

**(Rev. 135, Issued: 02-27-15, Effective: 04-27-15, Implementation: 04-27-15)**

**§483.460(a)(1) The facility must ensure the availability of physician services 24 hours a day.**

**Guidance §483.460(a)(1)**

A designated physician must be available via telephone, pager, e-mail or on-site in the facility on a 24 hour per day basis for consultation regarding both emergency and non-emergency medical issues. If the facility employs a fulltime physician, there must be procedures in place for coverage in the absence of the physician from the facility.

If the facility contracts with a community-based physician for 24 hour per day coverage, there must be written arrangements in place to detail the responsibilities of the contract physician regarding direct services to the clients, interactions with the direct support staff and the interactions between the nursing staff of the facility and the contract physician. The contract with the contract physician must delineate the process for coverage when he/she is not available.

Upon interview, the staff should be aware of the procedures they are to follow to contact a physician in the event of an illness or injury. Routinely sending clients to emergent care or the emergency room of a hospital because there are no facility physicians available for consultation is not consistent with the regulations.

Interview and record review verify that the physician is available and responsive 24 hours a day.
