

L670

(Rev. 210; Issued:02-03-23; Effective:02-03-23; Implementation:02-03-23)

§418.104 Condition of participation: Clinical records.

A clinical record containing past and current findings is maintained for each hospice patient. The clinical record must contain correct clinical information that is available to the patient's attending physician and hospice staff. The clinical record may be maintained electronically.
