

100157.02 Stroke Critical Care System Plan Updates

(a)

The local EMS agency shall submit an annual update of its Stroke Critical Care System Plan, as part of its annual EMS plan submittal, which shall include, at a minimum, all the following: (1) Any changes in a stroke critical care system since submission of the prior annual plan update or the Stroke Critical Care System Plan addendum. (2) The status of the Stroke Critical Care System Plan goals and objectives. (3) Stroke critical care system performance improvement activities. (4) The progress on addressing action items and recommendations provided by the EMS Authority within the Stroke Critical Care System Plan or status report approval letter, if applicable.

(1)

Any changes in a stroke critical care system since submission of the prior annual plan update or the Stroke Critical Care System Plan addendum.

(2)

The status of the Stroke Critical Care System Plan goals and objectives.

(3)

Stroke critical care system performance improvement activities.

(4)

The progress on addressing action items and recommendations provided by the EMS Authority within the Stroke Critical Care System Plan or status report approval letter, if

applicable.
