

69406.1 Combustion Facilitation

(a)

The combustion facilitation hazard trait is defined as a hazard due to a substance causing or contributing to the combustion of another material.

(b)

Evidence for this hazard trait includes, but is not limited to: meeting the criteria for being an oxidizing gas in section 2.4, oxidizing liquid in section 2.13, or oxidizing solid in section 2.14 of the Globally Harmonized System of Classification and Labeling of Chemicals.
