entity, or the department, as appropriate, may extend the 90-day deadline if it determines an extension is consistent with the objectives of this article.

(B) If the annexed land is subject to a development agreement authorized under subdivision (b) of Section 65865 that was entered into by a city and a landowner prior to January 1, 2008, the revised determination shall be based upon the number of units allowed by the development agreement.

(3) A transfer shall not be made when the council of governments or the department, as applicable, confirms that the annexed land was fully incorporated into the methodology used to allocate the city's share of the regional housing needs.

SEC. 12. The Legislature finds and declares that the creation of housing, especially affordable housing, to combat the state's housing crisis and severe shortage of housing is a matter of statewide concern and is not a municipal affair as that term is used in Section 5 of Article XI of the California Constitution. Therefore, Sections 1 to 11, inclusive, of this act amending Sections 65400, 65582, 65583, 65583.1, 65583.2, 65584, 65584.01, 65584.04, and 65584.07 of, and adding Section 65583.05 to, the Government Code, apply to all cities, including charter cities.

SEC. 13. (a) Section 1.1 of this bill incorporates amendments to Section 65400 of the Government Code proposed by both this bill and Assembly Bill 2580. That section of this bill shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2025, (2) each bill amends Section 65400 of the Government Code, (3) Assembly Bill 2667 is not enacted or as enacted does not amend that section, and (4) this bill is enacted after Assembly Bill 2580, in which case Sections 1, 1.2, and 1.3 of this bill shall not become operative.

(b) Section 1.2 of this bill incorporates amendments to Section 65400 of the Government Code proposed by both this bill and Assembly Bill 2667. That section of this bill shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2025, (2) each bill amends Section 65400 of the Government Code, (3) Assembly Bill 2580 is not enacted or as

enacted does not amend that section, and (4) this bill is enacted after Assembly Bill 2667 in which case Sections 1, 1.1, and 1.3 of this bill shall not become operative.

(c) Section 1.3 of this bill incorporates amendments to Section 65400 of the Government Code proposed by this bill, Assembly Bill 2580, and Assembly Bill 2667. That section of this bill shall only become operative if (1) all three bills are enacted and become effective on or before January 1, 2025, (2) all three bills amend Section 65400 of the Government Code, and (3) this bill is enacted after Assembly Bill 2580 and Assembly Bill 2667, in which case Sections 1, 1.1, and 1.2 of this bill shall not become operative.

SEC. 14. (a) Section 3.1 of this bill incorporates amendments to Section 65583 of the Government Code proposed by both this bill and Assembly Bill 2023. That section of this bill shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2025, (2) each bill amends Section 65583 of the Government Code, (3) Assembly Bill 2667 is not enacted or as enacted does not amend that section, and (4) this bill is enacted after Assembly Bill 2023, in which case Sections 3, 3.2, and 3.3 of this bill shall not become operative.

(b) Section 3.2 of this bill incorporates amendments to Section 65583 of the Government Code proposed by both this bill and Assembly Bill 2667. That section of this bill shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2025, (2) each bill amends Section 65583 of the Government Code, (3) Assembly Bill 2023 is not enacted or as enacted does not amend that section, and (4) this bill is enacted after Assembly Bill 2667 in which case Sections 3, 3.1, and 3.3 of this bill shall not become operative.

(c) Section 3.3 of this bill incorporates amendments to Section 65583 of the Government Code proposed by this bill, Assembly Bill 2023, and Assembly Bill 2667. That section of this bill shall only become operative if (1) all three bills are enacted and become effective on or before January 1, 2025, (2) all three bills amend Section 65583 of the Government Code, and (3) this bill is enacted after Assembly Bill 2023 and Assembly Bill 2667, in which case Sections 3, 3.1, and 3.2 of this bill shall not become operative.

SEC. 15. Section 6.5 of this bill incorporates amendments to Section 65583.2 of the Government Code proposed by both this bill and Assembly Bill 2023. That section of this bill shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2025, (2) each bill amends Section 65583.2 of the Government Code, and (3) this bill is enacted after Assembly Bill 2023, in which case Section 6 of this bill shall not become operative.

SEC. 16. Section 7.5 of this bill incorporates amendments to Section 65583.2 of the Government Code proposed by both this bill and Assembly Bill 2023. That section of this bill shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2025, (2) each bill amends Section 65583.2 of the Government Code, and (3) this bill is enacted after Assembly Bill 2023, in which case Section 7 of this bill shall not become operative.

SEC. 17. Section 9.5 of this bill incorporates amendments to Section 65584.01 of the Government Code proposed by both this bill and Senate Bill 7. That section of this bill shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2025, (2) each bill amends Section 65584.01 of the Government Code, and (3) this bill is enacted after Senate Bill 7, in which case Section 9 of this bill shall not become operative.

SEC. 18. Section 10.5 of this bill incorporates amendments to Section 65584.04 of the Government Code proposed by both this bill and Senate Bill 7. That section of this bill shall only become operative if (1) both bills are enacted and become effective on or before January 1, 2025, (2) each bill amends Section 65584.04 of the Government Code, and (3) this bill is enacted after Senate Bill 7, in which case Section 10 of this bill shall not become operative.

SEC. 19. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because a local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act, within the meaning of Section 17556 of the Government Code.
