

51160 Durable Medical Equipment

Durable medical equipment means equipment prescribed by a licensed practitioner to meet medical equipment needs of the patient that:

(a)

Can withstand repeated use.

(b)

Is used to serve a medical purpose.

(c)

Is not useful to an individual in the absence of an illness, injury, functional impairment, or congenital anomaly.

(d)

Is appropriate for use in or out of the patient's home.
