

310_675-11-6 Institutional and operational relationships

The ICF/MR-16 may be free standing in a community or may be on campus with a parent institution. The ICF/MR-16 may be an independent ownership and operation or may be part of a larger institutional ownership and operation. In any case, however, the ICF/MR-16 may have an effective, continuous relationship with a full scope ICF/MR which allows all necessary support and professional services as well as the expeditious transfer of residents if and when necessary.
