

## **449.6137 Requirement for minimum level of care in certain situations**

Each independent center for emergency medical care shall maintain on its premises, during all hours of operation, the staff, equipment and drugs necessary to provide an initial evaluation and stabilization of a patient of any age whose condition threatens the loss of the patient's life, any of his or her limbs or his or her functional ability, including, without limitation, the staff, equipment and drugs necessary to enable the center:

**1.**

To perform advanced cardiopulmonary resuscitation; and

**2.**

To provide appropriate diagnostic radiology and clinical laboratory services.
