## **449.6115 Physician operator or advanced practice registered nurse operator as licensee**

### **1.**

If the licensee is a physician operator or an advanced practice registered nurse operator, the obstetric center operated by the licensee is not required to have a governing body or an administrator. In such a case, the licensee is responsible for complying with the provisions of NAC 449.6113 to 449.61178, inclusive.

### **2.**

As used in this section: (a) "Advanced practice registered nurse operator" means a licensed advanced practice registered nurse who is operating an obstetric center for the purpose of delivering the babies of and providing medical care to his or her own maternal patients. (b) "Physician operator" means a licensed physician who is operating an obstetric center for the purpose of delivering the babies of and providing medical care to his or her own maternal patients.

#### **(a)**

"Advanced practice registered nurse operator" means a licensed advanced practice registered nurse who is operating an obstetric center for the purpose of delivering the babies of and providing medical care to his or her own maternal patients.

#### **(b)**
