

65612 Determination of Completeness and Notification

(a)

Within 30 calendar days of receipt of an application for a medical waste treatment facility or transfer station permit, or a request for permit modification pursuant to Section 25078, Health and Safety Code, the enforcement agency shall inform the applicant in writing either that the application is complete and accepted for filing, or that it is deficient and identify the additional specific information necessary for the application to be complete.

(b)

The date on which the application is determined complete for filing, or on which the application is determined deficient, shall be the date on which the enforcement agency's written notification to the applicant is postmarked.
