Section 78313@ Basic Program Services: Nursing Services

78313 Basic Program Services: Nursing Services

(a)

Skilled nursing care shall be available to each participant and shall include at least the following: (1) Initial and continuing assessment of the participant by the registered nurse in the multidisciplinary team and development of a written plan of care. (2) Administration of medications or monitoring of self-administration of medications by participants. (3) Supervision of personal care given by program aides. (4) Maintenance of a participant's health record which includes: (A) Signed quarterly progress notes from each member of the multidisciplinary team and outside consultants. (B) Records of medications and treatments administered. (C) Quarterly narrative nursing note, unless a participant's condition requires a more frequent note, indicating participant's progress toward achieving health goals. (5) Provision of emergency care, including arrangements for transportation. (6) Notification of the physician of any marked change in the participant's condition.

(1)

Initial and continuing assessment of the participant by the registered nurse in the multidisciplinary team and development of a written plan of care.

(2)

Administration of medications or monitoring of self-administration of medications by participants.

(3)

Supervision of personal care given by program aides.

(4)

Maintenance of a participant's health record which includes: (A) Signed quarterly progress notes from each member of the multidisciplinary team and outside consultants. (B) Records of medications and treatments administered. (C) Quarterly narrative nursing note, unless a participant's condition requires a more frequent note, indicating participant's progress toward achieving health goals.

(A)

Signed quarterly progress notes from each member of the multidisciplinary team and outside consultants.

(B)

Records of medications and treatments administered.

(C)

Quarterly narrative nursing note, unless a participant's condition requires a more frequent note, indicating participant's progress toward achieving health goals.

(5)

Provision of emergency care, including arrangements for transportation.

(6)

Notification of the physician of any marked change in the participant's condition.

(b)

A licensed nurse shall be on duty during the hours the center offers basic services.

(c)

Nursing service space shall be provided for the treatment of participants.
