### **CMS Gives States Additional Flexibility to Address Coronavirus Pandemic**

CMS has approved more than 125 requests for state relief in response to the COVID-19 pandemic, including recent approvals for Arizona, Illinois, Iowa, Louisiana, Maine, Maryland, Nebraska, New Mexico, North Carolina, Oregon, Rhode Island, and Washington. These approvals help to ensure that states have the tools they need to combat COVID-19 through a wide variety of waivers, amendments, and Medicaid state plan flexibilities, including for programs that care for the elderly and people with disabilities. CMS developed a [toolkit](#) to expedite the application and review of each request and has approved these requests in record time.
