

73305 Physician Services-Policies and Procedures

There shall be available to attending physicians a list of the services provided in or available through the facility and a listing of the types of patients who may be admitted for care. Information pertinent to the orientation of new physicians to the facility or changes in services or policy shall be made available by the facility.

Patient care policies, manuals or other patient care instruction or reference materials shall be available for review or reference by individual physicians when requested or indicated.
