

11-12 Specialized Rehabilitative Services

(a)

Facilities admitting patients in need of specialized rehabilitative services shall provide such services by qualified personnel. (i) Rehabilitative care initiated in the hospital shall be continued immediately upon admission to the facility. (ii) The facility that does not employ qualified personnel to provide a specialized service shall have a written agreement with the outside resource. (iii) Facilities that do not provide specialized rehabilitative services shall not admit or retain residents in need of specialized rehabilitative services. (iv) A report on the resident's progress shall be communicated to the attending physician within two (2) weeks of the initiation of the specialized rehabilitative service. (v) The resident's progress shall be reviewed regularly thereafter and the plan of rehabilitative care shall be reevaluated at least every thirty (30) days by the physician and therapist. (vi) Safe and adequate space and equipment shall be available if the facility provides specialized rehabilitative services.

(i)

Rehabilitative care initiated in the hospital shall be continued immediately upon admission to the facility.

(ii)

The facility that does not employ qualified personnel to provide a specialized service shall have a written agreement with the outside resource.
