Section 449.61166@ Policies and procedures for control of infectious agents and diseases; program to monitor health of employees

449.61166 Policies and procedures for control of infectious agents and diseases; program to monitor health of employees

An obstetric center shall establish a program to monitor the health of each employee of the obstetric center. The program must include, but not be limited to:

1.

Maintaining a separate personnel file for each employee of the obstetric center that must include documentation that the employee has had the tests or obtained the certificates required by NAC 441A.375; and

2.

Documentation as to whether the employee has had: (a) Rubella and, if so, when the employee had rubella. (b) A vaccination for rubella and, if so, when the employee had the vaccination.

(a)

Rubella and, if so, when the employee had rubella.

(b)

A vaccination for rubella and, if so, when the employee had the vaccination.
