

66273.54 Response to Releases

(a)

A universal waste transporter shall immediately contain all releases of universal wastes and of residues from universal wastes to the environment.

(b)

A universal waste transporter shall determine whether any material resulting from such a release is a hazardous waste, and if so, shall manage the hazardous waste in compliance with all applicable requirements of this division. The universal waste transporter is considered the generator of any hazardous waste resulting from the release, and is subject to the requirements of chapter 12.

(c)

Hazardous waste consisting only of residue of leaking, broken, or otherwise damaged universal waste may be managed as universal waste provided that the leaking, broken, or otherwise damaged universal waste is repackaged according to the standards of section 66273.33 or 66273.33.5.
