Section 69506.6@ Engineered Safety Measures or Administrative Controls

## **69506.6 Engineered Safety Measures or Administrative Controls**

### **(a)**

Requirement for Controls. The Department may require a manufacturer to engineer safety measures that integrally contain or control access to, and/or implement administrative controls that limit exposure to, the Chemical(s) of Concern or replacement Candidate Chemical(s) in a selected alternative, or the Chemical(s) of Concern in a Priority Product for which an alternative is not selected, to reduce the potential for adverse impacts.

### **(b)**

Criteria. Engineering or administrative controls may be required if one or more of the following applies: (1) Reliable information indicates the presence of the Chemical(s) of Concern or replacement Candidate Chemical(s), or its/their degradate, metabolite, or reaction products, in a particular subpopulation that has one or more routes of exposure to the chemical(s); (2) Reliable information indicates an elevated level of the Chemical(s) of Concern or replacement Candidate Chemical(s) in an indoor building or other enclosed environment; and/or (3) Improper product handling increases the potential for release of, or exposure to, the Chemical(s) of Concern or replacement Candidate Chemical(s).

#### **(1)**

Reliable information indicates the presence of the Chemical(s) of Concern or

replacement Candidate Chemical(s), or its/their degradate, metabolite, or reaction products, in a particular subpopulation that has one or more routes of exposure to the chemical(s);

**(2)**

Reliable information indicates an elevated level of the Chemical(s) of Concern or replacement Candidate Chemical(s) in an indoor building or other enclosed environment; and/or

**(3)**

Improper product handling increases the potential for release of, or exposure to, the Chemical(s) of Concern or replacement Candidate Chemical(s).
