

97233 Definition of Data Element for Inpatients-Prehospital Care and Resuscitation

Effective with discharges on or after January 1, 1999, information about resuscitation orders in a patient's current medical record shall be reported as follows:

(a)

Yes, a DNR order was written at the time of or within the first 24 hours of the patient's admission to the hospital.

(b)

No, a DNR order was not written at the time of or within the first 24 hours of the patient's admission to the hospital.
