Section 67384.9@ Spill Response Best Management Practices for Non-Hazardous Perchlorate Materials

67384.9 Spill Response Best Management Practices for Non-Hazardous Perchlorate Materials

(a)

For spills of non-hazardous perchlorate materials to the environment, a handler of perchlorate materials: (1) Shall immediately take action to stop and contain all spills of perchlorate material; (2) Shall determine whether any material resulting from the spill is hazardous waste, and if so, shall manage the hazardous waste in compliance with all applicable requirements of this division. The handler is considered the generator of the material resulting from the release, and shall manage it in compliance with chapter 12 of this division; (3) Shall collect to the extent practical any material resulting from the spill; and (4) Shall prevent or minimize releases to storm drains.

(1)

Shall immediately take action to stop and contain all spills of perchlorate material;

(2)

Shall determine whether any material resulting from the spill is hazardous waste, and if so, shall manage the hazardous waste in compliance with all applicable requirements of this division. The handler is considered the generator of the material resulting from the release, and shall manage it in compliance with chapter 12 of this division;

(3)

Shall collect to the extent practical any material resulting from the spill; and

(4)

Shall prevent or minimize releases to storm drains.
