

97520.3 Admission Planning

(a)

The plan for admission to the facility shall be developed by the attending surgeon, and where appropriate the anesthesiologist, and the patient. The plan shall be signed prior to admission by the patient and the attending surgeon and must be concurred to in writing by the Medical Director of the facility.

(b)

The plan for admission, which shall be included in the patient's record, shall include, but not be limited to, the following: (1) Certification that the patient meets the requirements of section 97520.1.(b) and (c). (2) A summary of the patient's pre-surgical physical examination. (3) The planned surgical procedure(s). (4) Date of surgery and location at which surgery is to be performed. (5) Expected length of stay at the facility. (6) Name of the attending surgeon and the anesthesiologist.

(1)

Certification that the patient meets the requirements of section 97520.1.(b) and (c).

(2)

A summary of the patient's pre-surgical physical examination.

(3)

The planned surgical procedure(s).

(4)

Date of surgery and location at which surgery is to be performed.

(5)

Expected length of stay at the facility.

(6)

Name of the attending surgeon and the anesthesiologist.

(c)

A copy of the plan shall be submitted to the facility prior to admission.
