Chapter 449@ Medical and Other Related Facilities

|->

Section 449.39577@ Location to which license applies; name of administrator to appear on license; liability coverage

449.39577 Location to which license applies; name of administrator to appear on license; liability coverage

1.

Except as otherwise provided in this subsection, each license issued to operate a community health worker pool is separate and distinct and is issued to a specific person, who is designated on the license, to operate the community health worker pool at a specific location. The person may operate a community health worker pool at multiple work stations if the community health worker pool maintains the records for the clients, community health workers, other members of the staff of the community health worker pool and operations of the community health worker pool at the specific location designated on the license.

2.

The name of the administrator of the community health worker pool must appear on the face of the license.

3.

Each community health worker pool must retain proof that it is adequately covered against liabilities resulting from claims incurred in the course of operation.

4.

The proof of liability coverage required by subsection 3 must be verified at the time the community health worker pool submits its initial application to the Division for a license and upon request by the Division.

5.

As used in this section, "work station" means a satellite office of a community health worker pool that is established for the sole purposes of providing a location where copies of records may be sent to a community health worker pool and providing a location from which a community health worker may work to serve a geographic area outside the geographic area in which the community health worker normally works.
