Section 67384.5@ Packaging Best Management Practices Requirement for Perchlorate Materials

67384.5 Packaging Best Management Practices Requirement for Perchlorate Materials

(a)

Each package used for the containment of perchlorate materials under this section, unless contained as specified in section 67384.6, shall: (1) be designed, constructed, maintained, filled, its contents so limited, and closed, so that under conditions normally incident to handling, there will be no identifiable release of perchlorate materials to the environment; and (2) be contained in a water-resistant package.

(1)

be designed, constructed, maintained, filled, its contents so limited, and closed, so that under conditions normally incident to handling, there will be no identifiable release of perchlorate materials to the environment; and

(2)

be contained in a water-resistant package.

(b)

Perchlorate-containing products that are constructed and maintained such that they meet the packaging requirement of subsection (a) need not also comply with the containment requirements specified in section 67384.6.
