

## § 76077. Individual Program Plan.

---

“Individual program plan” means a written plan of intervention and action that is developed and modified at frequent intervals, with the participation of the interdisciplinary team. It specifies objectives and goals and identifies a continuum of development, outlining projected progressive steps and the developmental consequences of services.

Note: Authority cited: Section 208(a), Health and Safety Code. Reference: Section 1276, Health and Safety Code.
