

449.4078 Requirements for admission; designation of physician

1.

Each client shall, before being admitted to the facility, provide the facility with: (a) The results of a physical examination conducted by a physician, physician assistant or advanced practice registered nurse within the preceding 6 months; (b) A summary of the client's medical history prepared by a physician, physician assistant or registered nurse, within the preceding 6 months; (c) A statement from the client's physician which indicates that the facility is an appropriate setting for the client; and (d) Any special dietary requirements.

(a)

The results of a physical examination conducted by a physician, physician assistant or advanced practice registered nurse within the preceding 6 months;

(b)

A summary of the client's medical history prepared by a physician, physician assistant or registered nurse, within the preceding 6 months;

(c)

A statement from the client's physician which indicates that the facility is an appropriate setting for the client; and

(d)

Any special dietary requirements.

2.

Each client shall designate a physician to be called in case of emergency. The facility must make all necessary arrangements to secure the services of a licensed physician for a client if his or her own physician is not available.
