Subject: Update to HEDIS® 2018 Patient-Level Data Memo dated December 26, 2017

CMS is updating the patient-level file specifications described in the HPMS HEDIS® 2018 Patient-Level Data memo dated December 26, 2017 by increasing the field lengths of the last four variables in the patient record. CMS has posted updated versions of the instructional documents at <http://go.cms.gov/plandata> under the “Downloads” section. The revised versions of the instructional documents provide details about the update.

For questions about this update, please email HEDISquestions@cms.hhs.gov.
