

42030 Treatment Services

Medical treatment shall be rendered by physicians who are certified by their respective specialty boards, except when in the opinion of the specialists, treatment may be delegated or shared with the family physician. Physicians who are not certified but who are eligible by training for the certifying examination may participate in the program for not more than three years. The Director may determine that an applicant physician possesses equivalent qualifications and may be permitted to participate as a physician specialist in accordance with the provisions of Chapter 9, Article 3. This limitation does not apply to physicians on the panel as of the effective date of this regulation.
