Section 411-090-0210@ Reporting Requirements

OR

411-090-0210 Reporting Requirements

(1)

REPORTING REQUIREMENTS. Endorsed Ventilator Assisted Program facilities shall report information to the Department in the form and format determined by the Department.

(2)

Facilities shall provide a quarterly Ventilator Assisted Program Client Utilization Report that contains the following data elements: (a) Client Name. (b) Valid ICD-9 CM diagnosis. (c) Type of respiratory services provided to the resident and the previous care setting if other than a hospital. (d) Summary of respiratory interventions. (e) Response to, or effectiveness of, ventilator or tracheotomy weaning. (f) Number of, and reasons for, respiratory hospitalizations. (g) Number of program residents who left the program, reason for leaving (death, weaned, or on a ventilator), and place of discharge. (h) Listing of trend data, by facility and resident, of reportable incidents including, but not limited to: (A) Unplanned ventilator "disconnects". (B) Resident removal of their own trach tube. (C) Paramedic calls. (D) Resident deaths.

  (a)

  Client Name.

  (b)

  Valid ICD-9 CM diagnosis.

(c)

Type of respiratory services provided to the resident and the previous care setting if other than a hospital.

(d)

Summary of respiratory interventions.

(e)

Response to, or effectiveness of, ventilator or tracheotomy weaning.

(f)

Number of, and reasons for, respiratory hospitalizations.

(g)

Number of program residents who left the program, reason for leaving (death, weaned, or on a ventilator), and place of discharge.

(h)

Listing of trend data, by facility and resident, of reportable incidents including, but not limited to: (A) Unplanned ventilator "disconnects". (B) Resident removal of their own trach tube. (C) Paramedic calls. (D) Resident deaths.

   (A)

   Unplanned ventilator "disconnects".

   (B)

   Resident removal of their own trach tube.

   (C)

   Paramedic calls.

   (D)

   Resident deaths.
