Section 97227@ Definition of Data Element for Inpatients-External Causes of Morbidity and Present on Admission Indicator

97227 Definition of Data Element for Inpatients-External Causes of Morbidity and Present on Admission Indicator

(a)

For discharges occurring on and after October 1, 2015: The external causes of morbidity shall be coded using the ICD-10-CM External Causes of Morbidity (V00-Y99). The external cause of morbidity that resulted in the injury or health condition shall be listed first. Additional cause of morbidity codes shall be reported if necessary to describe the mechanisms that contributed to, or the causal events surrounding, the injury or health condition.

(b)

Effective with discharges on or after July 1, 2008, whether the patient's External Cause of Morbidity was present on admission shall be reported as one of the following: (1) Y. Yes. Condition was present at the time of inpatient admission. (2) N. No. Condition was not present at the time of inpatient admission. (3) U. Unknown. Documentation is insufficient to determine if the condition was present at the time of inpatient admission. (4) W. Clinically undetermined. Provider is unable to clinically determine whether the condition was present at the time of inpatient admission. (5) (blank) Exempt from present on admission reporting.

(1)

Y. Yes. Condition was present at the time of inpatient admission.

(2)

N. No. Condition was not present at the time of inpatient admission.

(3)

U. Unknown. Documentation is insufficient to determine if the condition was present at the time of inpatient admission.

(4)

W. Clinically undetermined. Provider is unable to clinically determine whether the condition was present at the time of inpatient admission.

(5)

(blank) Exempt from present on admission reporting.
