Relative to childhood apraxia of speech.

LEGISLATIVE COUNSEL'S DIGEST

HR 37, as introduced, Soria.

WHEREAS, Childhood apraxia of speech, a neurological speech disorder, affects a child's ability to correctly produce the sounds and syllables that are necessary to form words; and

WHEREAS, Children with childhood apraxia of speech understand language and know what they want to say, but have trouble putting thoughts into words that others can consistently understand; and

WHEREAS, Without appropriate and timely speech intervention, children are at risk for literacy delays and other educational-related delays; and

WHEREAS, Children with childhood apraxia of speech can learn to use their own voices, but only with early intervention and intensive and frequent speech therapy; and

WHEREAS, We encourage insurance providers and schools to recognize the critical need to provide adequate speech therapy so that the impact of this disorder can be minimized, and so these children can grow into productive, contributing adults; and

WHEREAS, Increasing public awareness about childhood apraxia of speech is imperative, and will serve as a safeguard against educational bias and social stigma and contribute to each affected individual's overall well-being; and

WHEREAS, Apraxia Kids, the nation's only nonprofit organization dedicated to supporting children with apraxia and their families, has commemorated May 14 as Apraxia Awareness Day; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly hereby recognizes May 14, 2025, as Apraxia Awareness Day in California to enhance public awareness; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the author for appropriate distribution.
