

Sec. 242.605. MEDICATION REFERENCE SOURCES. An institution shall maintain updated medication reference texts or sources. If the institution has a resident younger than 18 years of age, these texts or sources must include information on pediatric medications, dosages, sites, routes, techniques of administration of medications, desired effects, and possible side effects. Added by Acts 1997, 75th Leg., ch. 1159, Sec. 1.30, eff. Sept. 1, 1997.
