

85022 Plan of Operation

(a)

In addition to Section 80022, the following shall apply. (1) The plan of operation and related materials shall contain the Infection Control Plan pursuant to Section 85095.5(c). (2) The plan of operation shall contain written evidence of arrangements for any consultants and community resources which are to be utilized to meet regulatory requirements or requirements of the facility's plan of operation. (3) When the licensee intends to admit or care for one or more clients with a staph or other serious communicable infection as specified in Section 85092.7, the licensee shall include a plan for serving that client.

(1)

The plan of operation and related materials shall contain the Infection Control Plan pursuant to Section 85095.5(c).

(2)

The plan of operation shall contain written evidence of arrangements for any consultants and community resources which are to be utilized to meet regulatory requirements or requirements of the facility's plan of operation.

(3)

When the licensee intends to admit or care for one or more clients with a staph or other serious communicable infection as specified in Section 85092.7, the licensee shall include a plan for serving that client.
