

388-97-3060 Lighting

The nursing home must ensure that lighting and lighting levels:

(1)

Are adequate and comfortable for the functions being conducted in each area of the nursing home;

(2)

Are suitable for any task the resident chooses or any task the staff must do;

(3)

Support the independent functioning of the resident;

(4)

Provide a homelike environment; and

(5)

Minimize glare.
