

## **388-97-2160 Types of new construction**

New construction includes, but is not limited to:

### **(1)**

New structures. (a) A new building to be licensed as a nursing home; or (b) An addition to a building currently licensed as a nursing home.

#### **(a)**

A new building to be licensed as a nursing home; or

#### **(b)**

An addition to a building currently licensed as a nursing home.

### **(2)**

Existing buildings. (a) Conversion of another building to a nursing home; (b) Change in the use of space for access by residents within an existing nursing home; and (c) Alterations including physical, mechanical, or electrical changes made to an existing nursing home, except for normal routine maintenance and repair.

#### **(a)**

Conversion of another building to a nursing home;

#### **(b)**

Change in the use of space for access by residents within an existing nursing home; and

#### **(c)**

Alterations including physical, mechanical, or electrical changes made to an existing

nursing home, except for normal routine maintenance and repair.

**(3)**

See WAC 388-97-3400(3) for less extensive alterations.
