Section 101417@ Toddler Component in an Infant Care Center

## **101417 Toddler Component in an Infant Care Center**

### **(a)**

Licensees serving infants may create a special program component for children who are between 18 months and 36 months of age. The provisions of Sections 101151 through 101239.2 and 101351 through 101439.1 shall apply to each infant care center, and each single license child care center providing care to infants operating a toddler component in addition to the components specified in Health and Safety Code section 1596.956. (1) Each infant care center and each single license child care center shall obtain written permission from the child's authorized representative for the placement of the child in the toddler program.

### **(1)**

Each infant care center and each single license child care center shall obtain written permission from the child's authorized representative for the placement of the child in the toddler program.
