- Typically, the software data entry product will calculate this value.
- The HIPPS code is a Skilled Nursing Facility (SNF) Part A five-position billing code; the first four positions represent the PDPM case mix version code and the fifth is the assessment type indicator. For information on HIPPS, access: <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/ProspMedicareFeeSvcPmtGen/index.html>.
- If the value for Z0100A is not automatically calculated by the software data entry product, enter the HIPPS code in the spaces provided (see Chapter 6 of this manual, Medicare Skilled Nursing Facility Prospective Payment System (SNF PPS), for a step-by-step worksheet for manually determining the PDPM case mix version code and a table that defines the assessment indicator).
- This HIPPS code is usually used for Medicare SNF Part A billing by the provider.
- Left-justify the 5-character HIPPS code. The extra two spaces are supplied for future use, if necessary.
