Subject: HPMS CY 2020 Plan Reporting Module Modernization

The Centers for Medicare & Medicaid Services (CMS) is modernizing the HPMS user interface with changes being made to the CY 2020 Plan Reporting Module (PRM). The PRM module is being modernized with the CY 2020 PRM release scheduled for January 2, 2020. Plan Users with access to PRM will see a new look and feel for the PRM module with this release. Only the CY 2020 PRM and future years will be redesigned. All prior calendar years (CY 2019, CY 2018, for example) of PRM will remain in the current design. With the CY 2020 PRM release, please note that HPMS users viewing PRM who still need access to CY 2019 PRM reporting data will need to select the link on the Left navigation rail of PRM entitled 'Pre-2020 Application'. Upon selecting this link, Users will be sent to the current PRM module design in HPMS where they can select the CY 2019 navigation link for reporting purposes. The CY 2019 PRM and prior years will remain unchanged and in their current design. If there are any questions, please contact the MAPD Help Desk or email the HPMS team at hpms@cms.hhs.gov.
