

## **449.761 Periodic inspections**

Every home health agency for which a license has been issued will be periodically inspected by an authorized representative of the Division. Reports of each inspection in which deficiencies were found will be prepared by the representative conducting the inspection. A copy of the report will be provided to the administrator of the home health agency within 10 days after the representative who conducted the inspection has conferred with the agency concerning the deficiencies found during the inspection. The administrator shall prepare a plan to correct the deficiencies set forth in the report and submit the plan to the Division within 10 days after receipt of the report from the Division.
