

## 67100.8 Report Format

### (a)

Except as provided in section 67100.2(f) of these regulations and in subsection (b) of this section, each generator shall prepare a report with sufficient detail to convey an understanding of the hazardous waste management approaches used at the site, using narratives, photographs, illustrations, figures or data as necessary, which includes, at a minimum, all of the following: (1) Name and location of the site (2) Four-digit SIC code(s) for the site (3) All of the following information for each waste stream identified pursuant to section 67100.5(h) of these regulations: (A) An estimate, in pounds, of the quantity of hazardous waste generated and the quantity of hazardous waste managed, both onsite and offsite, during the current reporting year and the baseline year. (B) A description of current hazardous waste management approaches and identification of all approaches implemented since the baseline year. (C) An assessment of the effect, since the baseline year, of each implemented hazardous waste management approach on the weight of hazardous waste generated, the properties which cause it to be classified as a hazardous waste and/or the onsite and offsite management of hazardous waste. The report shall consider, but shall not be limited to all of the following approaches: 1. Source reduction; 2. Onsite or offsite recycling; 3. Onsite or offsite treatment. (D) A description of factors during the current reporting year that have affected hazardous waste generation and onsite

and offsite hazardous waste management since the baseline year, including, but not limited to, any of the following: 1. Changes in business activity; 2. Changes in waste classification; 3. Natural phenomena and; 4. Other factors that have affected either the quantity of hazardous waste generated or onsite and offsite hazardous waste management requirements.

**(1)**

Name and location of the site

**(2)**

Four-digit SIC code(s) for the site

**(3)**

All of the following information for each waste stream identified pursuant to section 67100.5(h) of these regulations: (A) An estimate, in pounds, of the quantity of hazardous waste generated and the quantity of hazardous waste managed, both onsite and offsite, during the current reporting year and the baseline year. (B) A description of current hazardous waste management approaches and identification of all approaches implemented since the baseline year. (C) An assessment of the effect, since the baseline year, of each implemented hazardous waste management approach on the weight of hazardous waste generated, the properties which cause it to be classified as a hazardous waste and/or the onsite and offsite management of hazardous waste. The report shall consider, but shall not be limited to all of the following approaches: 1. Source reduction; 2. Onsite or offsite recycling; 3. Onsite or offsite treatment. (D) A description of factors during the current reporting year that have affected hazardous waste generation and onsite and offsite hazardous waste management since the baseline year, including, but not limited to, any of the following:

1. Changes in business activity; 2. Changes in waste classification; 3. Natural phenomena and; 4. Other factors that have affected either the quantity of hazardous

waste generated or onsite and offsite hazardous waste management requirements.

**(A)**

An estimate, in pounds, of the quantity of hazardous waste generated and the quantity of hazardous waste managed, both onsite and offsite, during the current reporting year and the baseline year.

**(B)**

A description of current hazardous waste management approaches and identification of all approaches implemented since the baseline year.

**(C)**

An assessment of the effect, since the baseline year, of each implemented hazardous waste management approach on the weight of hazardous waste generated, the properties which cause it to be classified as a hazardous waste and/or the onsite and offsite management of hazardous waste. The report shall consider, but shall not be limited to all of the following approaches: 1. Source reduction; 2. Onsite or offsite recycling; 3. Onsite or offsite treatment.

**1.**

Source reduction;

**2.**

Onsite or offsite recycling;

**3.**

Onsite or offsite treatment.

**(D)**

A description of factors during the current reporting year that have affected hazardous waste generation and onsite and offsite hazardous waste management since the baseline year, including, but not limited to, any of the following: 1. Changes in business activity; 2. Changes in waste classification; 3. Natural phenomena and; 4. Other factors that have affected

either the quantity of hazardous waste generated or onsite and offsite hazardous waste management requirements.

**1.**

Changes in business activity;

**2.**

Changes in waste classification;

**3.**

Natural phenomena and;

**4.**

Other factors that have affected either the quantity of hazardous waste generated or onsite and offsite hazardous waste management requirements.

**(b)**

If the generator selects the current reporting year as the baseline year, the information required pursuant to subsection (a)(3) of this section shall be provided for the reporting year only.
