

449.61176 Death of patient; notification of Division; provision of counseling

1.

An obstetric center shall notify the Division of the death of any maternal patient or newborn baby which occurs at the obstetric center. The notification must be made not later than 24 hours after the death of a maternal patient or newborn baby.

2.

An obstetric center shall establish a process pursuant to which appropriate counseling will be provided to staff of the obstetric center, a maternal patient and the family of a maternal patient when a death occurs within the obstetric center.
